American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands of the Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians, who have tried the Wine.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JANUARY 1, 1862.

A HAPPY NEW YEAR.

On this New Year's morning, we offer to all our subscribers our best wishes for their happiness in the present and in the future: To all true patriots, lovers of liberty as a right, and of law as its defence, we proffer the right hand of fellowship: To the rulers of the land, our loyal support in the day of trial, and our prayer for the divine wisdom which they need: To the traitor and the tyrant, the silent indignation which we lack words to express: To our sailors and soldiers we wish all success; and to the rebels, foolishness in their counsels and defeat on every field.

Well: words are but wind: and good wishes are very cheap. So is the air we breathe: yet we like to have a fair wind when we sail; and a gentle, pleasant, salubrious breeze when we walk abroad. There fore we wish our friends, one and all, a Happy New Year—in which law and order, peace and prosperity may be reinstated in our land, stronger than ever. For this the signs of the times are favorable.—God grant that these glorious events may be hastened.

BANK SUSPENSIONS are not new things. The Bank of England, during the long series of wars on the continent, suspended specie payments for many years, by allowance of Parliament. Most of the banks in the United States, out of New England,—and many in it,—suspended during the war of 1812-15,—and many of them did not resume for years afterwards.

All, or nearly all, of them also suspended in 1837 and 1857.

The Boston Post's "Finance and Business" article says:

"We advocate a bank suspension,—as we advocated peace with England—because the task of crushing the rebellion is the *first* duty of the nation, and because we would have all other things give place to it—because we would do any justifiable thing to speedily and perfectly accomplish that good work,—and bank suspension, *immediate suspension*, in our view, will conduce to the desired end, as it will facilitate government negotiations, keep the money market easy throughout the war, and, by preserving the specie of the Eastern cities intact, and where its large quantity could be appreciated by the people, give strength and confidence to the commercial community.

With suspension, the government is saved from costly, perhaps humiliating, negotiations—it may pay its paper directly to creditors, who will gladly receive what they can pay away. With suspension, the banks overlook each other, as they have done before in similar cases, and Congress overlooks the Treasury. All the *extraordinary* inflation, therefore, will result from government outlay, and this, we believe, will come as surely from the issue of 20 year bonds, as from the issue of demand notes, redeemable after the war.

The inflation from suspension itself, we know all about, from the experience of 1837 and 1857, and it is not at all frightful. With suspension, the foreign capital now here will be kept here, and although we are thankful in having escaped one foreign complication, we cannot but anticipate others from time to time.

Finally, with suspension, the money market will continue easy until the national peace is restored,—and the people of the loyal States will be allowed to be as active, enterprising and prosperous as may be, with a heavy war to carry on, and eventually to pay for.

CONGRESS.—In the Senate Monday, petitions were presented in favor of the abolition of slavery. The Secretary of War declined to furnish the correspondence between Gens. Scott and Patterson.

In the House Mr. Stevens of Penn., introduced a bill to repeal the laws creating ports of entry in the seceded States. Resolutions were adopted calling on the Heads of the Departments to furnish information asked for by the Investigating Committee.

☞ Attachments were filed in the Louisville, Ky., Chancery Court, on Saturday, under the law of subjection to such process the property of rebels who remain in the Southern Confederacy thirty days after its passage, against Gen. Buckner, ex-Minister Preston and Edward Crutchfield's property, to the amount of $20,000 each, and in smaller sums against several others.

☞ A Turin correspondent of the Independance states that Mazzini is dangerously ill in England, and that several of his friends at Genoa and Milan have been summoned to his bedside. The Deputy Saffi, who was his colleague at Rome during the triumvirate of 1849, is said to be among the number.

☞ The Territorial Legislature of New Mexico have, by an almost unanimous vote, repealed the slave code heretofore in force in that Territory.

☞ From the English papers we learn that Miss Martineau has assailed John Bright for his American sympathies, in a letter shrewdish and foolish.

☞ Chas. H. Davis, fleet captain of Flag Officer Dupont, has been promoted to a captaincy for services at Port Royal.

THE REBELLION.

Gen. Frederick W. Lander, who has recovered from his late injuries, has been ordered to take the field in Missouri.

A dispatch from Cairo, via Chicago, reports that there was fighting Monday at Paducah, Ky., but the authorities would not allow any account of it to be sent by telegraph.

2460 cavalry, under Col. Carr, with 15 days' rations, left Rolla, Mo., Sunday, destined, it is supposed, for Springfield, by a circuitous route.

Port Royal letters state than another important gunboat reconnoissance had been made, which pushed to within 15 miles of Charleston, at a town named Rockwell.—Several of our gunboats attacked a rebel battery there on the 20th inst. They shelled out of its vicinity about 400 rebels, supposed to be Charleston Light Infantry. The gunboat Vixen opened fire upon them, when they ran, leaving their knapsacks, many rifles and equipments. Our marines landed and took possession of these, capturing a valuable sword, some uniforms, &c.

Special dispatches from Washington state the government has advices that large numbers of South Carolina and Georgia troops have lately been transferred from the rebel army of the Potomac to their several States.

The rebel officer who recently committed suicide was Gen. Philip St. George Cooke.

The rebel commissary stores, including a portion of the ordnance department, in Nashville, were destroyed by fire on the night of the 22d. The loss is estimated at nearly $1,000,000.

Six escaped contrabands state that everybody at Yorktown is very much frightened, it being believed there that Gen. Burnside's expedition is certainy destined to go up York river, and that Gen. Wool will co-operate in the attack upon Yorktown. Gen. Magruder is said to have telegraphed to Richmond, asking permission to destroy Yorktown by fire, and that he was directed to refrain until he was certain that the place is to be immediately attacked. Strong batteries are placed each side of York River, and a force estimated at 30,000 is in the vicinity of Yorktown.

SINGULAR EXPERIENCE.—The Statesman says there is a young lady in Lynn, Mass., an operative in a shoe factory, whose history is remarkably strange. She is daughter of a family of wealth and distinction in Central Europe; moved in high circles in early life, and waltzed and flirted with the younger members of the Royal Family of her native land. She left her castle-home with false impressions of life, and learned, when too late, that she was regarded as dependant upon, if not the menial of, one by whom her confidence had been betrayed. Though unused to a life of self-dependence and labor, she preferred to be the "architect of her own fortune," though severe toil might await her. She was well educated, and in addition to her own tongue, speaks fluently the Norwegian, Swedish, Danish and English languages—the latter the least so—and has some knowledge of French. The letters which she receives are written in all of these languages, to which she replies with ease and facility.—Unassuming as she is, very few know of her attainments, while she seems content to remain for the present in the humble position in which sad reverses have placed her.

☞ Donald McKay, the eminent ship-builder, proposes in the Commercial Bulletin, a plan by which our Government could soon have a formidable fleet, in case of a war with England. The substance of his plan is this:

—Cut down all our line-of battle-ships one or two decks, plate them with iron, arm them heavily, and moor them across the entrance of our harbors. Plate our heavy frigates with shell-proof iron. Transform 100 of our best merchant steamers into frigates, gunboats, &c. Then, he says, 500 of our clipper ships may be transformed into so many sailing sloops and frigates; 500 barques and brigs armed with from 2 to 20 guns; and 1000 large coasting schooners armed with a heavy pivot gun and 2 to 4 32 pounders. This fleet of 2000 vessels, he argues, can be turned out in four to six months, and thus gain time to build a more permanent one.

☞ Prince Napoleon is the only distinguished man in Europe who has publicly and warmly espoused the cause of the United States. He is next heir to the throne of France, after the Prince Imperial; and if our people ever have an opportunity to do him a good turn, they will not be likely to forget it.

THE RIGHT SORT OF A JEFF. DAVIS.—The Col. Davis who bagged thirteen hundred prisoners in Missouri, is Jefferson C. Davis, of the regular army, and an excellent officer he is. He is a native of Indiana. We can almost pardon him his name in consideration of what he has done. It will not be surprising if the English papers, in speaking of this capture, announce that Jeff. Davis, the President of the Southern Confederacy, has taken the field and captured the Federal army.—*Providence Journal.*

The diplomatic and consular bill contains a provision for consuls in Hayti and Liberia, but without compensation.

OUR LOWER ORDERS.—Mr Russell, in his letter to the London Times on the question of the Trent, says:

"As I write, there is a rumor that Messrs. Slidell and Mason are to be surrendered.—If it be true, *this Government is broken up.* There is so much violence of spirit among the lower orders of people, and they are so ignorant of everything except their own politics and passions, so saturated with pride and vanity, that any honorable concession, even in this hour of extremity, would prove fatal to its authors."

To this, the New York Tribune replies, in an article apparently written before the surrender,—

"Mr. Russell, we apprehend, has been constrained to devote so large a portion of his sojourn in this country to our best society, native and exotic, that he has not yet made himself thoroughly acquainted with "the lower orders." Having been of them and with them for half a century, we think our judgment may fairly be pitted against his in the premises; and we confidently assure him that, should our Government decide, for any reason whatever, to surrender Mason and Slidell to Great Britain, their act will prove "fatal" only to Jeff. Davis and his upholders. "Ignorant" as "the lower orders" of our people may be, they quite understand that their own Government can have no motive in acting on this case but to do what seems best for the country."

Our people generally approve the act as a part of that wisdom which conforms actions to circumstances.

Now let our Government move on the army and navy with vigor, to crush the rebellion *speedily*,—and the people will sustain them.

☞ There is considerable excitement in Charlestown Navy Yard among the workmen, in reference to the proposed change in the hours of labor and pay of the employees. The Traveller is informed that telegraphic dispatches have been sent to Portsmouth, Brooklyn, and other Navy Yards, asking the cooperation of the workmen at those stations in case of a refusal on the part of the men at Charlestown to work. A meeting was held by them in Tremont Temple, on Monday evening, the number present being estimated as high as two thousand, representing all the departments. The meeting appears to have been quiet and orderly, and those concerned in it to have been actuated by no unpatriotic motives. One workman said that previous troubles of this nature had been remedied as soon as the attention of the Government was called to them by the united action of the mechanics. He believed that the bill making these proposed changes had been smuggled through Congress, and a proper representation at headquarters would soon bring a remedy.

A motion was adopted that a committee be appointed to prepare and circulate a petition presenting the case according to the sense of the meeting, and that said committee notify the Commandant of the Yard that they go to work under protest after January 1st.

The Courier says Messrs. Brown and Preble, delegates from the Portsmouth Navy Yard, were introduced, and were received with great applause. They represented that their fellow-laborers would join the Charlestown men in this movement with great unanimity.

Speeches were made by Timothy Hurley, Mr. Deluce, Mr. Preble of Portsmouth, and others, to the effect that an immediate strike would be both unpatriotic and unwise.

THE NEW CAPITOL.—Mr. Randolph Rogers' Gate for the new capitol at Washington, was cast at Munich, in October, 1860, and has required the labor of a full year before it could be shown to the public. Some people complain that the works cast at the Bronze Foundry should require so much filing and elaboration, instead of issuing perfect from the actual process, and we must all wonder that so long a period should be needed. But I presume the immense amount of fine work on the panels and round the borders must be taken to justify the delay, and the satisfactory result is too evident to be disputed. I hear that the gate is to figure in the Exhibition of 1862, and its attractiveness in Munich is well shown in the fact, that 4000 people went to see it the first day.

There are nine panels on the gate, four down each side, and one crowning the top. In all, Columbus is represented in different situations. Rogers has marked the time of the discovery by placing statues of all the chief contemporaries of Columbus round the door, the reigning monarchs, with Cortes, Pizarro, Balboa; and between the panels are heads of the writers on Columbus and his successors, among whom Washington Irving, Robertson and Prescott are conspicuous. In other places are heads of American beasts, and festoons of fruits and flowers.

On each side of the gate stands a statue destined for the Richmond monument to Washington,—Nelson who was Governor of Virginia at the breaking out of the American Revolution, and afterwards a General under Washington, and Lewis in the picturesque costume of a Virginian sharpshooter.—*Cor. London Athenæum.*

Mrs. Brown says her husband is such a blunderer, that he can't even try on a new boot without putting his foot in it.

Special Notices.

TRUTH IS MIGHTY and always prevails, tho' it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc. etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one,—a case of medicine we mean, sold by J. H. American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28dawâm

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order; is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other method of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To prevent mistakes, be sure the name of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

☞ We doubt if the professors of the art of printing, in any other place under the sun, are on so good terms with each other, as in Portsmouth. Instead of backbiting, and working against one another, as "two of a trade" not unfrequently do—here they always mutually "do a good turn when we can." Among other things, instead of log-rolling or under-bidding for the little city printing there is in Portsmouth—a fair price per page is agreed upon for the job, and the newspaper publishers *draw lots* for it. Now *we* never objected to "casting the lot into the lap"—but our friend the senior of the Journal, has sometimes seen great evil in "lottery gambling"—though, on *these* occasions, we believe he always "goes in to win." We began to have some doubts of the strict abstract morality of this printers' lottery, last year—seeing we got blanks for several years; but as we closed up the old year on Tuesday by drawing the job for 1862, our scruples have all vanished.—There were four competitors, or ticket-holders, when we first began to draw—but now there remain only two, the Journal and the Chronicle.

☞ An order having been promulgated at the Navy Yard, in compliance with the recent act of Congress, calling upon the employees of the Government to commence work at sunrise each morning, on and after January 1, and the pay of the laborers having been cut down one-quarter, a crowded meeting was held by the workmen in Jefferson Hall on Tuesday evening. The meeting was organized by the election of Mr. Joseph Perkins, of this city, as chairman, and of a number of Vice Presidents, representing the different departments. E. G. Peirce and Philip L. Irish were appointed secretaries. The spirit manifested by the meeting was very similar to that at the meeting in Boston on the previous evening, as represented in the newspapers, and the remarks made by those who participated in it, expressed only a desire to protest in an orderly yet earnest manner against a course which they deemed unjust to themselves. The officers of the meeting were constituted a committee to draw up a paper expressive of the feelings of the workmen,—to be signed by them preparatory to its being laid before Congress.—The meeting was largely attended, it being estimated that over a thousand workmen were in the hall during the evening.

The workmen will, this morning, commence work at sunrise, in compliance with the order, but will do so under protest.

☞ "Jewels from the Quarry of the Mind," the new book compiled by Mr. Jas. H. Head, of this city, and published by Messrs. Crosby & Nichols, Boston, is a beautiful work, the table of contents including a large number of the "heart poems" of the language; while the binding is extremely creditable to the fine taste of Mr. Head, by whom, we understand, it was designed.—The poets who claim to be Sons and Daughters of old Portsmouth, are well represented in the volume,—as it contains selections from the writings of Laighton, Aldrich, Shillaber, Drown, Fields, and many others who are well known, and are not without honor in their native city. The book is an appropriate gift for any season, and those who experience the proverbial difficulty in selecting a New Year's gift for a friend, may purchase this with full confidence that it will prove acceptable.

☞ A small Steam-tug, of about sixty-five tons burthen, bound from Eastport, Me., for Boston, in attempting to make Portsmouth harbor, went ashore on a ledge of rocks below Whale's Back Light-house, on Sunday morning, and was abandoned by her crew, who landed at New Castle.—A party of wreckers from New Castle went down on Sunday afternoon, and found the vessel afloat, but badly damaged. After bailing the water out of her, they succeeded in towing her up to New Castle, where she now lies.

STOCK SALE.—At the sale of stocks on Monday by the Executor of the will of the late William Rand, 20 shares in Bank of New Hampshire sold at an average of $100.42 per share; 6 shares in Portsmouth Steam Factory at $23; 1 share in Eastern Railroad, $54.25.

POLICE COURT, Tuesday.—Thomas Mugridge, for being drunk, was sentenced to pay a fine and costs—$6.86.

Mary Foley, for committing an assault on Mary Hurley, was sentenced to pay a fine and costs—$5.80.

☞ What "sweeter" present for New Year, than an ornamented box of those delicious Figs, at Mr. L. Laighton's? Fayette also has all other nice family groceries—as per his advertisements, of which he is never chary—and what is also well, his goods are always equal to what he says.

☞ By the attention of Mr. J. F. Shores, Jr., we begin the New Year with McAdams' Calendar for 1862,—very convenient for all who keep time.

THE LITTLE PAUPER.

Up and down the city street,
Little, weary, wandering feet;
Golden curls, a tangled skein;
Seamless rags—'tis all the same;
Eyes of heaven's own deepest blue;
Limbs a sculptor's model true.
Is she friendless? No one knows—
Is she homeless? On she goes,
Down the crowded, dusty streets,
Begging alms of all she meets;
While adown her pallid cheek
Rolls a tear drop in the street.
God preserve her, with that face
Seemingly so out of place!
Better if her form had been
Plainest eye hath ever seen.
God preserve her in the hour
When she feels temptation's power!
May she never, in her sin,
Sob and say, "It might have been!"
Never, when death's hour she'll wait,
All so fearful, "'Tis too late!"

Pack your cares in as small a space as you can, carry them yourself, and not let them annoy others.

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction 1y

☞ Having made arrangements for furnishing good custom-made BOOTS and SHOES for the people; also for all kinds of repairing in the same line, an invitation is extended to all who are in need of something good to wear to call at No. 6 MARKET SQUARE. D. R. AMBROSE.

Morning Chronicle.

☞ "God save the Queen" was hissed down at a concert in Philadelphia last week.

disease. A cold settles somewhere in the system, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Bapst, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been entirely cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the medical profession and people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy in the derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*
JOHN Q. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe our Saviour to originate in the liver, but your Pills affect that organ and cure the disease.

From Mr. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent preventives of the natural sickness when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on extreme darting neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Also, Reissues, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services on so moderate a scale.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians, possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritious properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JANUARY 2, 1862.

THE REBELLION.

An Irish deserter from Fort Pulaski, who has reached the Union camp on Tybee Island, says the rebels have 500 troops at Pulaski, and 9000 at Savannah, around which city earthworks are erecting. A tight raft 300 feet long, covered with combustible materials, and intended for the destruction of the Union vessels, was lying near Fort Jackson.

One of our men captured by the rebels and carried to Springfield, Mo., has just returned, having left that place on Christmas day. He says that Price, with 8000 men, had taken all the houses in Springfield for his troops, turning the women and children into the streets. He was making preparations for a long stay. The people of Arkansas refuse to allow Gen. Price to enter that State with any troops not regularly enlisted in the Confederate service, and of those he had but 1500. The country north of Springfield is full of men returning from Price's army, who said if they were permitted to return home and take the oath of allegiance, Price would be left with only his regular Confederate troops.

Since Gen. Pope's rapid movements last week there has been perfect quiet in all the region between the Missouri and Osage rivers, and not even a rumor of hostile move ments is heard.

Gen. McClellan, on investigating the specifications of charges against Brigadier General Benham, has ordered his release from arrest, and he is to be ordered at once to duty.

☞ The Republican State Convention met at Concord on Wednesday. The meeting was called to order by Hon. E. H. Rollins, and Hon. A. H. Cragin was chosen President. A letter from Gov. Berry was read, stating that if the Convention thought fit to nominate some other man than himself, he should cheerfully abide by their decision.—Mr. Pike, of Franklin, who was charged with the letter, said it was not properly a declination, and that the whole matter was left with the Convention.

An informal ballot for Governor resulted as follows:

Berry,	260
Wheeler,	111
Sullivan,	107
Scattering,	3

A formal ballot was then had, and 446 votes cast, of which Mr. Berry had 272, and was declared nominated. The nomination was made unanimous.

☞ The sale of pews at the new Independent Christian Church, (how we do like that title!) on Court street in this city, on Tuesday evening, we are told, was very brisk. Only a few of the lower-priced pews were left unsold; and these are expected to be all disposed of at the adjourned sale, Saturday evening. Glad to hear it—that old society, and their excellent new pastor ought to be prospered; but it may seem a little strange to those who don't know the strength of the Methodists' attachment to their own creed and connexion, that none of the late Brodhead Society retain pews in the house—nearly all returning to the parent State street M. E. Church.

☞ At a meeting of the Democrats of Ward 3, held in the Ward Room, on Wednesday evening, Charles W. Marden was chosen Chairman, and Aaron L. Rand, Secretary. The following delegates to the several conventions were chosen:—

State.—G. H. Rundlett, S. L. Russell, C. W. Marden, A. Q. Wendle;
County.—Wm. Marvin, A. R. Hatch, J. W. Pickering, A. J. Leach;
Councillor.—S. D. Scriggins, Woodbury Gerrish, Richard Walden, Ezra Amazeen;
Senatorial.—Wm. B. Russell, Gustavus A. Abbott, Samuel Clark, Nath'l Gunnison.

☞ Mason and Slidell were finally delivered up on Wednesday morning, and were placed on board a steam tug-boat, employed by the Government to convey them and their Secretaries to Provincetown, Cape Cod, where they are to be transferred to the British gunboat Rinaldo.

☞ One of the speakers at the Navy Yard workmen's indignation meeting, at Jefferson Hall, the other evening, said that he believed that if there had not been so much *money* appropiated to crush this rebellion, it would have been crushed long ago.

Effect in Canada.—The Montreal Gazette, referring to the effect of the news of the settlement of the Trent affair in that city, says:—

"Every body was relieved from a weight which for the last fortnight put an end to all business, and made valuable property unsaleable, and even the continuance of family relations doubtful."

We may reasonably expect that the effect will be similar in England.

☞ The Horse Guards' Ball, to be given at Concord, Jan. 8th, will undoubtedly be the most brilliant affair of the year in New Hampshire—as it was last season, and not often excelled anywhere.

☞ D'Arcy McGee, the Irishman, who has become intensely British in his sentiments since he has got into the Canadian Parliament, and who lately predicted in a published letter that the Irish in Canada would be unanimous for the British in a quarrel with the United States, has been roughly undeceived. He had a meeting of Irishmen called in Montreal last week, to organize an Irish battalion for the British service, and made a speech to them, during which he found that there was a large amount of the old Irish animosity against England still alive. The Chairman, Marcus Doherty, was frequently interrupted in his preliminary speech, and it was with great difficulty that McGee got a chance to speak at all, so great was the clamor and indignation that he should urge Irishmen to enlist to fight the United States. In almost every instance he was interrupted with cheers for the United States, for Meagher, for Col. Corcoran, and for the Irish regiments in the Federal armies, showing where the strong sympathies of his audience were. The loudest round of cheers was for a brother of McGee, who is a captain in the Federal army. The Chairman declared the resolution to raise an Irish battalion carried, but it was doubted, and the meeting broke up in confusion.

☞ Mr. Elphalet Case, many years ago editor of the Portland Argus, has just been employed by the proprietors of the Portland Advertiser as principal editor of that paper. Mr. Charles C. Woodman remains as associate editor.

Mr. Case will probably make the Advertiser something like the Manchester Union. He says in his introductory article:

"Within the last year, things have so shaped themselves that men must be for the Union or against it. There is no middle ground to stand upon. 'Those who are not for us, are against us.'

Under these circumstances, all conservative Union men, of whatever old party organizations, must unite to put down the disorganizing schemes of Northern ultras as well as of Southern rebels; and to preserve the Constitution, and the more perfect Union of the great dead of the revolution, forever."

Census in Jamaica.—A census recently taken gives the total population of Jamaica at 444,254, of whom 13,816 are white, 81,065 mulattoes, 346,374 blacks; males, 213,521; females 223,734.

No white men in all the world are safer from domestic insult or injury, than these 14,000 in Jamaica, in the presence of 427,000 colored. Again, they are quite safe from foreign aggression; as their ports are garrisoned by British soldiers, as black as ink. No insurrections there are seen or feared. Emancipation ended all that.

☞ Application was made by a man for relief for himself and family, a few days ago in Hartford, Conn. It was ascertained that he and his wife were married thirteen years ago, and that the union had been blessed by two children, now 12 years of age; one, 10 years old; three, 8 years old; one, 6 years old; two, 5 years old; two, 4 years old; two, 2 years old; being 13 children in 13 years, including one set of triplets, and four sets of twins. Relief was withheld because the officer ascertained that the applicant had about $400 in the bank in Springfield.

Skating for the Ladies.—The Milwaukie Sentinel waxes gallant in the prospect of good skating, and says, judiciously as well:—

"Let the balmorals attend to it. Skating must be done. It is a duty we owe to the 'fair women of America,' who have been sitting in doors so long making havelocks, and flags, and mittens; let them come out and skate. The country's safe! The women of America, and especially that portion of them who reside in this patriotic section of the confederacy, want the very thing that skating alone supplies.—They want exercise, they want a little of that indurance which exposure to winter will give; they want to exercise less in ball rooms and parties, and over pianos and more in the north-west air."

☞ We are pleased to learn that Rev. John Lord is to deliver his valuable lectures on Representative Women, in this city at an early day.

Also, that Artemas Ward, the inimitable, is to appear before our citizens on the 7th of February.

☞ That black list of ours is coming—if the enrolled and notified ones don't all pay up, as many have done. Why shouldn't "any other man" post his delinquents, the same as the Banks do?

☞ A sensible Manchester politician suggested to the Duke of Newcastle that it would be cheaper for the English government to ship all the unemployed cotton factory hands to the south of Europe, and feed them, than to fight America. The Duke's reply is not given.

☞ The Newburyport Public Library now consists of 10,000 volumes, of which 523 have been added the past year. During the year 28,683 volumes were borrowed from the library, and all but eight returned.

How can a pig most easily provide himself with a house? Tie a knot in his tail, and then he will have a *pig's-tye.*

New York, Dec. 30, 1861.

Messrs. Editors:—Present perambulators of our side streets find the corners ornamented with fir trees, shop windows verdant with evergreen wreaths, and dazzling with gilded toys, while impromptu stands redundant with ever description of plaything of every value, entrap the eye and obstruct the pave during these, the Holidays.

Christmas, with its tree and accompanying festivities, a day of much greater importance and far more generally observed here than in your section, is now numbered with many other happy days of the past, and we are full of preparation for the leading holiday of the metropolis—the first day of the new year.

Lists of friends have been prepared and carriages engaged a week ago, and as you read this we shall be started on the day's routine, dropping in here with a formal bow and a "happy new year," passing a few moments with another and more intimate friend with a mutual exchange of sincere wishes for the coming year's enjoyment, and with another partaking of the refreshments on the tables bountifully spread with richly frosted pastry, boned turkeys, water-ices and sparkling wines.

The annual festival and distribution of presents to the St. John's Parish Sunday School took place on Friday afternoon last.

The church, much larger but constructed somewhat in the style of the North Church in your city, was handsomely decorated with evergreen wreaths festooned around the pillars and gallery, while on the gallery-front were arranged in green the words, 'Our Saviour, the Alpha and Omega, the First and Last"; "Teacher and Example"; "Redeemer and Sanctifier"; "Resurrection and Life"; and in front of the Altar, a large Christmas tree towered nearly to the ceiling brilliantly ornamented with parti-colored chinese lanterns, intermingled with toys and candy cornucopias.

At the close of the ceremonies, consisting of prayer, scriptural selections and singing by the 1500 scholars, presents were distributed to the children, some receiving sleds, parlor or ice skates, others money-bags, game, and toys suited to the age and taste of the recipient.

The daily increasing cold admonishes us that winter is coming, and tho' we have had no snow save a little which fleeced the ground and tree tops, one eve last week, faces are nestled in furs, forms close to the heated stove, and rosy cheeks from beneath warm sheltering hoods peep out most saucily.

Sleds and skates will soon take the place of wheeled vehicles, and while we are wading in two or three inches of that curious cream mixture of ice and snow for which New York is famous, you will have mountains of snow heaping round the yard and house corners.

Fondly I cling to the remembrance of many of these winter scenes in a climate colder than the city, and one of these years I'll come down and have a snow-ball and sleigh-ride with you, and now absent in person but present in thought, let me wish you as I close, friends, one and all, very many, very happy "New Years." - Newington.

☞ The St. Croix Herald, at St. Johns, N. B., which was destroyed by a mob not long since, because it dared to take the side of the United States against the rebellion, has made its appearance again, and will continue to defend the right.

☞ The Navy Department is sending out specifications, inviting proposals from ship-builders throughout the country, for the construction of iron-clad steam batteries. The government is very anxious that this class of war vessels should be immediately constructed.

Vitriol-Throwing Fiends.—Vitriol-throwing has been again commenced in New York. One woman destroyed another's eyes by means of it, the other night; and as "crime travels in great circles," we may now expect to hear of similar exploits in all directions.

☞ Rev. Dr. Sheldon, of Bath, Me., has been invited to become pastor of a newly organized society at Waterville, and has accepted.

☞ The New York Times' Port Royal correspondent pretends to see advancing intimations that the slave population of South Carolina is gradually but surely tending to a general insurrection.

☞ The case of Rev. P. E. Morrill vs. Hiram Doe of Vassalboro', Me., for slander, terminated in the Supreme Court at Augusta, on Thursday last, in a verdict of $20 damages—carrying with it $5 cost.

☞ The tall spire of Central Church, Bath, was blown down by the great gale of Friday night. It struck the top end on the sidewalk, and turned a complete summerset, the base barely grazing the houses on the opposite side of the street.

☞ Rev. T. Starr King has decided to remain in California, where he has been for upwards of a year.

☞ Mr. Hubbard, an enterprising young lawyer of North Berwick, has enlisted 80 men for Col. Dow's Regiment, chiefly in that town.

Foreign.—The steamships Etna, at New York, and Asia at Halifax, which arrived Tuesday, bring European intelligence one week later than previous advices. The situation of affairs, as regards the American question, had not materially changed. The dispatch of troops for Canada continued from England, and ships were collecting at Gibraltar, to be in readiness to convey a portion of the British garrisons in the Mediterranean to America, if it should become necessary. The English press comment upon the President's Message with much bitterness, and cannot understand the absence of all allusion therein to the Trent affair. In the English markets, no important change of prices had occurred.

Play Day.—The jewellers of this city had the good sense to close their stores on Wednesday afternoon, New Year's Day.—Good, so—only we ought all to "have" the whole day, and a dozen more each year, for holidays. Why, the "poor slave" down South has always had a fortnight to play in, at Christmas time—but here, if a yankee puts up his shutters for half a day, folks ask "Who's dead?"

☞ We have given reports of one or two indignation meetings of Navy Yard workmen, here and elsewhere—but it appears to us that they had better keep cool, and make the best of their much-envied opportunity to earn good wages. Our government has always been exceedingly liberal to employees on their Navy Yards—and the new law of Congress seems to us a fair one. Why should Uncle Sam pay more, for less hours' easier work, than "any other man?" But at any rate, let all who bluster, first find out what they are blustering about.

Double Capture.—Soon after the frigate Santee arrived off Texas, she captured the privateer schooner Sam Houston, which has since done effective service upon the Texan coast. This schooner was owned by Chubbs, and the "Royal Yacht," in which Chubbs was captured, was expressly fitted out with a heavier armament and a larger force of men for the capture of the Sam Houston. He did not succeed in meeting with the latter, but did meet with the boats of the Santee, which thus captured a second vessel of Chubbs's, together with the traitor himself and his crew.

☞ About 10 o'clock Wednesday forenoon, a horse and sleigh, belonging to Mr. Cook, was standing near the Eastern Railroad Depot, when the train from Boston came. The horse became frightened, and dashed off at a rapid pace up street and over the North Mill Bridge, and when near the junction of Dennett and North streets, ran a shaft of the sleigh into a valuable horse belonging to Mr. Charles Hodgdon, causing this latter horse to bleed to death in a few minutes. Mr. Hodgdon was in the sleigh, and had a narrow escape.

☞ An Irishman and wife, (names unknown,) while on their way from West Rutland to spend Christmas with their friends in Hydeville, Vt., were overtaken by the snow storm of last Tuesday night.—Becoming fatigued, and too much overcome by liquor, they lay down to rest, and both fell asleep. The woman was frozen to death, and the man nearly perished.

☞ The Quartermaster of the Seventh Maine regiment received from the clothing bureau, on Saturday, coats and pantaloons for that corps, but was soon obliged to return them, owing to frauds on the Government in their manufacture and material.

☞ The Salisbury Mills have declared a semi-annual dividend of 10 per cent, and what is of great benefit to the workmen, lightening their toils and brightening their hopes, have restored 15 per cent to the wages, deducted at the time of commencing work on government contracts.—*Amesbury Villager.*

☞ In Bavaria, Clermont county, Ohio, the boys who are too young to go to the war, have formed a company which they call the "Sawbuck Rangers," the members of which agree to saw the wood of women whose husbands are in the war.

What the country wants is direct taxation on property, real and personal, and domestic manufactures, in addition to the tariff on foreign imports, to produce at least $300,000,000 per annum, and the issue of Treasury 3.05 notes in denominations of five dollars and upward, for all payments after passage of the bill; in other words, the well-tried English exchequer bill system. —*N. Y. World.*

☞ The Montreal Advertiser says the United States have purchased 10,000 tuns of hay along the Grand Trunk in Canada, and calls upon the authorities to put a stop at once to its transportation.

Silk does not wear as well now as it did in the days of our grandmothers. Why? Because the silk manufactured in modern times is almost always adulterated with an article called *Jute.* It is the fibre of a species of hemp grown in the East Indies—chiefly in Bengal.

☞ It is reported that Montreal was thrown into a great panic on Thursday by a rumor that war had been declared, and that an army of twenty thousand Yankees was advancing on the city from Vermont.

☞ The first edition of Mr. Head's new book was exhausted in three days.

CHIMES.

ARLINGTON STREET CHURCH.

Ring out, soft bells, in upper air,
Nearest the stars, our pleading prayer,
Our faltering prayers, our hyms of praise,
Above us far, in beauty raise,
Above the city's heat and din,
Above its putrid breath of sin,
Above each feeble human tone,
That here and there praise God alone,
Ye plead for all! While all unseen,
The listening angels earthward lean,
Hearkening the music far and dim,
That echoes their sweet praise to Him!
Ring loud—ring soft—ye chiming bells!
No lesson now your own excels,
That bids us hear your music flow,
Yet think—"some one works hard below!
Above, such sweetness on the breeze—
Below, *some hand must strike the keys!*"
We build our lives so like to this—
Above, the Starry Field of Bliss,
The waiting Angels and the Light—
Below, the Darkness and the Night;
We groping dimly, the right note
To strike, whose music tone shall float
Above us to the Master's ear,
That He may know we serve Him here.
So we below work day by day—
Thank God, if He hears far away,
Above us all, some music flow
From us, *who strike the keys below!*

—*Boston Transcript.*

NEW HAMPSHIRE ITEMS.

—— The Lawrence Journal states that Mr. E. Freeman Whitehouse, the balladist, whose soul-stirring songs will be remembered by many, was lately married to Miss M. A. McDuffee, the accomplished daughter of John McDuffee, Esq., President of the Rochester Bank. He gave up the concert field, in which he was so successful, some time since, to engage in business pursuits in his native place.

——The Manchester Print Works paid a dividend of $40 per share, or 4 per cent., Dec. 20th, to holders Dec. 23d. Stark mills, $50 per share, or 5 per cent., Dec. 20th, to holders of 16th.

☞ With this issue, commences the tenth year of the Weekly Chronicle—which title has lately been merged in the more historic appellation of Gazette. Not much other change has come o'er the paper during the year, except its regularly-increasing patronage and prosperity. To all its patrons, old and new, we extend the compliments of the season, and thanks for all favors.

Drowned.—Rufus Dodge, while guarding a hole in the ice at Fresh Pond, on Monday, to prevent skaters from falling therein, fell into the same himself, and was drowned. The water is thirty-five feet deep at the place of the accident, but the body was recovered after a search of about half an hour. Deceased was 19 years of age, and employed at the Fresh Pond Hotel.

☞ Lieut. H. C. Flagg and Act. Ast. Surgeon Thomas Welsh, U. S. N., have been ordered for duty at Bangor, Me., where a flying rendezvous will be opened, to be successively removed to the different Eastern seaports, as the best inducements may be offered.

☞ Two hundred and twenty-four horses were destroyed by fire at the government stables at Washington, and about one hundred and fifty of the stampeded animals are yet missing. Workmen are reconstructing the stables.

☞ The principle proprietor of the London American, the American newspaper in that city, is Mr. J. A. Knight, a native of Maine.

BLACKWOOD'S EDINBURGH MAGAZINE for December, 1861.—The articles in this number have the usual literary merit and interest, but we must find fault with "A Month with the Rebels," and, "Some Accounts of Both Sides of the American War." They are stupid with British prejudice and secession. Abating this demerit, we can recommend Blackwood as one of the readable magazines of the times. Published by Leonard Scott & Co., New York.

Special Notices.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met; but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as bibles in a house, and every family should have one.—In case of medicine we mean, sold by J. H. American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*strengthen the weakness and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

THE NEW YORK TRIBUNE

Large Premiums!

TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country; selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have actually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the peculiar times, and the large sum that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For **$12**, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Tens or Pens and cases to value of.... **$1 00**

For **$10**, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **1 00**

For **$20**, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **3 00**

For **$40**, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **8 00**

For **$50**, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **10 00**

For **$100**, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... **30 00**

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose pens are using and we have found them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mighter than the Sword." And be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

BRITISH REVIEWS,

Great Inducements to Subscribe!

PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1.
THE LONDON QUARTERLY (CONSERVATIVE)
2.
THE EDINBURGH REVIEW (WHIG).
3.
THE NORTH BRITISH REVIEW (Free Church.
4.
THE WESTMINSTER REVIEW (LIBERAL).
5.
BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its cost* in three months, by *economizing Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any other hair-brush, or other means of applying, and some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no intelligible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

AYER'S CATHARTIC PILLS,

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the Juices move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that is cured by a purgative medicine.* I place great dependence on an efficacious cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache may be; and have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Charlton

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as speedient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I feel bound to acquaint that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., Feb. 20, 1857.

DR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have often found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. V. G. Grant, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in the early fall, for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the *system and purify the fountains of health.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prolific parent of others that are worse. I believe ourselves to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Burrt, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am cured.

SENATE CHAMBER, Baton Rouge, La., 5 Jan. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years.

VINCENT HILTON.

Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its injudicious use. These contain no mercury or mineral substance whatever.

PRICE, 25 cents per Box, or 5 Boxes for $1.

ERUPTION OF MOUNT VESUVIUS.—This phenomenon appears to have recurred with great violence. A stream of lava, twenty-four deep and three-quarters of a mile wide, is pouring down the side of the mountain. It is reported that six thousand inhabitants of the district near which the eruption has broken out, are fleeing from their homes. The foolish Bourbons, who "learn nothing and forget nothing," are said to consider the eruption of Vesuvius as a manifest demonstration of Providence in favor of Francis II., the exiled King of Naples.

Lord Nelson was undoubtedly the author of the popular slang phrase, "don't see it." At the celebrated naval battle of Copenhagen, Nelson, who was determined to continue the battle, but whose attention had been called to a signal of the commanding officer to cease hostilities, placed his hand over his good eye, and pretending to look with his blind one, said, "I don't see it" and at once ordered a brisk renewal of the engagement.

The Milwaukee Wisconsinian says an old man in that neighborhood, "wonderful for his weather wisdom, stakes his reputation upon the prediction that we are to have a mild Winter, with the prevailing winds from the South." Prentice replies that he don't expect much wind from the South. It can't be raised in that quarter.

☞ About the middle of November last a water-spout passed over the Island of Flores, one of the Western Islands, which destroyed every house in the village of Fagens. Fortunately no lives were lost.

☞ The servant girls of the Free States consume more silks and French goods than the whole Southern aristocracy.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

FRIDAY, JANUARY 3, 1862.

THE PURITANS.

The book of the most intrinsic value got out from the Boston press this season, is the third and last volume of *Hopkins' Puritans.*

The full title of the book is,—The Puritans: or the Church, Court and Parliament of England, during the Reigns of Edward VI and Queen Elizabeth. By Samuel Hopkins. "The liberties of our House it behooveth us to leave to our Posterities in the same freedom we have received them." *Committee of the Puritan Commons to the Lord*, 1575-6. In three volumes. Vol. III. Boston: Gould & Lincoln, 1861.

This volume is, like the others, a beautiful octavo of 675 pages,—and is crowned with a full index to the whole work.

Mr. Hopkins has done excellent service to the cause of truth and righteousness, in his deliberate and careful collocation and sifting of documents and statements. We see the tyranny and the weakness of prelatical oppressors, the corruption of courts, the parking and intimidation of juries, by which legalized murder was done upon some of the best men in the realm. This book lays them bare.

We see the honest statesman try to influence his queen to counteract the lords spiritual so as to save Christian lives,—and we rejoice that he was sometimes (alas, too seldom) successful.

We see in the noble queen much to admire, much to condemn, and more than all, and above all, much to pity—nothing to envy.

Whoever wishes to see the rise and progress of the Puritans clearly and graphically set forth, the struggle between the civil and the ecclesiastical rule under Elizabeth, well depicted, the growth of free principles under adversity, and oppression, and the tyranny of the "Church" accurately shown and proven beyond a doubt; whoever wishes to see the grand old Puritan character painted in true colors, and the perversions and falsehoods of Church and State-Historians ably met upon their own ground, should read this work. Its great value is its substratum of authorities in their "original packages." Nothing is taken second hand, but Mr. Hopkins has gone to the fountain-heads, and for every statement made we have given us the chapter and verse for reference.

The reader will be struck as he examines some of the long controverted points, to see how maliciously the old records have been mutilated by historians, in order that odium might be thrown upon those noble men from whom we are proud to trace our lineage. It is refreshing to find a man able and willing to grapple with the great subject of the rise of the Puritans and the development of free thought and free speech in England: and in these latter days, when we are too apt to look back upon our forefathers—

"As doleful old fellows whose frigid, blue piety
Had sought but two whines and long prayers for variety"—

too apt to forget the fiery trials endured and the fruits of which we now enjoy, it is well for us to examine the whole matter afresh, and fix it again in our minds that in all that pertains to free thought, free speech, and all the invaluable blessings which are inseparable from a free concience, the Puritans were a century in advance of all others. Mr. Hopkins' style is clear and often dramatic, and the book is as readable as a romance.

NOT WITHOUT A PARALLEL.—The New York Journal of Commerce speaks of the excited state of feeling here and in England as follows:

"The English people are in a state of great excitement, based on the conviction that America is determined to have a war with England. The Americans are equally excited in view of the belief that England is determined to have a war with America. This is absolutely the true state of feeling on both sides, and we venture to say that such a condition of things was rarely if ever before known."

It appears to us that the same condition of things has been seen, in every one of those periodical panics of the British public as to a French invasion. A prodigious excitement is raised in the English mind about an invasion which nobody else has thought of, and it is elaborately proved that France is determined to have a war. A corresponding excitement is the result in France, where the hubbub in England is attributed to her secret designs upon the peace of the Empire. The truth is that in spite of their reputation for phlegm, there is no more foolishly excitable people on earth than the English.—*Boston Advertiser.*

There was an old man in the West Country,
A flaw in his lease the Lawyers had found;
It was all about felling of five oak trees
And building a house upon his own ground.

John Bull thinks because his own subjects are not permitted to fell trees and build houses on their own ground that the Yankees ought not to be allowed to close their own ports by sinking vessels in their own harbors.—*Boston Post.*

☞ By treaty stipulation between the United States and Great Britain, the debts and funds of individuals in the two countries are not to be forfeited in war—but held in suspense till peace. So it was in 1812.

THE REBELLION.

Dispatches from Cairo contradict the report of fighting at Paducah. The place is considered safe from any attack, unless by a very strong force. Brig. Gen. Chas. F. Smith is in command of the post.

The rebels, Tuesday, attacked the railroad workmen near Hancock, Md., but were repulsed by our forces with a loss of 20 killed.

The notorious Jeff Owen, Col. Jones and 50 other bridge burners have been captured in Adrain county, Mo., by Gen. Schofield, of the State militia.

Six Federal regiments have left Otterville and Tipton, Mo., for Weston, on an unknown expedition.

Five white refugees from Loudon Co., Va., represent that if our forces were to enter that county, the white population would gladly renew their allegiance to the Union.

☞ The committee appointed to investigate the conduct of the war, have become thoroughly satisfied that the utmost confidence may be justly reposed in the comprehensive plans and military skill of Gen. McClellan, and that early results will justify the confidence of the nation in him. The committed base their opinion upon testimony given before them by the ablest officers of the army.

In reply to the question, so frequently asked by members of Congress and others, who ought to know better, "Why don't Gen. McClellan advance?" the Washington correspondent of the New York Herald says:

"Gen. McClellan is advancing every hour of the twenty-four that passes. He has his hand upon the throat of the rebel army of the Potomac, holding it where it is. He is advancing in drill, advancing in discipline, advancing in strength, advancing in endurance to stand out in the coil, advancing in a supply of muskets for infantry, cannon for artillery, sabres and revolvers and rifles for cavalry, location of expeditions, &c., &c. When he has completed these advances, he will close up the rebellion, and then the men who now clamor for an advance will be compelled to acknowledge the wisdom of Gen. McClellan's programme.

THE NATIONAL FINANCES.—Mr. James Gallatin, well known in the financial circles of New York, has written a letter to Senator Fessenden, Chairman of the Finance Committee, in which he says:

"The measures which Government seems called upon to adopt, are, in my humble judgment, as follows:

1. The issue of Government obligations as small as $5, $10 and $20, to contractors, and for supplies, bearing a moderate rate of interest (say about three per cent.) until funded, to be funded in twenty years (say seven per cent.) stock, when presented at the Treasury in sums of $100 or over, in even hundreds, &c.

2. The issue of Government stock, on a portion of which the interest and principal should be payable in Europe, to be sold in the market, upon the best terms that can be obtained for that payable here, as well as that payable in Europe.

3. The drawing direct upon the banks for proceeds of Government loans taken by them.

4. The increase of direct taxation, particularly on luxuries, such as pianos, carriages, &c, which would fall lightly on the poorer classes,—in preference to high duties on imports, the latter being already, in some cases, almost prohibitory, and if further increased, would offer a premium to smuggling."

☞ One of the strongest gales of wind which we had for several years past, raged throughout Wednesday night, and had not spent its strength even on Thursday. Some slight damage was done in this city; a chimney on a house near the upper part of Islington street was blown down, and slates, lead, &c., were torn from the roofs of exposed buildings.

In Boston thirty or forty chimnies were damaged, slates torn from roofs, windows broken, and trees blown down by the gale. About 180 feet of the roof of the Eastern railroad freight depot, East Boston, was dislodged, and some damage done to a portion of the goods stored therein. The side of the roof of house No. 162 Brookline street was blown off, throwing the chimney over upon the roof of the adjoining house, and knocking over the chimney of that house, causing it to fall upon the roof of the third house. The roofs of the two last named houses were considerably broken and damaged.

The roof of the Cambridge Water Works Company's building was blown up and fell on the machinery. The cost of repairs will fall little short of $1000.

We hear of no serious marine disasters, as the wind blew off shore.

☞ The Washington correspondent of the Philadelphia Inquirer learns from a "reliable" source, that there are 100,000 men enlisted, who are without arms or equipments.

☞ Jenny Lind has bought a property near London, and means to go to housekeeping—concertizing now and then, just to keep her hand (and the guineas) in.

☞ It is stated that large quantities of counterfeit gold coinage of New Orleans, 1861, is in circulation in the counties of Kentucky where the rebels are in power.

NEW HAMPSHIRE ITEMS.

—— The friends of Col. Marston of the 2d N. H. Regiment, now at Budd's Ferry, below Washington, will be glad to learn that he has nearly recovered from his recent wound. Though suffering from the effect of the wound, he is in command of his regiment, and abundantly able and willing to lead it into battle should occasion offer.

—— James D. Town of Mont Vernon, of Captain Caldwell's company of Sharpshooters, died at Washington on the 20th ult.

—— The Cocheco Manufacturing Company has declared a dividend of $25 on a share—being the first since the 1st of Jan. 1861.

—— The refusal of certain Justices of the Peace, in Hancock, to administer the usual oath to a volunteer, is thus explained by the Peterboro' Transcript:—

"Mr. Jesse Wilson is a man. we should judge, sixty years of age, and has been to this town several times to enlist, but has never been in *proper condition* to be sworn in, and no Justice of the Peace here was willing to do it."

—— We have already referred to the excitement which existed in Wentworth, in consequence of several incendiary fires.—Suspicion had rested on a family by the name of Kimball, as some difficulty had existed between them and Mr. More whose barn has been burnt. A young man living with Mr. More was twice shot at, once in open daylight and but a short distance from the house. Notices were written and left at the several dwellings, indicating the time when the fires would be set, and Mr More had four men watching on the night of the fire. These outrages so exasperated the community that measures were taken to ferret out the incendiaries. The Kimball family were arrested and have been bound over for trial and sent to the jail at Haverhill. The general impression is that Mrs. Kimball set all the fires. While she was under arrest she left the house, and it is said was tracked in a light snow to a neighboring school house which was fired and destroyed.

Taken altogether-it is a strange chapter of crime. No motive is assigned which would seem sufficient for these daring outrages.

—— The Franconia Iron Company have secured a contract from government for the casting of cannon. The superior quality of the Franconia iron, would no doubt produce guns equal to those from any foundry in the country.

—— The car house of the Concord Railroad, in Nashua, was completely demolished by the wind on Wednesday night Loss about $1600.

☞ Prof. Dixi Crosby, of Hanover, was nominated for Railroad Commissioner, by the Republican Convention, at Concord, on Wednesday afternoon. Gov. Berry then appeared and accepted his re-nomination with thanks. He did not consider this a partizan nomination—he was for the country, and nothing but the country. He should, if elected, continue to discharge his duty to God, to the people of New Hampshire and to his country, to the best of his ability.

Hon. Charles H. Bell, of Exeter, from the Committee on Resolutions, reported a series. In the preamble the Convention is characterized as representing all the people of New Hampshire in favor of a vigorous prosecution of the war. The resolutions denounce the rebellion; define the war as one for the integrity of the Union, and the support of the Constitution; express confidence in the wisdom of the State administration and of the President and his advisers; demand economy in State and National affairs; return thanks to the soldiers, and promise them praises, prayers and sympathy; and offer the nominees as loyal men, with a recommendation that old party issues be dropped. The resolutions were adopted.

Dr. Dixi Crosby, the candidate for Railroad Commissioner, made a few remarks, in which he said he was a Breckinridge Democrat till the fall of Sumter—a National Administration man since.

The State Central Committee was appointed, and the Convention adjourned.

IN FRANCE, women sell railway tickets, keep books, act as librarians, make watches, set jewels, engrave, copy paintings, and chisel marble and men.

☞ The U. S. revenue cutter Howell Cobb is a complete wreck, the rigging and furniture only being saved. Her officers and crew have arrived at Boston.

☞ The number of lives lost at sea during the past year is supposed to be over 1000. 968 are recorded.

There are melancholy men to whom life is only a dismal swamp, upon whose margin they walk, making signals to death to come and ferry them over the lake.

The cheerful are the busy; when trouble knocks at your door or rings the bell, he will generally retire if you send him word "engaged."

☞ Gen. McClellan is ill again, too close an attention to business overcoming him.

☞ The examining board have reported adversely to Stevens' battery.

☞ The friends of Col. Corcoran, Lieut. Connolly, and other Union prisoners have presented Congressman Ely with a fine horse, as a token of their appreciation of his kindness and liberality to the soldiers of our army taken at the battle of Bull Run and incarcerated in the prisons at Richmond.

A MAGNIFICENT FARCE.—A total abstinence pledge splendidly engraved on parchment, and signed by the officers of a regiment hardly one of whom have kept it, unless they had been tee-totallers before.—The thing sounds well in the papers, but alas, 'distance' in this case, as in many others, "lent enchantment to the view."—*Aroostook Herald.*

☞ Edward Johnson, a captain in the Naval Brigade, who has been found guilty of various misdemeanors by a court martial and sentenced to be dismissed from service, has had his sentence confirmed by Gen. Wool.

Messrs. Reverdy Johnson and R. S. Gillett have reviewed the evidence in the case of Col. Miles, who commanded the left wing of the Federal army at the battle of Bull Run, and who was charged by Col. J. B. Richardson with being drunk on that day. The learned Counsel came to the conclusion that the evidence does not sustain the charge.

BEAR STORY.—Two weeks ago Mr. Nickson Peters, Baileyville, while chopping in the woods a mile distant from his home, discovered three bears. He at once attacked them and succeeded in killing all three, the only weapon used being his axe! The largest one would weigh 350 lbs. The Calais Advertiser is responsible for the above story.

☞ William Allen Butler, Esq, the well-known author of "Nothing to Wear," has latterly been devoting his time and talents to the production of a prose poem, of the "Nothing to Pay" character, in the form of a General Bankrupt Law, for presentation to the Congressional Committee having the subject in charge.

☞ The total amount expended by the Government in the purchase of firearms since the beginning of the rebellion is twenty two million dollars.

☞ In a letter to the American Minister at St. Petersburg, forwarded by the last steamer, Prince Gotschakoff says:—"The Emperor has never ceased to avow his hopes for the grandeur of the American Union."

☞ We hope that while the Government are looking out not to hire workmen at no more than fair prices—they will not overlook the army of sinecure office-holders all over the country. Sweep them out.

☞ There has been as yet no real taxation for the expenses of the war. An increase of the tariff has indirectly gleaned from our meagre imports a few thousand dollars of extra revenue, but no call has yet been made upon the property of the country.

☞ The Italian Parliament has declared Rome to be the capitol of the Italian kingdom, by a vote of 232 yeas to 79 nays.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that above other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahnemann, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment are well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, cramp, eatarrh, piles, etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eye of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—a case of medicine we mean, sold by J. H. Local.

In Board of Aldermen, Thursday evening, the use of Jefferson Hall was granted to the Pearl st. Baptist Society, for a social festival. The City Marshal's report was read and accepted. The whole number of arrests during the past year has been 1155,—a large increase over previous years. Amount of fines collected since Oct. 1,—$333.32.

The report of the committee appointed to investigate the cause of the recent fire at the City Farm, (published below,) was read and accepted.

$4350 have been expended in aid of the families of volunteers.

A resolution, introduced by Alderman Rider, was adopted, tendering to Mayor Simes the thanks of the Board for the able and impartial manner in which he has presided over their deliberations during the past year. The Mayor acknowledged the courtesy briefly yet appropriately, and the Board adjourned.

THE BRIDEWELL FIRE.

A large amount of testimony was taken before the Committee of Investigation,—but it is too long for insertion here, and does not differ materially from what we have already published.

The witnesses examined were Benj. Norton, Eleazer Fish, Mark Lang, Oren Braggdon, Samuel Spinney, Franklin Ayers, Aaron Wilson, Plummer Norton, Mrs. Norton, Wm. Hall, Lydia Pascher, Margaret Cox, Francis Cox, Leroy Forrest, Betty Butler, Samuel A. Spinney, Tobias Woodman, C. G. Spinney, Thos. R. Spinney, Wm. Simes, Daniel Murphy, John Hodgdon, Wm. Bodge.

The Committee's Report is as follows:

The Committee appointed to investigate the cause of the fire at the City Farm on the night of the 25th of December, 1861, by which the building used as the Bridewell was burned, also the causes which lead to the death of Julia Murphy, one of the inmates thereof, ask leave to present the following report.

Your Committee have taken the testimony of the keeper of the Alms House, his wife, son, and nine of the inmates, together with that of Eleazer Fish, who has the care of the Bridewell, and Mark Lang, one of the inmates of the eastern portion thereof, several of the neighbors and those who were the first to arrive at the scene of the fire, and who were not connected with the premises. Your committee are satisfied that the fire commenced at the eastern portion of the bridewell attic, and could not have originated from the stoves at either portion of the building,—as, by the testimony of Samuel A. Spinney and Tobias Woodman, who were among the first to arrive there from the city, and who both state that the stoves and funnels were in good order, and were not in a condition whence any one could have set fire from; and the remote distance from the stoves of the hatch ways, or ventilators, precludes the possibility of any one dropping anything from the said hatch ways, or ventilators, on the stove, and thus setting fire.

Mr. Benjamin Norton, the keeper of the Alms House, testifies that as soon as fire was discovered in the bridewell, he went to the wood-shed, got an axe, and knocked the locks from off the doors of the rooms and cells where inmates are confined, and got them out of the building; that he went into the cell where the said Julia Murphy was confined, and found that there was a board ripped out from the bottom of the cell, about 8 feet long and 7 inches wide,—with which we have no doubt she pried off the ceiling overhead, making a hole about 3 ft. wide, and large enough to admit of her passage through into the attic; and by some means unknown to your committee, procured some combustible, and set fire to the husks at the eastern portion of the building.

Or the fire may have originated from a defect in the chimney near the husks, which it appears were piled up on the floor, and in the immediate vicinity of the chimnies to the depth of two or three feet,—but the first conclusion we think to be the most correct, as the aperture in the top of the cell, and the circumstance of her not being in there at either time when Mr. Norton searched for her, lead us to judge: and the evidence of the Mayor, the Overseer of the Poor, and the brother of the said Julia Murphy, of the place and the position in which a portion of the body, which they were satisfied was the remains of the said Julia, was found, (it being within about six feet from the centre of the cell occupied by her) leads us to the supposition that the smoke or fire caused her to retreat to the western part of the building; and perhaps in endeavoring to find, or get through, the aperture which she had previously made through the top of the cell, the smoke suffocated her and she was burned to death.

Your Committee think that more care should be employed by the Keeper of the House in looking after the safety of the inmates of the Bridewell, as too much dependence cannot be placed upon any paupper to have the care of so large a building and so many inmates, who could not under any circumstances take care of themselves. We think that the keeper should examine the buildings where inmates are confined before retiring for the night, but we would not detract from the great credit which is due Mr. Norton for his energy and promptness in rescuing the large number of inmates which were confined in the building consumed by the fire. We think that no blame can be attached to any one for the cause of the late fire, as it is one of those circumstances which no human foresight could guard against, and which perhaps, if (as we have said before) the keeper had examined the place previous to retiring, could not have been prevented, owing to the known cunning of insane persons.

All of which, together with the testimony taken, is respectfully submitted.

James Junkins,
John E. Rider.

THE NEW YORK TRIBUNE
Large Premiums!
TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have actually taken care that the number of copies of our several issues circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to those friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are unabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgment—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of....$1 00
For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 1 00
For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 3 00
For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 8 00
For $50, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 10 00
For $80, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 18 00
For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of. 25 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber

Semi-Weekly Tribune.

For $11 25, Five Copies Semi Weekly Tribune, and Pens or Pens and Cases to value of..... $2 00
For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 4 00
For $40, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 10 00
For $60, Forty Copies Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 17 00
For $100, Fifty Copies Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.. 30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

BLACKWOOD'S MAGAZINE
—AND THE—
BRITISH REVIEWS,

Great Inducements to Subscribe!

PREMIUMS AND REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative)
2. THE EDINBURGH REVIEW (Whig).
3. THE NORTH BRITISH REVIEW (Free Church.
4. THE WESTMINSTER REVIEW (Liberal).
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

PREMIUM TO NEW SUBSCRIBERS,

the Nos. of the same Periodicals for 1860 will be furnished complete, *without additional charge.*

Unlike the mere ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the Nos for 1860, may be regarded nearly as valuable as for 1862.

Subscribers wishing also the Nos. for 1861, will be supplied at the following extremely low rates.

THE PATENT
FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order; is compact, elegant, durable, and *will save twice its cost in the saving of time* in the matter of combing and applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

Morning Chronicle.

THE BELGIAN MUSKETS.—A good story is told of one of our Illinois colonels who was heard praising the arm. Says he, "in platoon firing with the Belgian musket, I can tell what I cannot with any other arm, and that is, how many pieces have been fired."

"How can you tell that?"

"Oh, I count the men on the ground; it never deceives me. It is 'fire, and fall back flat.'"

One of these Belgian muskets will kick like a mule, and burst with the greatest facility. Several soldiers in our Illinois regiments have been killed in this way.—The bayonet, too, is a novelty, a soft iron affair, apparently designed to coil round the enemy as it is introduced, thus taking him prisoner.—*Chicago Tribune.*

A good word is an easy obligation; but not to speak ill, requires only our silence, which costs us nothing.

In private, watch your thoughts. In the family, watch your temper. In company, watch your tongue.

AYER'S CATHARTIC PILLS.

Are you sick, feble, and complaining? Are you out of sorts, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fountains run undisturbed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous disturbers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of a severe scrof ula. Her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Carlwright, New Orleans.

Your Pills are the prince of purges. Their excellent quality surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1858.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRENLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their tonic effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely believe that we have at length a purgative which we can pledge the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

DR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I could them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in the early stage of bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in discourse. To regulate the stomach, digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours,

WARREN, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

You cannot be made of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the propeller of others that are worse. I believe constipation to originate in the liver, but your Pills affect that organ and cure the disease.

From Mr. E. Stuart, Physicians and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hewitt, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SKIDELL.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These Pills are mercury or mineral substances whatever.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than 30 years in the business, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines for medicinal and other purposes*, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. For one who requires *Pure Liquors or Wines* in lar ge or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

PRINCE ALBERT.—It is no secret to persons conversant with London society, that Prince Albert was not popular among the class nearest to the throne. All admitted the exemplariness with which he fulfilled his duties; but still they did not like the man. Had his good qualities been less unalloyed, he might have enjoyed a far greater popularity. But he was reserved—was considered stiff and exacting of the forms of ceremonious etiquette; he was a lover of art, literature and science, more than of out-door sports and amusements; and he was so singularly free from excesses of any kind, that his stainlessness was a sort of silent reproof to men of freer and looser life; and there were few men of rank, whose lives were not freer and looser than his. His influence was known to be great, and was regarded by a large class with extreme jealousy. Still this want of popularity did not go beyond the upper classes, and this jealousy was just as sectional.—*Boston Post.*

RETRENCHMENT.—A bill has been introduced into Congress by Hon. F. A. Conklin of New York, which proposes cutting down all Government salaries which range from two thousand to ten thousand dollars per annum, from 15 to 20 per cent,—reducing the salaries of Congressmen to $2000, with $10 fine for absence on a call of the yeas and nays, and a corresponding reduction in mileage—abolishing the franking privilege—reducing the clerical force of the departments, and cutting off all supernumerary officials. We think well of the bill. These are war times, and all classes must make sacrifices. Why should not well paid office holders bear their full share of the burden? Till within a half dozen years, Congressmen received but $8 per day; now $3000 a year. Are the men we now elect superior to those of former times? We guess not. Pass the bill.—*Manchester Union.*

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JANUARY 4, 1862.

FROM THE FIFTH N. H. REGT.

CAMP CALIFORNIA, near Alexandria, Va. Dec. 28, 1861.

Messrs. Editors:— The first stopping place of our regiment after leaving the Granite State was at camp Casey, at Bladensburg, Md., where we were assigned a position in Howard's Brigade. We were there about four weeks, when we were ordered to this place. We took up our line of march by way of Washington. Our boys felt quite merry as we crossed the famous long bridge over the Potomac, and for the first time trod the sacred soil of the Old Dominion. We have been here one month to day, and for all we know may remain here sometime. Our camp is situated south west of Fort Worth, on a rising slope, and from our tent door we can see twenty or thirty thousand men in camp. The distance to Alexandria is three miles. As we passed through there on our march here, we could but feel sad as we passed the house in which the lamented Ellsworth was so basely murdered: but he has been avenged.— The city is very quiet at this time. There are many there who sympathize with the rebels, but owing to the presence of so many of Uncle Sam's boys they are very still, and *for the present* at *least* they are Union all over. It is about ten miles from here to Fairfax Court House; our pickets extend within about three miles of there.— We have had but little trouble with the rebels thus far. The health of this regiment is pretty good, with the exception of bad colds. There have been several cases of typhoid fever, and some deaths from this disorder. We have lost nine men since we left Camp Jackson, but on the whole the health of the regiment is as good as can be expected.

At a short distance from our camp is the former residence of Commodore Forest, once an officer in our navy, but now a traitor to his country, and in the service of the Confederates. The house, which is a very large one, now stands deserted and forsaken, the doors are ajar, the furniture scattered about in wild confusion, and every thing betokens a hasty flight. Silent but expressive witnesses of their terror.— To save the property from future spoliation our officers have placed a guard around the place. Many of the people sought safety in flight, and many would gladly return were they not afraid that the Federal troops would be compelled to give up the field and then they might bear the brunt of rebel indignation.

This regiment is highly honored by being assigned the first position on the right of the brigade. The regiment is well officered and the soldiers will compare favorably with any of the regiments from New England. They are quiet and orderly, obeying all orders and demands with alacrity.— Col. Edward E. Cross ranks deservedly high as a military man: his experiences in camp and field render him admirably fitted to transform raw recruits into good soldiers. Of Lt. Col. Langley we need say nothing—he is too well known as a soldier and civilian. Suffice it to say he is a good soldier, well versed in all battalion movements and richly deserves the new position assigned to him. Our worthy Chaplain, the Rev. Mr. Wilkins of Lisbon, is very active in his duties. The band under the lead of Adams of Concord, ranks No. 1 with the whole division. In field music they greatly excel either of the other bands in the brigade.

There are many of old Rockingham's sons here. Portsmouth has her share, and they reflect great credit upon the city whence they came. I have time only to mention the names of Corporal James Stearns of Portsmouth, and Corporal Joseph H. Sanborn of the farming town of Greenland. Lieut. James B. Davids, formerly stationed at Fort Constitution, is first Lieutenant of company K, from Rockingham county. He is a good officer, a perfect gentleman, and every way well fitted for his position. And last but not least I will not forget to mention our very excellent 2nd Sergeant of company K, Thomas H. Walker of Durham, well known to many of your readers in Portsmouth and vicinity. But I must close my lengthy letter by bidding you adieu, wishing you, dear Chronicle, success and prosperity; and long may you thrive is the desire of E. W. S.

☞ The Paris correspondent of the Courrier des Etats-Unis, in a letter dated Dec. 13, calls attention to the important modifications, within a few days, of the tone of the British press toward the United States; says that the Daily News, on a sudden, is reminded that the Congress of Paris took the position that no power ought to resort to war without having first submitted to the arbitration of a third power, and that the Cabinet of Washington acceded to this view.

☞ On Monday evening, a gentleman had his pocket picked at the Boston Museum, of $1790 in bills and money.

NEW HAMPSHIRE ITEMS.

—— Mrs. Martha Spaulding, of Lancaster Village, attained her ninetieth year Dec. 20th, and, as we learn from the Coos Republican, her remaining children and childrens' children, to the number of fifty-two, went home to pay her a visit and to celebrate one more anniversary of her birth. Her husband, Edward Spaulding, was the first white male child born in Lancaster, and Mrs. S., with him, endured the frontier hardships which were the precursors of the comforts enjoyed by a wide spread and thriving posterity.

—— James Martin, a member of the 8th Regiment, was brought before the Police Court in Manchester, and bound over in $200, for highway robbery. The American says:—

"As one of our quiet and respected citizens in company of ladies, was on his way home Tuesday evening, he was assaulted by Martin and other members of the 8th Regiment, knocked down and robbed of some articles of clothing. The Judge in his sentence, expressed the conviction of the community, when he remarked that similar outrages have long enough been endured by our citizens, and that they cannot longer be committed with impunity."

—— Mrs. Boyd of Seabrook, a widow lady living alone, was burned to death on Wednesday of last week, by her clothes taking fire. A handkerchief around her neck took fire from a lighted candle, and in passing to the sink to extinguish the flames, the fire was communicated to her dress, and before assistance reached her she was so seriously burned as to cause her death in about two hours.

—— A son of Mr. Jason H. Boynton of East Acworth, aged seven years, was instantly killed on Wednesday evening of last week, by being run over by an ox team.

—— Mayor Humphrey has contracted with the Amoskeag Manufacturing Company to build a steam fire engine for the city of Concord.

THE REBELLION.

Reports are in circulation that Gen. Dix is to be removed from his present command, and raised to one of higher responsibility, & that Gen. Halleck will soon be ordered to take command of the army of the Potomac.

The New York Herald's Port Royal letter says information having been received from a deserter that the British steamer Fingal would attempt to run the blockade at Savannah, through Warsaw Sound, the gunboat Ottawa was dispatched to the Sound. On her arrival, Tatnall's mosquito fleet to attack her. After a brisk engagement, a shell was put through Tatnall's vessel, when he retired, and the Fingal's escape was frustrated.

Advices from Port Royal indicate that Com. Dupont is preparing for a new naval demonstration. The gunboats are concentrating, and a large number of armed launches are practicing in the work of assisting in the landing of troops. About 10,000 troops could be spared, in addition to Gen. Stevens' brigade, to operate against Charleston, Savannah, or the rebel force at Coosawhatchie.— the latter most likely.

The Washington correspondent of the Philadelphia Press says orders have been given for a movement by the way of Occoquan; also that Gen. Burnside's expedition will probably ascend the Rappahannock.

MEXICO.— Steamer Columbia, from Havana 28th ult., has arrived at New York.— Vera Cruz had been occupied by the Spaniards. Four French ships-of-war and three British ships arrived at Havana, Dec. 27th. The Spanish squadron took possession of San Juan de Ulloa Dec. 16, and the flag was waving over it. The city was evacuated by the Mexican troops the next day. They retired without firing a gun. Havana letters state that Santa Anna and Miramon are both to go to Mexico. Gen. Trim is at Havana, but is about to leave for Mexico with reinforcements.

CONGRESS. — The Senate, Thursday, passed a resolution calling on the President for the correspondence with foreign powers, relating to belligerent and neutral rights on the ocean. Mr. Wilson introduced a bill to regulate the appointment of sutlers in the army. The bill provides that sutlers shall be elected by all the commissioned officers of regiments. The brigade staff officers will fix the prices of goods allowed to be sold, and the accounts of sutlers will be inspected every fifteen days.

In the House, the Secretary of War was called upon to give information why certain regiments now in camp are not supplied with arms. Both Houses adjourned to Monday.

☞ The workmen at the Brooklyn Navy Yard, numbering nearly 3000, have struck in consequence of the recent order of the Secretary of the Navy, requiring them to work from sunrise to sunset, at the same rate of wages as is paid outside.

A later dispatch says the strike has ended by the return of the men to work.

☞ Among those who have called at our office during the past few days, it has pleased us especially to greet Brothers E. N. Fuller, Esq., of the Nowark, N. J., Journal, and Col. H. O. Kent, of the Lancaster Republican.

Recollections of Old Acquaintance.

BY UNCLE TOBY.

MY OLD SCHOOLMASTERS.—[Concluded.] — GEORGE FORRESTER — ROYAL BLAKE — AMOS TAPPAN. — In Deacon Clark's school, as the reader may remember, no grammar was taught; nor was there a globe or a map in the whole establishment. To learn something of English grammar, the juvenile Uncle Toby, at the age of about eight years, was withdrawn from under the Deacon's wing for a brief season, and placed for a term of eight weeks under the tuition of George Forrester, a Scotchman, who had been in this country but a short time.

Mr. Forrester lived and taught a private school in the old Red House on High street, fronting School street, which house happened to be Uncle Toby's birth place. It was the same house now standing there, repaired and painted white. Forrester was an ardent admirer and true disciple of Lindley Murray. His pupils were furnished, the elder with Murray's large Grammar, and the younger with the abridgement of the same; and so faithful and skillful was he in the oral instructions which he gave, that the writer of these lines, in three days' study, began to see the nature of each Part of Speech,—and at the close of the first week, knew something of the nature of most of them. The eight weeks were a term of hard study, but were well repaid by an insight into language, and a spur to further acquisition of knowledge. Mr. Forrester had a pair of Globes, then not very common—and Geography all at once became plain.

At the close of this term, the school, which was not large, was broken up by the removal of the teacher to Montreal, Canada. After a sojourn in Canada of a year or so, Mr. Forrester returned to Portsmouth, and re-opened his school in a chamber of his dwelling-house on the south side of Buck street, (now State street,) a little the east of Washington street. He advertised his school in the newspapers; on the first day his seats were full—and very soon the room was full of seats. He had 40 scholars, all that the room would hold, and kept up this number generally for a couple of years,—until the great fire of Dec., 1813, destroyed the house, consumed most of his furniture, three-quarters of his valuable library, and suspended the school for some days.

It was soon re-opened, in a wooden building which stood in the yard of the four-story brick house in Daniel street, and afterwards removed to the third story of the brick building in Church street, built by Nath'l Folsom, Esq.

The school held its own in numbers, and was in the main well taught. But the fire had greatly impoverished many citizens;—the war many more; and to crown the whole, the teacher had a dread of British invasion, and did not deem our port half defended. Accordingly, in the Autumn of 1814, almost Winter, he closed his school, packed his books, beds, bedding, and a few other articles, into a common covered baggage wagon, took a seat inside, with his wife and two or three children, and moved to Pittsburg, Penn. Wagons in those days had no springs, and travelling was of course rather jolting. But drawn by a pair of good horses, driven by Wm. Dame, they made the passage in about two weeks.

At the West, he became clerk of a steamboat company, and after a few years' residence there, he was drowned in the Ohio river while bathing.

Mr. Forrester was, as before suggested, a skillful and successful teacher of English Grammar. He was also a fair Latin, Greek and French scholar. But he prided himself mostly on Mathematics; and his sign read, "G. Forrester's Mathematical School." He kept a mixed school, of boys and girls, of all ages, from five to five and twenty. And as he was quick-tempered, severe, and athletic, punishment in his school was not very rare nor very light. Yet, as in most other schools, the large majority of scholars were punished but little, while a few were punished often, and nobody was surprised, though some times we were grieved or angry.

On our benches were midshipmen of the Navy, prize-masters of privateers, lieutenants in the army, young ladies about to be married, and little boys and girls,—crowded together like bees in a hive, and quite as noisy.

In coming from Scotland, Mr. F. was registered as a farmer, (so his father was,) —as mechanics and scholars were not allowed freely to emigrate. He was a Baptist preacher, an ultra Calvinist, beyond Calvin's self, a great way. He was an intimate friend of Rev. Walter Balfour, of Charlestown, and was engaged while here in a written controversy with Rev. Hosea Ballou, on the parables, and other subjects.

Forrester and Balfour were both preachers, and men of varied learning—but they repelled the idea of being *clergymen*.

In the spring of 1815, the people of Portsmouth in town meeting assembled, divided their territoriy into eight school districts, and employed eight men to keep a mixed school each.

Royal Blake was the first teacher of District No. 8, and among his pupils was the writer of these lines, during that summer.

This school, by Mr. Blake, was kept in the same room in Church street where Forrester had closed his school, and with the same furniture. It seemed quite homelike.

Now, for the *first* time in Portsmouth, (except at the Gravelly Ridge school,) did girls enjoy an equal chance with boys, to attend good town schools.

These small districts, as applied here, were a grand mistake; yet they did much good, by introducing such teachers as Royal Blake,—and by breaking the ice, so that schools for girls, being found possible and useful, have ever since been deemed indispensable.

Blake did wonders, keeping a large *new* mixed school in the most perfect order, without any whipping, and with a very small allowance of scolding: and under him the school made so good progress that some parents who wished a more select school for their children induced him to leave the district school, to open a school for young ladies in the Academy, where he taught a flourishing school for some years.

The improvements made in some of the districts, were kept in the schools after the districts were abandoned,—and they have never been wholly lost in the subsequent changes.

Deacon Amos Tappan was a private tutor [gratuitous] in latin, to the writer. He is well remembered, by many, as a stern unyielding puritan schoolmaster of the ancient pattern,—in whose school no day went by without somebody's being punished.

My recollections, of him must be *only grateful*, however, for he gave up half his dinner hour to teach a boy from whom he hoped for no earthly reward.

And with him we dismiss the stories of 'the old schoolmasters.' The writer ceased to be a pupil of theirs at the age of fourteen,—and now, at three-score, probably no one of his teachers survives.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DR. C. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs and colds, dyspepsia, bilious, sore throat, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting diseases, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—a case of medicine we mean, sold by J. H. American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.— In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 90 Pills, by return mail. my28dawlm

THE DEPARTED.

An old gentleman, now over four score years, sends us the following memoranda of deaths, from records kept by himself.—Though not a perfect list, it will interest many, by recalling memories of the loved and lost,—and may be convenient for reference.

For the Chronicle.

A FEW REFLECTIONS ON TIME THAT HAS PASSED AWAY.—When the mind is fruitful, and we look back to former years, even to our childhood and youth, and we do well remember the looks and appearances of many of the aged men of those days, and we may say in the language of the Prophet of old, as he said, Our fathers, where are they? and the prophets, do they live forever? And the answer may be said the same, few and evil are the days of the years of thy servants.

'Tis but a few whose days amount
To three score years and ten,
And all beyond that short amount
Is sorrow, toil and pain.

J. G. B.

☞ Mr. Alfred M. Hoyt has resigned his situation as Principal of the Haven School in this city, on account of ill health. Mr. Hoyt has been engaged in teaching for about 37 years—nearly a quarter of a century in Portsmouth and vicinity, and for more than twenty years in this same school. His well-known specialty was mathematics, and he was a most faithful and pains-taking teacher—of which fact we personally had *striking* proof, when learning our a b c's at the old Gravelly Ridge School, going on to thirty years ago. However, we'll forgive all that, and join our testimony to that of everybody else, as to Master Hoyt's high character as a man and a preceptor—and wish him speedy restoration to health, and a long life of quiet comfort—to which he would seem to be richly entitled, after his long term of service in the infantry—teaching the young idea how to shoot. We would sooner enlist in any other branch of military duty. F.

☞ Wilson's Troupe of Minstrels gave a concert at the Temple last evening, to an audience that was quite large, considering the low state of the thermometer. The entertainment was quite satisfactory, and the dog Carlo excited the wonder of the spectators. They perform again at the Temple this evening. *

SUNDAY SERVICES.—Prof. Taylor, of Andover, Mass., will preach at the North Church to-morrow.

POLICE COURT, Jan. 3.—Before Justice Odell.—Mary Armstrong was fined $3 and costs, $3.86, for being drunk on Portsmouth Bridge.

THE NAVY YARDS.—A petition to Congress for the repeal of the 8th section of the act to promote the efficiency of the Navy, has received the signature of about 2000 men in the Charlestown Navy Yard. The argument of the petitioners is that this section leaves it in the power of private shipbuilders to regulate the hours of labor on the Navy Yards, thus rendering void the system adopted by government over 20 years ago.

The same course is being followed by the men in the Portsmouth and Brooklyn yards. The report that the hands in the Brooklyn yard had struck, is said to be incorrect.—*Boston Journal.*

☞ In the U. S. Supreme Court, at Washington, on Monday last, on motion of Hon. Edwin M. Stanton—Hon. W. H. Y. Hackett, of this city, was admitted an attorney and counsellor of that Court.

THE NEW-HAMPSHIRE GAZETTE and Rockingham Weekly Chronicle, containing a summary of the news of the week, published Thursday, and for sale at the Chronicle Counting Room. Price 3 cents. Only $1 per year, in advance.

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly

In Rye, Jan. 2d, EVERETT CHARLES SEAVEY, aged 11 years, son of Eben L. Seavey.

☞ The funeral services of Mr. Joshua W. Messer will take place this (Saturday) afternoon from his late residence, No. 72 Islington street, at 2½ o'clock.

THE NEW YORK TRIBUNE
Large Premiums!
TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of the paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of....$1 00
For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 1 00
For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 3 00
For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 8 00
For $50, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00
For $80, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....18 00
For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of...25 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For $11 25, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of.....$2 00
For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 4 00
For $40, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00
For $60, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....17 00
For $100, Fifty Copies Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of....30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whom make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post Office and State should in all cases be plainly written. Payment always in advance.

THE PATENT
FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of two-thirds in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who knows of the PATENT FOUNTAIN BRUSH will ever use any other.

From the Journal

TREMENDOUS GALE. — The year came in with mildness, as will be seen by our Weather Record. The temperature was eight degrees higher at eight in the evening than at noon. Soon after there was a sudden change, — and the wind blew with great force through the night and the next day. A chimney of the house owned by Mr. Henry M. Grant, occupied by Mr. Hones, — on Islington, near the corner of Dover street, — was blown over in the night, breaking the rafters. At the house of Mr. Wm. A. Goyo, on Woodbury street, a window on the west was blown in, the house filled with wind, and the eastern side was blown down. Mrs. G., who had been confined to her bed for two months, had to be removed to another house at four o'clock in the morning. A barn 80 feet long, on the Hill farm, at Gravelly Ridge, was blown down. The zinc which formed the ridge-pole of the High School House was blown off, and the slating damaged. A large patch of the tin roofing of the Portsmouth Steam Factory was rolled up and blown off. Boards on the wharves were blown from the piles into the docks, — and on Thursday the waves on the river were white with foam, and as undulating as on the ocean.

HEALTHY TOWN.—In North-Hampton in this county, in fourteen months, from Oct. 25, 1860, to Jan. 1862, there have been but two deaths.—Last summer, Levi Brown, Esq. died at the age of 85, and the wife of Mr. Alvah Dearborn at the age of 61. This healthy farming town, which is separated from Portsmouth by Rye and Greenland, has a population by the last census of about 800. It has not varied more than 50 from this number for the last century. In 1820, the population was 794. The number of deaths in twenty years up to 1821, was 224, or between 11 and 12 per annum.

ENGINE AT THE ALMS-HOUSE.—A correspondent suggests the propriety of an engine at the almshouse. He says, one that could be worked by two or three men, could be purchased for less than one hundred and fifty dollars, with one hundred and fifty feet of gutta-percha hose. He refers the City government to examine one now in use at the Portsmouth Gas works.

THE COMMERCIAL BULLETIN, Boston, edited and owned by Curtis Guild, Esq., commences the new year with renewed efforts to achieve excellence in all its various departments. Every person connected with commerce, navigation, manufactures, and business in all its multifarious ramifications, reads the *Bulletin*. It is without a rival in the country for thoroughness of detail and exactness of statement.

READER! did you ever take a glass of "SPEER'S Sambuci Wine?" If you never have, let us recommend you to do so, for after having tried it, both as a beverage and a medicine, we boldly pronounce it the most palatable and efficient Wine we ever drank. As a mere beverage, even, we maintain that it is the very choicest Wine in use, being at once delicious in favor, cheering in effects, and cheap in price. As a medical agent, we have tried it effectually during the past ten days (after being prostrated by cholera morbus) and have found it everything its proprietor claims for it.—*Rahway Register.* The above tonic can be had at Wm R. Preston's.

AYER'S AMERICAN ALMANAC has now arrived and is ready for delivery, gratis, by Dr. William R. Preston, to all who call for it. Our readers may be surprised to know that this little pamphlet which has become so much a favorite in our section has quite the largest circulation of any one book in the world, except the Bible. It is printed in many languages and scattered through many nations as well as supplied to almost the entire population of our own vast domain. Every family should keep it, for it contains information which all are liable to require when sickness overtakes them, and which may prove invaluable from being at hand in season. If you take our advice, you will call and get an Ayer's Almanac, and when got, keep it.

COLDEST DAY.—Friday, Jan. 3, thermometer 4 above.

The North American Review.

NO. CXCIV.—For January, 1862. Contents:

Art. 1—The Adulterations of Food.
2—Methodist Clerical Biography.
3—German and French Criminal Procedure.
4—On Translating Homer.
5—The Irish of the Past.
6—Unity of Life.
7—Loyalty.
8—The Last Two Books on Africa.
9—Dr. Cheever's Sermons.
10—The Domestic and Foreign Relations of the United States.
11—Critical Notices.
12—New Publications.

This number of the Review being the first of a new volume, the Publishers would take this opportunity to commend the work to the favor of the American public.

During the past year, the timely articles which have appeared upon subjects so important to our nation, have attracted the attention and commanded the admiration of statesmen; and nowhere have more able and well-digested opinions upon these great topics appeared than in the North-American Review. The article in the present number, on the Domestic and Foreign Relations of the United States, examining thoroughly the subject now uppermost in the minds of all the great nations, is worthy of special attention.

The Review is published quarterly, at five dollars per year, by CROSBY & NICHOLS, Boston.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system disranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some ill of sickness is creeping upon you, and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and dislodge not the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. Thus, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORSBRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Howard Dayl, Baltimore.

DEAR SIR, AYER: I cannot answer you *what* complaint I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an efficient cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirable adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can name. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, U. S., 7th Feb., 1855.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Internally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relaxe, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe constipation to originate in the liver, but your Pills effect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural *urge* in women, wholly or partially suppressed, and also very effectual to cleanse the *stomach* and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and lumbar region, generating neuralgic pains, which ended in *chronic rheumatism.* Notwithstanding, I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Chronic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

☞ The Mississippi Legislature has under consideration a bill to issue five millions of dollars in State treasury notes, pledging the faith of the State for their redemption, and assuming the payment of the Confederate war tax. This, a contemporary thinks, is a very rich joke—the repudiating State of Mississippi pledging its faith, and assuming the payment of a direct tax to the Government of Jeff. Davis, who has always been the unblushing advocate and apologist of his State's dishonored credit.

☞ We knew that the Irishman told the bootmaker to make his boot "as large as he convaynently could for the money"; but we weren't prepared for the following, which we find in a Portland paper:—

"The English steamers have brought to this port the present season large quantities of wool, consigned to houses in this city and elsewhere. The demands for army cloth has caused large importations of this article. We saw an Irishman, the other day, with an armfull of the wool he had picked up about the wharf, saying that he was going to put it in the toe of his boot "to keep his fut warm."

☞ A Dublin paper, commenting on the decease of Prince Albert says:—

"When it is known that one of the last suggestions of the Prince Consort was that gentleness and forbearance should mark the demeanor of England to a kindred people, soured and inflamed by the passions of civil war, it will enhance the love of the Queen, deepen their sorrow for the loss she has sustained, and dull the edge of irrational hostility to England."

☞ Dispatches from Provincetown report that the British gunboat Rinaldo, left that port on Wednesday afternoon at 6 o'clock, with Messrs. Mason and Slidell on board. It is also stated that the wind blew a hurricane on the Cape on Wednesday night.

IGNORANCE OF THE REBEL PRISONERS AT ST. LOUIS.—They take their capture defiantly, and cherish high hopes of being speedily released through the capture of St. Louis by the army of Gen. Price. The assurance of the ratterdemallions is equalled by their ignorance—many of them profoundly believing that the affair at Hatteras was a Confederate victory and a Federal repulse, and that Washington is on the point of capitulation to the rebel forces in Virginia! They listen with contemptuous incredibility to any mention of the affair at Port Royal, never having heard, it would seem, that the Federal government had sent a fleet thither.—*St. Louis Democrat.*

☞ A five dollar bill on the Mechanics' Bank of Newburyport, issued in 1825, was recently returned to that institution. It was retained, unused, for the whole thirty-six years; but if put up at compound interest, the owner would have had $40 instead of $5.

A Berlin letter in a continental journal says—"It is firmly believed here that the relations of the English and French peoples and Governments are so distant that a physical collision of the two alone can be worse. A war with England is, it is said, the constant subject of discussion in the private circles of the Emperor's friends, and one of the few subjects that set the Sphinx a-talking."

☞ Gen. Cochrane of Rockland, employs about fifteen hundred persons making tents for the Government. It takes one man all the time preparing the wax for the thread.

☞ Orders for building an iron-clad steamer by contract, at Philadelphia Navy Yard, have been received. As soon as the contract is given out, the work will be pushed forward with all possible dispatch.

☞ At no time has Gen. McClellan been dangerously ill. He is rapidly recovering from a severe cold taken at General Porter's last review. He is attending to all important business, and will be out in a day or two.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine:

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JANUARY 6, 1862.

SLAVERY STRONGER THAN THE UNION.—There are those among us who say that Slavery has nothing to do with this rebellion. Not so think its leaders. The late language of Ex-Gov. Hammond on the purpose of the Slave Power is thus referred to in the Tribune of the 21st ult: Nearly a year ago, to wit: on the 27th of December, 1860, the Hon. J. H. Hammond, once Governor and Senator of South Carolina, in a private letter to a correspondent in this city, defined the aim and object of the South in these terms,—

"You see, what I have often told you, that Slavery is stronger than the Union. I don't think there is the least chance of reconstructing the Confederation on the former basis. We *will have no other Union* than the one in which the *Slave Power* shall be largely and permanently *predominant*. We can be secure in no other."

The whole action of Floyd, Davis & Co. for years, has been preparation for this rebellion to secure the "*supremacy* of the slave power," as Gov. Hammond truly calls it. And yet some men in New England are dreadfully afraid of saying one word, or doing one thing, to *offend* any rebel or traitor who holds a negro in slavery, or raises one for the market. Such men are not quite so numerous now as they were a few years ago.—and the events of this year will make them fewer still.

☞ Gov. Andrew of Massachusetts, in his Message, recommends a law to *stay* all lawsuits against Volunteer soldiers, during their absence.—under proper regulations to save the rights of creditors.

Speaking of the Rebellion, he says:—

The ultimate extinction of human slavery is inevitable. That this war, which is the revolt of Slavery, (checkmated by an election and permanently subordinated by the Census,) not merely against the Union and the Constitution, but against Popular Government and Democratic Institutions, will deal it a mortal blow, is not less inevitable.

The only question which I can entertain is what *to do*, and when that question is answered the other is what *next to do* in the sphere of activity where it is given me to stand. For by *deeds*, and not by *words*, is this People to accomplish their salvation.

The Great Rebellion must be put down, and its promoters crushed beneath the ruins of their own ambitions. The greatest crime of history must receive a doom so swift and sure, that the enemies of Popular Government shall stand in awe while they contemplate the elastic energy and concentrative power of Democratic Institutions, and a Free People.

☞ The long contested land claim between Gen. Jas. H. Lane and Gaius Jenkins, involving the title to a quarter section of land adjoining Lawrence, Ks., has been finally decided in favor of Gen. Lane. The merits of the case have been exhaustively presented on both sides by eminent legal advisers, and involved the original parties in a personal conflict on the claim, resulting in the wounding of Gen. Lane and the death of Gaius Jenkins. The decision vindicating Gen. Lane in his right to the property was rendered on the last day of December. At the commencement of this year Gen. Lane presented to the attorney of Mrs. Jenkins $1500 as a freewill new year offering of kindness and sympathy.

☞ Some excitement has been created at Albany by the refusal of Ex-Treasurer Dorsheimer to give up the keys of his office to his successor, Mr. Lewis. Mr. Dorsheimer insists that, as Mr. Lewis did not file his bond before the 1st of January, he is not qualified, and that the old Treasurer holds over. The other State officials refuse to recognize Dorsheimer, and the business of the office is brought to a stand-still. New York politicians are a queer set.

☞ The names of about 1400 military officers have been reported from the Military Committee of the Senate for confirmation. The names of the French Princes are on the list without mention of residence; also that of Gen. Havelock. Additional to the list are the names of Thomas Francis Meagher and Col. Asboth, sent in by the President, to be made Brigadier Generals.

☞ In Ipswich, Mass., on Wednesday, Mr. T. Greenwood took his two sons, six and eight years of age, with him in his boat on a gunning excursion. After hauling the boat on shore, he left them to go a short distance. While on his way he looked back and saw that the boat was afloat bottom up. He ran to the spot, but too late to save the lives of his children. Both bodies were found upon the bottom, the water being only three feet deep.

☞ The charge against Gen. Benham as to the pursuit of Gen. Floyd and the cause of the escape of the latter with his army, have not been dismissed. The court martial is postponed, as the chief witnesses are attached to the army of Western Virginia and are now serving in Kentucky and cannot be even temporarily withdrawn.

NEW HAMPSHIRE ITEMS.

—— A rascal, calling himself Addison Tasker, went to Laconia Village three weeks ago, and obtained board in a respectable family. He introduced himself as a physician, a spiritualist and a widower. At his boarding place he became acquainted with a young lady. On Sunday, the young lady did not come home at the usual time, and inquiries being made, it was ascertained that she had gone with the doctor to Franklin, where the marriage ceremony had been performed. An exchange says, "Tasker was a married man, having at the present time, it is said, three wives." He was arrested and taken to the jail at Concord.—The young lady returned to her friends at Laconia.

—— The Concord Railroad bridge over the Nashua river was burnt last Saturday. On Tuesday the cars went over a new one. The bridge was insured.

—— The Manchester Mirror says "that a great trotting match is to come off Thursday, Jan. 9th, on the ice, at the Island Pond House, between Jack Stewart's two-year-old colt and Taggart's of the same age.—The match was made some two months ago, and a large amount of money is up on the result. What gives additional interest to the whole matter is that Hiram Woodruff and Dan Mace are to drive. It will attract a large number of strangers to Manchester. The colts are undoubtedly the fastest trotters of their age ever known.

—— A correspondent of the Boston Herald, writing from Concord, says the wind on Wednesday night lifted a costly covered bridge that spans the Merrimack in the northerly part of Concord, from the piers, and sent it far down the stream, leaving scarcely a particle of wood-work upon or about the piers. It was one of the four that span the river there, known as Sewall's Falls Bridge.

—— The N. Y. Tribune publishes a list of the National soldiers who have been imprisoned in Southern dungeons since the rebellion broke out. The list includes over 3000 names, and was brought from Richmond by the Hon. Alfred Ely, who prepared it. It gives the regiment to which each soldier belonged, the State from which he came, and the present place of confinement of a large number of those who still survive. From it we have compiled the following list of New Hampshire soldiers who are now or have been prisoners:—

—— The Statesman says the Seventh and Eighth Regiments in camp at Manchester, are under orders from the War Department to report themselves for service to Maj. Gen. Butler.

NAVAL.—Com. Ronckendorf, of Pennsylvania, has been appointed to the command of the U. S. steamship San Jacinto at Boston.

U. S. steam frigate Richmond arrived at New York on Wednesday, from Key West, which place she left on the 21st of December, for the purpose of having her machinery repaired, which is sadly out of order.

The Sabine has also arrived there.

☞ Paul Dillingham, the recent democratic candidate for Governor of Vermont, has taken under his care a "contraband" recently belonging to a secesh lady, and is sending him to school, with very gratifying results. The Democratic candidate for Governor of Maine goes for arming the slaves. "The world moves."

☞ A rumor was current in Halifax, on Friday, of the loss of the steamship Parana with 1100 British troops on board, in the St. Lawrence river, but could not be traced to any reliable source.

THE REBELLION.

The Senate Military Committee are reported to be in favor of removing the restriction limiting the President to a call for only 500,000 volunteers, and propose to authorise him to bring into the service whatever number of troops the War Department and the commanding General shall require for the vigorous prosecution of the war.

Johnston and Buckner's rebel forces have torn up a large portion of the Louisville & Nashville railroad, burnt the cross-ties, and felled trees across the track, and at last accounts were engaged in blowing up the tunnel, which is about 300 feet long, near the Junction.

At the great fire at Nashville, which consumed $700,000 worth of property on the 22d ult., C. Q. Armstrong's pork house contributed materially to the progress of the flames; and the stored shells exploded terrifically in every diriction.

240 released Union prisoners from Richmond arrived at Fortress Monroe on Friday morning, they having been taken by a Federal steamer, from a rebel steamer, under a flag of truce. Among them were J. S. Rice, Co. A; C. H. Lewis, Co. H, (fifer); Oliver Lewis, Co. M, of the N. H. 2d Regt.

A scouting party from Fortress Monroe, finding Great Bethel occupied by a guard of rebel cavalry, took possession of the place and left a guard there.

All the Federal prisoners at Charleston, including Col. Corcoran, have been transferred to Columbia, S. C.

Rebel dispatches say:—Fort Pickens opened fire again, Tuesday, but the rebel batteries were silent. A large Federal force has landed in the North Edisto and seized Station No. 4 on the Charleston and Savannah Railroad. Sixteen Federal war vessels are reported at Ship Island. There has been a destructive fire at Richmond. Charleston was fired in several places on Sunday evening last.

The latest dispatches give an awful picture of the condition of the rebel army:—according to them, there are no regimental drills, great numbers are offering large sums for substitutes; released prisoners say their clothes were looked upon with longing eyes by the rebels,—and as high as $25 (Confederate bonds?) was offered for a pair of boots. Coffee was sold in Richmond at $1.50 per pound.

☞ Mr. John Chambers of Presque Isle, Me., lost his house with all its contents, by fire, on Saturday last. The fire originated by the "burning out" of the chimney. No one was in the house but Mrs. Chambers, who did not discover the fire until it was too late to save anything.

NOT SO.—The Lynn Bay State throws more than doubt on the story now afloat that a young lady, one of the "upper ten" in Central Europe, is an operative in a shoe factory in that city. The fact that there is a Bourbon princess among them there is quite a secret to the good people of Lynn.

☞ It is mentioned as a curious circumstance, in connection with the recent fall of a large tenement house in Edinburgh, Scotland, that, although the building had previously been infested with mice, for five or six days before the accident not a single mouse had been seen or heard.

☞ It is said that circumstances have transpired within the past few days, leading to the belief that it will not be difficult to designate with certainty, the source whence the rebels have within the past two months derived valuable information, which it is known the Government took every means to conceal.

☞ Col. Fuller, formerly editor of the New York Mirror, has been announced to deliver a lecture in London, *advocating the secession cause*. In 1856 he supported Col. Fremont for President.

☞ The N. Y. Tribune says there were but few calls made in New York on New Years. The few ladies who were "at home" displayed their patriotism in Union decorations, &c., but the old customs of the day were generally neglected.

☞ It is said that a very strong effort will be made by certain parties in Congress and out of it to obtain the repeal of the act of reciprocity in trade with Canada, for the unfriendly spirit shown by her towards the Union.

☞ Official information received at the Medical Department of the army of the Potomac, shows that the mortality is less in proportion to the number than in any American city. The Department has the official list of 118,000 men.

☞ It is said that Paul Morphy, the celebrated Chess champion, is about to join the staff of Gen. Johnston, of the rebel army. Morphy has been some time in Richmond, Va., studying law.

☞ The result of the Court of Inquiry into the efficiency of volunteer officers at Port Royal was, the dismissal or resignation from the service of some twenty officers, from Colonels down.

☞ The editor of the Richmond Dispatch, said to be a passenger by the flag of truce, is now in Baltimore.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST TEST OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the patent are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc. etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as bibles in a house, and every family should have one.—a case of medicine we mean, sold by J. H. American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Low ness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m

CONCERT TO-NIGHT.—The excellent Ethiopean Minstrel Troupe, which gave two of their fine entertainments to the great satisfaction of highly respectable audiences of our citizens, on Friday and Saturday evenings—it will be seen, announce one more concert, at the Temple, this (Monday) evening.

Their performances, musical and antic, are creditable and unexceptionable—and they have proved themselves really one of the best companies of the sort which has visited Portsmouth for a long while. The dog Carlo will greatly interest all who love dogs and appreciate queer tricks.

Now that the troupe have reduced their tickets to the people's standard of 15 cents, we see no reason why they should not have a still larger audience to-night.

EXTRA DIVIDEND.—The Mechanics & Traders Bank of this city, in addition to their regular dividend of profits payable on Monday, Jan. 6th, will pay on that day a stock dividend of thirty dollars per share, reducing the capital stock of the bank from $141,000 to $98,300.

The Rockingham Bank paid 4 per cent dividend, and the Bank of New Hampshire 3 per cent on the 1st inst. It is stated that the latter Bank is increasing its surplus in making but 6 per cent dividend for the year. The Newmarket Bank pays on Monday, Jan. 6, a semi-annual dividend of four per cent.

☞ The City Marshal's Report of the number of arrests made in this city during the year 1861, is as follows:—

Whole number of arrests, 1155, for the following causes:—Drunkenness 405, brawl and tumult 33, vagrancy 115, assaults 83, common drunkards 21, lodgings 286, larceny 44, disorderly conduct 36, obstructing streets 2, breaking and entering 16, violation liquor law 7, truancy 9, violation Sunday ordinance 8, keeping disorderly houses 11, running away from House Correction 10, perjury 1, keeping house ill fame 1, gambling on Sundays 2, breaking glass 7, escape from Alms House 16, keeping Gaming House 1, resisting officers 5, insane persons 3, suspicious persons 14, snowballing in public streets 1, incumbering side walks 1, violation dog ordinance 2, disobedient to parents 7, receiving stolen goods 2, Sabbath breaking 4, deserters from Navy 4, drumming in streets 2.

☞ Wednesday next, January 8th, is the anniversary of the battle of New Orleans—and it is to be a great day in Concord. The annual meeting of the Governor's Horse Guards, winding up with their splendid Ball at the Phenix Hotel and Hall, is to be held on that day. Also, the Democratic State Convention—at which, so a good Democrat informs us, they are going to nominate Paul J. Wheeler, (and he says they are going to elect him too, afterwards.) Perhaps so—we shall see. We don't think Gov. Berry is the strongest man in the State, but the Republicans have not been bea en lately in New Hampshire, and seem to have become as staunch as the Democrats used to be. Besides, Mr. Berry is connected with the Free Will Baptists, which has almost imperceptibly grown to be about the strongest religious denomination in the State.

And we pray that which has almost made the heart of the country sick by hope long deferred, may occur by that day, also—a battle and victory like that of Jackson's, against the enemies of his country.

At any rate—now that the Concord cars run so that you can get somewhere and back again on the same day—the Convention and the Guards' Ball present attractions for many citizens of Portsmouth to visit the capital—which will, without doubt, present a gay appearance on that day and evening.

☞ *Messrs. Editors:*—We understand that our gallant firemen are about getting up a series of soirees to divert the long winter evenings of their tediousness. Will the belles of Portsmouth sneer at the endeavors of their sturdy and noble protectors in hours of peril? Will it be said by the fair ones of Portsmouth, as they flit past the scenes of innocent mirth, it is nothing but a fireman's ball? or shall we by kind sympathies, endeavor to repay in part the debt of gratitude we owe to these brave men, who so willingly sacrifice their hours of business and rush to rescue our lives and property from the devouring element. A FRIEND.

IS AT ALL RIGHT?—Strange accounts of the conduct of Flag Officer Missroon, of the blockading fleet off Charleston and Savannah harbors, are brought by the returned seamen of the stone fleet. They report that Capt. Missroon seemed entirely indifferent as to what became of their vessels—that he gave them no assistance and, indeed, took very little notice of them on their arrival at the station. The mishaps to several of the ships are attributed to his neglect of his duty as the federal officer to whose charge they were consigned. In conversation he is reported to have freely evinced feelings of sympathy with prominent Southern traitors—and his "old friend Tatnall," be declared to our men, was a "first rate fellow." This reassuring piece of information was vouchsafed in response to some suggestion touching the necessity of guarding against a sudden raid by Tatnall's fleet of armed steamers. It is further stated that Capt. Missroon's ship is often aground (which is hardly the proper predicament for a blockading vessel to be in), showing that little or no attention is paid to keeping her in condition for service.

We notice these reports because if they are true, it seems to us that the facts cannot too soon be known—and our sources of information are such as we cannot discredit. —*New London Chronicle.*

☞ Our friend of the Journal of Agriculture is a most excellent man and prints a most excellent Farmers' paper, but it does not seem to be posted in naval architecture. Speaking of the ship Franklin, now on the stocks at Portsmouth Navy Yard, he says:—

"She is indeed a fine specimen of naval architecture of the old style, and worth an hour's labor, such as we took in going over her vast expanse, a year or two since. She has been under cover some years."

"Old style," indeed! why man, the Franklin, so far from being "of the old style," is one of the handsomest, finest and best ships-of-war, ever built in this country. Let us whisper to you, friend, that Ambassadors all the way from Russia, have been down this way to look at her, and felt repaid for their trouble.

A RIDDLE.

My name to young children is frequently told,
I make my appearance in wood and in gold,
And though out of doors I never do go,
I'm always in mountains, in cold and in snow.
I am so very small in nothing I live,
Yet earth can't contain me, nor room for me give.
I am highly exalted, and great is my fame:
Fear not, gentle reader, you'll find out my name.

☞ For Terms for Transient Advertisements, see notice at Head of 1st page.

Terms Cash, except where accounts are open—and all bills settled quarterly or half-yearly.

Advertisements outside the regular business of the yearly contractor, such as real estate notices, wants, lost, &c., charged as in other cases; and all excess of space occupied over contract, charged extra, half the rates of transient advertising.

Notices in Editorial columns, 10 cents per line. Special Notices, 6 cts. per line—and per square, double the rates of other advertising.

NOTICE TO SUBSCRIBERS.—The bulk of our readers desire their papers early; and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or spoiled by storms, unless they have a drop-box cut for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place without,—and always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and for information of any instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

THE PATENT
FOUNTAIN HAIR-BRUSH.
In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order; is compact, elegant, durable, and *will save twice its own price* within three months, by *economizing Preparations for the Hair.*
THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.
To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—
It dresses the hair without soiling the fingers; it effects a saving of waste of fluid in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

PREMIUMS and REDUCTIONS.
L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:
1. THE LONDON QUARTERLY (CONSERVATIVE)
2. THE EDINBURGH REVIEW (WHIG)
3. THE NORTH BRITISH REVIEW (Free Church.
4. THE WESTMINSTER REVIEW (LIBERAL).
5. BLACKWOOD'S EDINBURGH MAGAZINE (TORY).
The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we press them upon the consideration of the reading public.
The receipt of ADVANCE SHEETS from the British publishers gives additonal value to these Reprints, inasmuch as the latest news can now be placed in the hands of subscribers about as soon as the original editions.

THE NEW YORK TRIBUNE
Large Premiums!
TO OUR FRIENDS.
Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country selling it for little more than the cost of the white paper; we have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.
We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see it to exert themselves to obtain subscriptions (whether for originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ending with next July, shall send us subscriptions and payments for THE TRIBUNE, as follows:
Weekly Tribune.
For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of... $1 00
For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... 1 00
For $20, Twenty-one Copies Weekly Tribune, *to one address*, Pens or Pens and Cases to value of... 3 00
For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... 8 00
For $50, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... 10 00

For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... 25 00
$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.
Semi-Weekly Tribune.
For $11 25, Five Copies Semi-Weekly Tribune, *to one address*, or Pens and Cases to value of... $2 00
For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... 4 00
For $40, Twenty Cup. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... 10 00

For $100, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of... 30 00
$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.
The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the name and quality of the Pens or Pens and Cases preferred.
Specimen Copies of the Tribune sent when requested.
When Drafts can be obtained, it is much safer than to remit bank bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

IMMORTELLES.

—Oh, ye who tread
The pathless desert into hands afar,
Wayfarers in the wilderness by night—
Ye who, with failing hearts, when day is o'er,
Kneel to your prayer, companionless and lone,
And sink to rest beath the unanswering stars—
Lo! be ye comforted! When loneliest left
By the forgetting and far distant world—
When homesickness lies the head upon the stone—
The ladder of the angels nearest stands!
Sleep ye in peace! and, when the morning comes,
Raise up the blessed stone where ye have slept,
And hallow it with consecrating prayer—
That stone, when it is found, to tell the place
Where angels have once ministered to these.
THE SPOT TO BUILD A BETHEL UNTO GOD!
—*Willis.*

☞ Col. Jeff. C. Davis, now Acting Brigadier General in Missouri, has been ordered to Washington to resume his former position, that of captain in the regular army.

☞ A man who fell overboard from the pier at Rockport, on Christmas night, clung to a boat for two hours, and had both hands frozen stiff, before he was rescued.

COTTON FROM INDIA.—The Naumkeag mill, in Salem, is about importing a load of cotton from India, to supply the place of American cotton sold.

☞ The prize bark Empress, captured recently by the blockading squadron below New Orleans, arrived at New York Tuesday, with her cargo of 6500 bags of coffee.

BEESWAX.—The Russians, it is said, keep fish perfectly sweet for a long time in the hottest weather, by dipping them in hot beeswax, which forms an air tight covering.

☞ Champion Vaughan will be on Gen. Lane's staff, with the rank of Colonel. He is a South Carolinian, but for many years a noted anti-slavery man.

Home can never be transferred, never repeated in the experience of an individual. The place consecrated by parental love, by the innocence and sports of childhood, is the only home of the human heart.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that by experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

☞ Gen. McClellan, says the Washington correspondent of the Commercial Advertiser, has in reality been a very sick man, but is now much better. He was treated on Homeopathic principles.

☞ The physicians of Mrs. Greenhow, the secesh female who is imprisoned in her own house at Washington, pronounce her a monomaniac, and say that if confined much longer she will become hopelessly crazy.

☞ The Troy University has suspended for a vacation of at least four months, the question of reopening to be decided by the state of the funds at the end of that time.

☞ The Government has taken measures to obtain cotton seed from Port Royal for planting in Illinois and other Western States.

☞ The rumors relative to anticipated trouble with England about the stone blockade, are regarded at Washington as entirely unfounded.

☞ Gen. Magruder, it is believed, has been relieved of the command at Yorktown, and Gen. Wise is expected to assume command there or at Frederick.

☞ A Navajo squaw has sent a blanket that she had been employed in making for the last five months, to Mrs. Lincoln, as a New Year's gift.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to anyother Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquor, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JANUARY 7, 1862.

For the Chronicle.

HOARDING SMALL CHANGE.

One day last week, it was stated that the Banks had determined to suspend specie payments. Every one knows that the banks keep on hand a small quota of specie, lying idle in their vaults, and upon which they lose interest, for the nominal purpose of redeeming their bank-notes in circulation. But, as specie is seldom called for, a small stock of such unprofitable fund is kept on hand by our moneyed institutions, who dislike to lose the profit that arises from the same amount of money in other assets.—The banks redeem their bills in Boston as usual, and the balance owed by any bank is payable in specie, so that the banks redeem their circulation, or debts to each other, with foreign bills, as far as they have them on hand, and pay the balance they may owe in coin. A bank note therefore will pay a debt as well as a gold dollar, and no one fears to take such notes, the great fear being that in the general scramble, each one will not get as many as his neighbor. John Bull is a large owner in American securities. Though enjoying the reputation of a sharp financier, he is proverbially a credulous speculator, and buys stocks and bonds in the United States that our people of sound notions in money matters are chary of purchasing.

He invests largely in the Illinois Central R. R. in expectation of a large and profitable land speculation, and pays up assessments as freely as in the times of the English railway mania.

But recently, through fear of a fight between himself and Jonathan, John sends over to his New York broker many of his United States investments for sale, with orders to remit the proceeds to England, and as exchange is selling at a high rate, doubtless coin would be shipped, and at a time when Uncle Sam wants to keep it at home. This accounts in part for the suspension of specie payments, not because specie is scarce and cannot be had, but because, being very plenty and even a drug, it is desirable to keep it at home for the purpose of regulating our money transactions and keeping the balance wheel of our financial machinery in good working order.

In twenty-four hours after this nominal suspension of specie payments was announced, (the telegraph making it a simultaneous movement throughout the country,) certain old women, and some men who ought to have been born old women, conceived the idea that specie would be at a premium and commenced the process of hoarding silver, in the hope that a few cents could be gained by collecting small change before its scarcity was noticed, and then selling it to their neighbors at a premium. So suddenly, and yet so generally did this movement commence, that merchants in Market street found their specie disappearing at once.—Every one tendered a bill for the smallest purchase, and a general canvassing of the street to exchange bills for specie was the consequence. Most of this silver change is kept out of circulation by persons who regard it as safer than any thing else. The hoarding of money in small coin has always been a favorite mania with ignorant people, though as a nation, the Chinese are said to excel all others in this peculiarity.

But there is no profit in this operation. If merchants have to pay a premium for silver change, the cost must be added to the price of their commodities, and the consumer will pay the premium, instead of the merchant, while the greater amount now withdrawn from circulation, instead of benefitting the public by its convenient presence, lies idle under lock in the toe of some grandmother's stocking, alike depriving the public of its utility and the holder of the interest upon the amount hoarded, in the aggregate an item of no small consequence.—The small shopkeeper or the sharp market woman who compels our merchants to pay a commission to them for their aid in exhausting the supply of silver in circulation, should not be encouraged in their pirating upon public property, and if compelled to buy specie for change, other sources of supply should be sought by our dealers.

☞ Exaggerated rumors having gone abroad respecting the state of the health of Gen. McClellan, who has been confined to his quarters for a week past by a severe cold, brought on by much exposure, night and day, in the field, the National Intelligencer states, on the authority of Dr. Verdi, his physician, that the General is now free from fever and rapidly convalescing, and hopes in a few days to be again in the saddle.

An "Expert."—A private of a regiment in Kentucky was accidentally shot in the hand. The surgeon tugged away at the bone, instead of the bullet, for one hour, and finally gave it up, as he said it was too tight in the bone. The soldier came home on a furlough, when it was taken out without difficulty.

THE REBELLION.

An expedition to Texas is being fitted out at Fort Leavenworth, to be under the charge of Maj. Gen. Hunter, with Gens. Lane and Denver as subordinates.

Six thousand rebels attacked the 5th Conn. regt, near Hancock, Va., Saturday. They were protecting the railroad. After a slight skirmish, our men retired to await reinforcements, and the rebels destroyed the railroad and the telegraph lines.

A dispatch from Cairo says 600 sub-marine batteries have been planted between Columbus and Memphis. The crews of the gunboats were mustered in on Saturday.—The whole fleet would probably anchor in the stream Monday.

The Federal fleet near New Orleans and Lake Ponchartrain have captured several rebel steamers.

The Richmond Dispatch states that a private dispatch from Mobile, says the Federal troops have nominal possession of Biloxi, and it is believed that they will occupy all the towns on the coast in that region.—They captured two cannon at Biloxi. It is stated that from 5000 to 7000 Federal troops landed there, and it is rumored that they express a determination to push forward to Jackson.

Reports from the Indian country show that the war has fairly begun between the loyal Indians and Texans and half-breeds. In a fight in the Cherokee country, it is reported that Cooper, a Texan General, and McIntosh, leader of the rebel half-breeds, were killed. The loss of the loyal Indians was 14.

An expedition, sent out by Gen. Milroy, attacked the rebels at Huntersville, Va., on Saturday morning. After a short skirmish, the rebels retreated, with 8 killed and wounded. Our men lost none. $80,000 worth of army stores were captured and destroyed.

Gen. Jackson with a large force of rebels, one 24-pounder and two 12-pounders appeared opposite Hancock, Va., and threatenee to shell our forces out if they did not retire. Gen. Lander gave them a fitting response, when they commenced shelling, and continued up to Saturday night, doing little injury to the town and none to our troops. Reinforcements have gone to Gen. Lander's assistance.

The Vanderbuilt, from Port Royal, with 3697 bales of Sea Island cotton, arrived at New York, Monday. Gen. Stevens's brigade advanced to the main land on the 1st, and took possession of the rebel batteries after a short resistance, being assisted by the gunboats in shelling them. He followed up to within six miles of the Charleston R. R., when, a flag of truce having been received, he allowed the rebels an hour in which to bury their dead; after which they fell back on their fortifications, said to be very extensive and defended by 11,000 troops under Gen. Pope. Their loss is unknown. Our force was 4500 and had 8 wounded.—Maj. Watson of the Michigan 8th regiment, mortally. Gen. Stevens now holds possession of the main land and awaits reinforcements from the North to proceed.

Gov. Andrew on Divorces.—Gov. Andrew of Massachusetts, in his late Address to the Legislature, says:—

I desire most respectfully to renew a recommendation, for such a modification of our laws touching marriage and divorce as shall lodge in some tribunal, the power to mitigate the penalty of *celibacy* as a consequence of divorce, whatever may have been the cause of the dissolution of the marriage.—So long as human instincts and passions continue, I believe that this infliction as a consequence of civil proceedings for divorce, without leaving a hope for its ultimate remission either by the same tribunal by which it was awarded or by some other, is detrimental to the good morals of the community, and discreditable to our knowledge of human nature.

The Governor is right:—and the law of Massachusetts, to which he refers, is one of the most useless, foolish, and absurd. In New Hampshire we have nothing like it:—a divorce here, is a divorce of both parties, —and does not, as in Massachusetts, unmarry one party,—and leave the other married—to a phantom!

☞ About one year ago a little child of Mr. Chas. Towne of Greenwich, Mass., while creeping on the floor, ran a sharp needle into its foot, a piece of which was broken off, and the remainder staid in the child's flesh, causing temporary suffering.—A few days ago the missing needle point came out from a small sore near the child's elbow, having traversed the whole distance from the foot to the arm in less than a year.

☞ The gallant Gen. James Shields, who arrived Saturday morning from California, has accepted the appointment of Brigadier General of the Irish Brigade.—He is on his way to Washington, under orders, to take command.

The speeches and votes upon the organization of the Mass. Legislature were remarkably harmonious, in favor of ignoring all party distinctions and prejudices, and equal unanimity has been exhibited in the appointments at the State House since—not a Democrat having been selected.—*Post.*

NEW HAMPSHIRE ITEMS.

—— Gen. Butler and part of his staff were at Manchester Saturday morning to review the Seventh and Eighth Regiments. Their arrival was announced by the booming of cannon.

—— Mr. Hiram Morrison of Nottingham was found frozen to death near his house on the morning of t e 25th ult. He was a man of intemperate habits, living alone.

—— Small pox has made its appearance in the north part of Laconia, among the inmates of five houses. The selectmen are looking after the matter.

—— Lieut. Benj. T. Hutchins of Concord, is acting Captain of Co. E. 6th cavalry, U. S. A.

—— The Manchester American says it "has been repeatedly asked by what authority and in accordance with what law or precedent certain men immured in jail in that county for crimes, have been released from custody and allowed to go boasting at large. Two men confined for obstructing the public travel, wilfully and persistently; and two more of notorious character, for assault and battery or for pugilism of some kind, have been discharged from Amherst jail recently, in payment of costs, on their own recognizance."

—— The Amoskeag company of Manchester have suspended operations for a time in mill No. Three. When the mill is full about 700 operatives are employed, but during the past season less than half the number have had employment. In some of the other departments, in the Stark Mills and in the Bag and Duck Mills, there are limited and temporary suspensions.—Probably about 500 operatives are for the time deprived of labor.

—— Four ladies in Fisherville—one married and three unmarried—adopted the true Bloomer costume two years ago, and still wear it, to the exclusion of all other styles.

—— Fire was discovered in the Union Block, Dover, early on Monday morning, and the following offices and stores were burned or badly injured:—Daniel H. Wendell, harness and trunk store, in which the fire originated (he was fulfilling a contract for harnesses for the Government;) Levi Brown, shoe store; P. A. Stackpole, dentist; A. Frazier, tailor; Earle & Plummer, shoe store; Moses Lord, oyster saloon; M. Byrne, milliner; D. Lothrop & Co., apothecaries; Geo. D. Woodman, grocer; Drs. Thompson and Lindsey; F. Freeman, oyster saloon; and E. T. Bingham, daguerreotype rooms. It was the most extensive fire that has occurred in Dover for several years.

Runaway Extraordinary. — As a drove of cattle were passing up Middle st., Portland, on Saturday afternoon, they overtook a sled, to which was attached a yoke of oxen. Just then an ox in the drove became frightened, made a leap and fell across the tongue, between the cattle and sled. The yoke of cattle, not being able to see the cause of the strange commotion at their heels, in their turn became frightened and with a snort of terror and heads and tails erect, dashed up the street at a furious speed, (ox speed.) On they fled, dragging the poor ox and closely pursued by the whole drove, and such a bellowing of cattle, screaming of men and howling of dogs and small boys is seldom heard. But the unlucky ox was heavy and dragged exceedingly hard, so after a short but very exciting race, the yoke of cattle came to a halt; the drove were stopped, and the poor ox, with considerable difficulty, relieved from his painful position.

☞ The Navy Department has forwarded to the several Navy Yards copies of the specifications for the hull, iron plating and steam machinery for the iron clad steam batteries about to be built. Upon application to the commandants of the yards, parties who can prepare a portion or the whole can see the specifications, and will be able to make an offer to the Secretary of the Navy stating the least time and money for which they can execute the work.

☞ A powder mill at New Orleans exploded on the 28th ult. It is supposed to have been the work of an incendiary.—The damage was not great.

"Mr. Smith, have you got a match?"—"Yes," replied Smith, "a match for the devil; there she is mixing up dough." Smith pointed to his wife and then slid from the front door. The last we saw of Smith, he was "kiteing" it down the road, hotly pursued by a red-headed lady with a cistern pole.

☞ Mr. Hiram Fuller's lecture in behalf of Secession, at St. James' Hall, London, on the 19th ult., was frequently hissed by portions of the listeners.

☞ In the Michigan Legislature, on Saturday, Jacob M. Howard was chosen United States Senator for the unexpired term of the late Senator Bingham, ending March 4, 1865.

☞ An order was issued on Saturday for all the regiments now in New England to report to Gen. Butler at Boston, who will immediately order their inspection.

PAPA, WHAT IS A NEWSPAPER?

Organs that gentlemen play, my boy,
To answer the taste of the day, my boy,
Whatever it be,
They hit on the key,
And pipe in full concert away, my boy.

News from all countries and climes, my boy,
Advertisements, Essays, and rhymes, my boy,
Mixed up with all sorts
Of (fib) ing reports,
And published at regular times, my boy.

Articles able and wise, my boy,
At least in the editor's eyes, my boy,
And logic so grand
That few understand
To what in the world it applies, my boy.

Statistics, reflections, reviews, my boy,
Little scraps to instruct and amuse, my boy,
And lengthy debate
Upon matters of state,
For wise-headed folk to peruse, my boy.

The funds as they were and they are, my boy,
The quibbles and quirks of the bar, my boy,
And every week
A clever critique
On some rising theatrical star, my boy.

The age of Jupiter's moons, my boy,
The stealing of somebody's spoons, my boy,
The state of the crops,
The style of the tops,
And the wit of the public buffoons, my boy.

List of all physical ills, my boy,
Banished by somebody's pills, my boy,
Till you ask with surprise
Why any one dies,
Or what's the disorder that kills, my boy.

Who has got married, to whom, my boy,
Who were cut off in their bloom, my boy;
Who has had birth
On this sorrow-stained earth,
And who toilers fast to the tomb, my boy.

The price of cattle and grain, my boy,
Directions to dig and to drain, my boy,
But I would take me too long,
To tell you in song,
A quarter of all they contain, my boy.

A bad tempered judge was annoyed by an old gentleman who had a very bad chronic cough, and after repeatedly desiring the crier to keep the court quiet, at length angrily told the offending gentleman that he would fine him one hundred pounds if he did not cease coughing, when he was met with the reply: "I'll give your lordship two hundred pounds if you will stop it for me."

Women often lose the men they love, and who love them. By mere wantonness or coquetry, they reject, and then repent; they should be careful not to take this step too hastily, for a proud, high-minded, gifted man will seldom ask a woman twice.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. All necessity or a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which Patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc. etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the advantages of a practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—a case of medicine we mean, sold by J. H. American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Low state of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my24aw3m

Local.

FATAL EXPLOSION —On Monday morning, a few minutes before 7 o'clock, and before Roll Call on the Navy Yard, a steam boiler explosion occurred there, causing the death of Martin Bridges, the engineer and fireman in charge of the engine. The boiler was in a brick apartment, 20 feet square, connected with the engine of the Gun Carriage shop, at the eastern end of the Ordnance building.

The engine had not been started: and it is conjectured by an experienced engineer, that Mr. Bridges, hastening his fire to begin work, and finding that the the steam gauge, or safety valve, or both, did not do their work properly, had got upon the boiler to see what the matter was, when it exploded, carried him through the roof, and threw his bruised and lifeless body about 30 rods to the eastward, letting it fall into the water. Part of the boiler was thrown half that distance in the same direction.

The boiler-house or room, of brick, and its large chimney were entirely demolished. The eastern end of the Gun Carriage shop is consiperably shattered; and the steam engine somewhat damaged. It is supposed that $10,000 or $15,000 will make temporary repairs of building and machinery, so far that the work in that shop can go on as usual, with a delay of about two weeks:—and the work there now is so forward that no great interruption will occur to armaments on account of this accident.

Mr. Bridges was a man about 40 years of age, and is represented by those who knew him, as a worthy man and a good engineer, having had experience on railroads and in machine shops before his engagement at the Navy Yard. He belonged in Concord, N. H., and leaves a widow, whom he married on Christmas day. He was alone in the building when the explosion occurred, and little or nothing can be known positively, as to the cause of it.

☞ The Mayor and City Council of Portsmouth are to be inaugurated, at the Court House, this (Tuesday) morning, at 10 o'clock. We give the roll of the chief City Officers, on our first page.

For the Chronicle.

CITY ORGANIZATION.—*Messrs. Editors:* This Tuesday forenoon, at 10 o'clock, the new City Government will be inaugurated at the Court House. One of the principal features will be the induction of the Mayor into his office;—but another, of really the most importance to the city, will be the election of City Clerk.

For thirty years the present incumbent, Mr. Bennett, has held the office under town and city governments, and his experience has every year increased the value of his services,—so essential to the vital interests of the city, that several of our Mayors would have declined the office but for the prospect of Mr. Bennett's aid. We hope that so long as his present physical abilities are retained, our city may have the benefit of his valuable services.

The argument sometimes used, that he has held the office long enough, and that others should now enjoy its emoluments, is of little account. Mr. B. never having taken an active part in politics, enjoys the confidence of all parties. If any new candidate is elected in his place, he will go in as a *partisan*—and if the opposing party has control next year, he will as directly *go out* as a politician, before he has half learned his duties, and some opposing partisan will be rewarded with the office. In the mean time, while the office is made a political foot-ball, the interests of the city are suffering to an extent which can hardly be estimated. Changes of Mayor can be made without any impediment in the wheels of government, but not so with the office of City Clerk. These are not the times to enter upon an experience of the kind.

AN OLD ALDERMAN.

☞ The streets, sidewalks and roads, everywhere, are slippery enough—and the "sinners" who can "stand" secure on such footing, must be well shod.

We have seen some lofty tumbling, but hear of few accidents. We regret, however, to learn that the venerable Hon. Abner Greenleaf fell on the ice in Pleasant street, Saturday evening, striking his head, and bruising him so severely that he was carried home senseless. But he soon rallied, and we are glad to hear is doing well.

☞ We learn that the South School Committee have appointed Mr. Tobias D. Foss teacher of the Haven School, and he commenced his duties there on Monday morning. Mr. Foss has for some time been teacher at the Woodbury School, Gravelly Ridge.

☞ Mr. John A. Holbrook of this city has been appointed Acting Sailmaker in the Navy, and ordered to the U. S. steam sloop-of-war Hartford, at Philadelphia Navy Yard.

☞ Rev. Mr. Le Bosquet, of Newington, stated in his New Year's sermon, that there were 9 deaths in that town last year, against 4 the year previous. The population is about 472.

☞ We hear many people complaining about their gas bills the last quarter. Now gas is an article people always *will* complain about—but it is a little queer that all the bills should be so much larger than for the corresponding term a year ago. Has it been darker? have all the people sat up later? was there difference in the quality of the gas, or what? Or is all the fault-finding "gas"? At any rate, kerosene is in demand—and the price of kerosene has just gone up, too. We guess daylight is the best light—but we always used up all of that, and then come short of our demands

CARD.—At a regular meeting of the Members of Laconia Engine Co., No. 2, held on Monday evening last, the following resolution was passed.

Resolved that the thanks of this Company be tendered to Mr. James H. Head for the handsome engraving of Beethoven presented to us on, the 15th of December,—hoping that we may be able to reciprocate at some future day. Per order,

WM. H. MAXWELL, Clerk.

☞ Having made arrangements for furnishing good custom-made BOOTS and SHOES for the people; also for all kinds of repairing in the same line, an invitation is extended to all who are in need of something good to wear to call at No. 6 MARKET SQUARE. D. R. AMBROSE.

NOTICE TO SUBSCRIBERS.—The bulk of our readers desire their papers early: and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or spoiled by storms, unless they have a drop-box out for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place without,—and always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and for information of any instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

THE PATENT
FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of hair washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunks or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months: and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

THE LONDON QUARTERLY (CONSERVATIVE)
2.
THE EDINBURGH REVIEW (WHIG).
3.
THE NORTH BRITISH REVIEW (Free Church.
4.
THE WESTMINSTER REVIEW (LIBERAL).
5.
BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and lying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

THE NEW YORK TRIBUNE
Large Premiums!
TO OUR FRIENDS.
Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of....$1 00

For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 1 00

For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 3 00

For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 8 00

For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..25 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For $11 25, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of.....$2 00

For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 4 00

For $40, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00

For $60, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....17 00

For $100, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of...30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

IMMORTELLES.

THOUGHTS OF HEAVEN.

Thoughts of heaven! They come when low
The summer even breeze doth gently blow;
When the mighty sea shines clear, unstirred
By the wavering ripples of the breeze;
They come in the rush of the surging storm,
When the blackening waves rear their giant form;
When o'er the dark rocks curl the breakers white,
And the terrible lightnings rend the night;
When the noble ship hath vainly striven
With the tempest's might, come thoughts of Heaven.

They come as we gaze on the midnight sky,
When the star-gemmed vault looks dark and high,
And the soul, in the wings of thought sublime,
Soars from the dim world, and th'bounds of time,
Till the mental eye becomes unsealed,
And the mystery of being in light revealed.
They rise in the Gothic chapel dim,
When slowly comes forth the holy hymn,
And the organ's rich tones swell full and high,
Till the roof peals back the melody.

Thoughts of heaven! from life joy beguiled,
Then come to the bright-eyed, happy child;
To them of age in his dim decay,
Bringing hope that his youth has borne away;
To the wee sniff nestled in its dark dwelling,
As flowers spring up in the wilderness;
And in silent slumbers of the dead,
When the mourner goes his noiseless tread;
For as the day-beams freely fall,
Pure thoughts of heaven are sent to all.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and worn, with aching limbs and throbbing nerves, and your system so full of disease that you can not rally? These symptoms are the forerunners of some serious illness. Now is the time to overpower your foe, and should the physician be called in, he will depend largely on the Cathartic Pills of Dr. J. C. Ayer, of this city. Take Ayer's Pills, and clear the channels of the system—purify the blood, and let the Sun move on unobstructed in his daily course. They stimulate the torpid liver and other digestive organs of the body into vigorous action, and thus overcome the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. Thus, if not relieved, it must react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true in this case is true in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them, and the same healthful results follow. Cleansing the blood from all foreign and morbid matter, purifying

FLEECED AT FARO.—Once in a while, some merchant from the Interior, some wise man from the East, or some splendid youth at home, finds his way into a faro room, and chances his money on that desperate game. Of course he is fleeced. He calls himself a fool, in which operation we entirely coincide. He weeps for his lost money, and bestows red-hot malediction upon the gamblers, and he asks our sympathy for his rashness. We withhold sympathy in most of these cases. No man plays a game of chance without earnestly intending to win. The booby who roars in anguish because he has lost his last dollar or two on the sweat cloth, would have pocketed the stakes with a thrill of sordid joy had he won. A sincere wish to divest the red-nosed gentleman with the honeyed talk and big watch seal, induced him to stake his money on the cut-throat game, and little would the booby bother himself about the fairness of the thing if he could win instead of the red nosed man.

Persons who know enough to spell their own names, should by this time be aware that a man unused to gambling stands about as fair a chance in a gambling hell as a fat sheep would in the lair of a hungry tiger. "Gentlemen," said a veteran gambler to a party of infatuated young men, who having lost heavily at faro one night, were now betting in the wild hope of redeeming their losses, "gentlemen, if you expect to dive out these gas lights, you will be disappointed." And it is amazing, when the tricks and wiles of gamblers have so often been exposed, that a person can be found of sufficient string-bean greenness to allow his fleece to slide away before the keen and never missing shears of the cool and practical gamester.—*Porter's Spirit.*

Some men do not believe in the Bible, but they do believe in virtuous formulas. As if such formulas were not offshoots of the Bible! They do not believe in religion; but they do believe in equity and justice and purity and truth. As if those things were of any age.—They are under the influence of religion, and that in them which is noble and true is the product of religion, and may be traced back to divine influence. So that the persons prevented as exceptions to the truth that men can not live without the power of God in the soul, prove this truth, rather than disproves it.

A London watchmaker has hired the back page of the Catalogue of the great London Exhibition of 1862, and paid 1000 guineas for it; and he is believed to have made so good a bargain, that he has already been offered 1000 guineas bonus for underlet. At this rate the second purchaser would pay $10,000 for the advertisement, and be at once established as the British Bonner.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use
FEMALES, WEEKLY PERSONS, INVALIDS.
SAMBUCUS FREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints.
Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sedorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines to use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JANUARY 8, 1862.

BATTLE OF NEW ORLEANS.

EIGHTH OF JANUARY.

This is the anniversary of the great Battle of New Orleans, lost by the British and gained by the United States Army under Gen. Andrew Jackson, Jan. 8, 1815.

On this occasion we copy all the material part of Gen. Jackson's brief official account of it.

From Gen. JACKSON to the Secretary of War.

H. Q. 7th Military District,
Camp four miles below New Orleans,
Jan. 19th, 1815.

Early on the morning of the 8th, the enemy, having been actively employed the two preceding days in making preparations for a storm, advanced in two strong columns on my right and left. They were received, however, with firmness which it seems they little expected, and which defeated all their hopes. My men, undisturbed by their approach, which indeed they had long anxiously wished for, opened upon them a fire so deliberate and certain, as to render their scaling ladders and fascines, as well as their more direct implements of warfare, perfectly useless. For upwards of an hour it was continued with a briskness of which there have been but few instances, perhaps in any country. In justice to the enemy it must be said, they withstood as long as could have been expected from the most determined bravery. At length, however, when all prospect of success became hopeless, they fled in confusion from the field—leaving it covered with their dead and wounded. Their loss was immense. I had at first computed it at 1500; but it is since ascertained to have been much greater.—On information, which is believed to be correct, Col. Hayne, Inspector General, reports it to be in the total 2600. His report I enclose you. My loss was inconsiderable; being only* seven killed and six wounded.

Such a disproportion in loss, when we consider the number and kind of troops engaged, must, I know, excite astonishment, and may not every where be fully credited; yet I am perfectly satisfied that the account is not exaggerated on the one part, nor underrated on the other.

The enemy having hastily quitted a post which they had possession of, on the other side of the river, and we having immediately returned to it; both armies at present occupy their former positions. Whether, after the severe loss he has sustained, he is preparing to return to his shipping, or to make still mightier efforts to attain his first object, I do not pretend to determine. It becomes me to act as though the latter were his intention. One thing, however, seems certain, that if he still calculates on effecting what he has hitherto been unable to accomplish, he must expect considerable reinforcements; as the force with which he landed must undoubtedly be diminished by at least 3000. Besides the loss which he sustained on the night of the 23d ult., which is estimated at 400, he cannot have suffered less between that period and the morning of the 8th inst., than 300; having, within that time been repulsed in two general attempts to drive us from our position, and there having been continual cannonading and skirmishing during the whole of it. Yet he is still able to show a very formidable force.

There is little doubt but the commanding General, Sir EDWARD PAKENHAM was killed in the action of the 8th, and that Maj. Gens. KEAN and GIBBS were badly wounded. I have the honor to be &c.

ANDREW JACKSON, *Maj. Gen. Com.*

P. S. A correct list of the killed and wounded will be forwarded you by the Adjutant General.

Sir—I have the honor to make the following report of the killed, wounded and prisoners taken at the battle of Mac Paradie's plantation, on the left bank of the Mississippi, on the morning of the 8th Jan., 1815, and 5 miles below the city of New Orleans.

Killed—700. Wounded—1400.

Prisoners taken—1 Major, 4 Captains, 11 Lieutenants, 1 Ensign, 483 Camp Officers and privates, making a grand total of 2600.

I have the honor to be, sir, respectfully your obedient servant,

B. HAYNE, Inspector Gen.

Maj. Gen. ANDREW JACKSON.

*This was in the action on the line—afterwards a skirmishing was kept up in which a few more of our men were lost.

CONGRESS.—In the Senate, Monday, the credentials of Benj. Stark, appointed Senator from Oregon, were presented, when Mr. Fessenden of Me. moved that they be referred to the Committee on Judiciary.—He had papers well attested from Portland, Oregon, stating that Mr. Stark was an open, avowed secessionist. The Judiciary Committee reported that Mr. Stanton is entitled to the seat now occupied by Mr. Lane of Kansas. A resolution was adopted in favor of exchanging the privateers captured on board the Jeff. Davis; also a resolution authorizing the withdrawal of tea and coffee from warehouses under the former rate of duty.

The House was engaged in a discussion of the battle of Ball's Bluff.

☞ The Santa Fe mail with dates to the 22d ult., brings no news of importance.—Fort Naise is garrisoned by 3 companies of Federals. The small pox is raging in the whole territory, and is extremely fatal to children. Specie is very scarce in the territory. The weather is cold on the plains. There are a large number of Indians on the roads, but they are very friendly.

☞ It is said that the introduction of the homeopathic practice of medicine has raised somewhat of a commotion among many of the regular surgeons of the army.

THE REBELLION.

A deserter from Columbus on Sunday, who arrived at Cairo, Ill., Jan. 6, reports that Gen. Pillow resigned on Friday. Fifteen thousand troops left Columbus last week for Bowling Green. The officers of the rebel Government were impressing all classes of men. Over one hundred cannon were planted on Columbus bluffs, and the river is blockaded by a chain stretched across, supported by barges, and torpedoes are planted at intervals. Gold and silver have entirely disappeared from circulation. The only currency is that of the State Bank of South Carolina, Tennessee notes, and Confederate scrip.

The destination of Gen. Burnside's fleet is changed, it being understood from the movements of the rebels, that they had obtained information of its proposed destination. As the story goes it was talked of in a private family, and by the daughter communicated to her lover, who is a rebel.

Late Southern papers contain no news except a a dispatch alleging that the Federals have been repulsed in South Carolina, and forced to take refuge under cover of their gunboats on North Edisto islands.

Jackson's rebel forces retired from Hancock, Va., Sunday night, leaving only a battery and infantry guard in sight. The result of their shelling was unimportant. One rebel officer was seen to fall from his horse, and it is believed that he was killed. None are reported killed or wounded on our side. A portion of Gen. Banks' division had advanced, and would probably reach Hancock Tuesday noon, by a forced march, though the snow was four inches deep. Gen. Lander is assigned to the command of Gen. Kelley's division, and Gen. Williams takes command of Hancock. It is not known where Jackson went, but it is supposed he intends to attack Gen. Kelley's command.

A later dispatch, however, says, "some matter of importance in the shape of correspondence has been discovered, but in connection with parties entirely different from the officer named in the rumors now current. All parties implicated are now under arrest. The city is full of Southern sympathizers, or spies, in high social positions. The time has arrived when they must be vigorously dealt with."

NEW HAMPSHIRE ITEMS.

—— The bridge at Concord, which was blown down in the recent gale, was erected in 1853, at a cost of about $6,500, of which sum $3,500 was paid for constructing all above the piers. It was not far from three hundred feet long, and is good serviceable condition.

—— The new steam fire-engine, to be built by the Amoskeag Manufacturing Company, for Concord, will be capable of throwing four streams over the roof of any building in the city. It will be completed in about two months, and is to cost $3,000.

—— The members of Capt. Durgin's company, Seventh Regiment, from Fisherville, have signed a paper, whereby $600 of their wages will be sent monthly to N. B. Butler, Esq., of Fisherville, directly from the General Government. Soldiers who are married have authorized Mr. Butler to pay their proportion to their families, while single men will have their deposited, in the Savings Bank. Several of the men give up eleven of the thirteen dollars monthly pay.

—— There are many cases of sickness in the Camp of the 7th Regiment at Manchester. The greatest number of patients are down with the measles. Two have already died, and several others are dangerously sick."

—— The Manchester American says on Saturday evening, after the water had been drawn off, the body of John Straw, was found in the lower end of the upper canal, Manchester, frozen stiff and encased in ice.—The appearance of the body indicated that it had been in the water for some time.—Mr. Straw was last seen on Friday, Dec. 26th, and it is reasonably conjectured by his friends who know his habits, that he fell into the canal, as a bottle of rum was found in his pocket. He was a married man, but has not lived with his wife for several years. He has a son in the army and a sister who resides in Candia. His age was 44. For several years he has worked at the stone-cutting business.

—— The store of Mr. James French in Moultonboro', was broken into last Friday night, and robbed of postage stamps and small change to the amount of about one hundred dollars.

On Saturday last no less than seven serious accidents occurred at Charlestown Navy Yard,—one man being instantly killed by the falling of a derick, and three falling through the hatches of the ship Vermont, breaking their limbs in various places,—one of whom has since died; the other three will not prove fatal.

☞ John Holliday, a master's mate on board the receiving ship Ohio, at the Charlestown Navy Yard, died suddenly Monday, from the bursting of a blood vessel during a violent coughing fit.

MAYOR SIMES' ADDRESS.

Gentlemen of the City Council,—

Having assumed the position assigned to me by the suffrages of my fellow-citizens, I should be recreant to the deep sense of gratitude I feel were I to refrain from expressing my sincere acknowledgements for the honor they have conferred, and the confidence they have evinced, in re-electing me to become their chief executive officer for the ensuing year. Strengthened and encouraged by this manifestation of their approval, and animated by an earnest desire for the promotion of their best interests, I shall enter upon the discharge of my duties with renewed energy and zeal.

The commencement of municipal year under circumstances of somewhat peculiar character; the war into which our beloved country has been plunged by the unprincipled conspirators who in their fanticism have outraged every principle of constitutional liberty and justice, so scared to all true Americans—the unusual pressure made upon our city expenses hitherto unknown and unforeseen, rendering it more incumbent upon us than ever, to exercise the most discreet foresight, the strictest vigilance, and the truest economy, in the administration of public affairs.

With these few suggestions relative to the proper fulfillment of the trust confided to our keeping, I will now, in accordance with established usage, submit to you a brief statement of the present condition of the several departments, together with such recommendations as in my judgment are calculated to increase their efficiency; referring for details to the reports of their respective heads.

FINANCE.

An exact statement of our finances cannot be obtained at this time but will soon be prepared.

The expenditures will exhibit an excess over the appropriations, of twenty-nine hundred dollars.—This excess arises principally in the demand for the support of the poor, to be attributed to the following causes:

The crop of hay on hand as yet unsold, the large stock of wood on hand, already paid for, and the payment of four hundred dollars for wood, which properly belonged to the expenditures of the preceding year. Our city has also been subjected to many unforeseen and unavoidable expenses for which no appropriation was made. No increase of the City debt will be necessary, as the money to be obtained by the sale of hay, and the refunding by the State of a portion of the sum expended for the support of the families of volunteers, will amply redeem the deficit.

Each administration should, as far as possible, liquidate the debts of its own contraction. To effect and facilitate this I would recommend that all persons having claims against the city be directed to present them for adjustment quarterly. This would, I think, accomplish the desired result, and prove beneficial to our financial interests.

SUPPLEMENTARY FUND.

Whilst our National Government has been actively engaged in the suppression of rebellion, we as a City,—not unmindful of our obligations due to that Government, to whose protecting power we are indebted for all the civil blessings we have enjoyed in the past, and upon whose success in the present crisis we are dependent for our future welfare and prosperity.—have endeavored by every means, both public and private, to furnish such aid and assistance as was in our power.

A fund was appropriated for the benefit of the families of volunteers, the distribution of which was entrusted to a Committee from the Board of Aldermen. The expenditures up to the present date have amounted to about forty-two hundred and fifty dollars, a portion of which will be refunded by the State.

STREETS, ROADS & BRIDGES.

A liberal and judicious expenditure is always justifiable on our streets and roads, since their good condition adds much to the neatness and general appearance of our City, and prevents the liability to suits for damages. All repairs should be performed in a thorough and substantial manner. A large amount of labor has been expended on the Streets the past season, and with few exceptions, they are in very good order.

An appropriation was made for paving a portion of Islington street, but at the commencement of our present national difficulties this was rescinded and transferred to the Volunteer fund.—The lower part of this street is much out of repair, and should as soon as practicable be either paved or graded, according to Mr. Harris's plan, as the upper portion has been the past season.

Lafayette Bridge and the road adjoining, were damaged by the storm of November last. Owing to the lateness of the season they were but partially repaired, and will need further repairs the coming year, for which I would recommend a special appropriation. Two horse teams for the use of the City were purchased last Spring. Although designed principally for service on our streets, they have been employed in all the various departments, and have proved eminently satisfactory.

ALMS-HOUSE AND CITY FARM.

The Alms-House, and buildings connected with the Farm, which at the beginning of the year required extensive outlays, have been placed in a state of complete repair. An addition has been built to the barn, under which is a fine vegetable cellar; a granary made, water introduced into the house, and various other improvements conducive to the neatness, convenience and general good appearance of the institution, have been made.

The Bridewell connected with this institution was consumed by fire, in the latter part of December. Temporary accommodations have been arranged to serve the purposes of a bridewell during the winter, but in the spring it will be necessary to rebuild.

The productions of the farm have been good; but owing to the decreased value of the great staple, hay, and the failure of the apple crop, the income will not be so large as in some former years.

The management of the house under the superintendence of Mr. and Mrs. Norton, is deserving of much commendation. The number of inmates has been increased nearly one-third over the preceding year, consequent in part upon the stringent order issued by the Overseers of the Poor, of sending to the House such indigent families as have heretofore received partial assistance from the City, and acquired the remainder of their subsistence by street begging.

This system, while it may be accompanied with somewhat more expense, relieves the community, it is believed, in a measure, from a practice that was rapidly becoming a crying evil in our midst, and was educating a class of vagrant children, fit candidates for our jails and penitentiaries.

There is always a considerable expenditure, varying according to the activity or stagnation of business and industrial pursuits, for the partial support of those, who reduced by sickness or adversity, are dependent upon our aid and assistance. While there is no portion of our taxation more readily borne by our citizens than that for the relief of the suffering poor, yet there should be the greatest discretion in discerning between the truly deserving, and such as are able to earn their own livelihood, but prefer to gain it by public charity rather than honest labor.

SCHOOLS.

Our Public Schools, which ever demand our fostering care and attention, have under the charge of a corps of faithful and efficient teachers maintained the high reputation they have universally enjoyed. At a time when the public mind is on the severest tests are being applied to the principles of our free Government, we cannot too highly estimate the advantages of our educational institutions, constituting as they do, one of the most inestimable privileges bequeathed to us by our forefathers, and the foundation of our civil and religious liberty. Their immediate superintendence is entrusted to the several School Committees, who are charged with the responsible a sum adequate to their support, which I doubt not will be most cheerfully granted.

POLICE.

Our police force have, under the charge of our worthy and efficient City Marshal, performed their duties in a highly efficient manner.

The stationing of the New Hampshire 2d Regiment in this city, largely increased their duties, making an additional force necessary a portion of the time, thereby increasing the expenditures of this department.

In the selection of those who are to execute our laws, we should endeavor to make choice of men possessed of that courteous, yet firm and decisive, bearing, so important to success with those whose vocation brings them in contact with every description of crime.

In this connection, I would suggest for your consideration, whether our police force could not be advantageously reduced in number. Their present compensation is not sufficiently remunerative to command any large proportion of their time, and it is the opinion of many that a smaller number, properly paid, would preserve the public peace and quiet in a superior manner.

FIRE DEPARTMENT.

Nothing contributes more to a feeling of security from the destruction of fire, than a knowledge of the existence of a well organized and well-disciplined Fire Department. To promote and maintain such an organization, is one of our most responsible obligations. The requisitions upon this department, the past year, have been frequent, often under adverse circumstances; yet, thanks to the prompt and energetic action of our firemen, we have been exempt from any serious conflagration.

There is a great deficiency of water in the central portion of our city.—And I deem an additional reservoir, located in some suitable position, absolutely necessary.

From information which I have obtained from the Chief Engineers of several of our neighboring cities, I am confirmed in the opinion expressed by me at the organization of our last City Government, in regard to the great superiority of steam fire engines over common hand engines both in efficiency and economy. The purchase of one for the use of this city would enable us to dispense with two hand engines, rendering the department more efficient,—and would, I think, meet with the approbation of the public generally.

This is a subject well worthy of your thoughtful attention, and I would bespeak for it your early and favorable consideration.

Gentlemen,—In conclusion, I can but advert to the prompt attendance on business and the uniform courtesy and harmony which have characterized the relations of both branches of the late city government.

That these attributes, so essential to our mutual happiness and perfect deliberation will continue to reign in our councils, I doubt not.

Commencing the ensuing year with a firm determination to pursue the path of duty in a manly and consistent course, untrammelled by pledges, and actuated by the purest devotion to the public good,—may we not hope that, with the blessings of the benignant Providence, whose protecting care has ever been vouchsafed to us, our efforts will not be entirely unavailing, in promoting the welfare and prosperity of our city at home, and her honor and fair name abroad?

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors o apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Special Notices.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one. In case of medicine we mean, sold by J. H. CITY GOVERNMENT.

The Mayor and City Council of Portsmouth, elected for 1862, were inaugurated on Tuesday morning, at the Court House.

The oath of office was administered to Mayor Simes, by the City Clerk.

The Common Council elected Charles C. Whittemore President; and re-elected Geo. T. Vaughan Clerk.

After prayer by Rev. Mr. Eddy, the Boards in Convention, proceeded to elect the City Clerk. Marcellus Bufford had 17, and was elected. John Bennett had 13.

Mayor Simes' inaugural address, a brief business document, was read,—and is this day published in our columns.

☞ John Bennett, Esq., the retiring City Clerk, was chosen Town Clerk in March 1832, as the immediate successor of Daniel P. Drown. Mr. Bennett has been annually re-elected, by town and city, for a period of thirty years;—and by his knowledge of the laws, as well as of the usages and finances of the state and town, doubtless saved large sums of money to the city, and prevented much useless legislation and action. His integrity and fidelity in office have been and still remain without reproach.

It is devoutly to be wished that his successor, Mr. Bufford, may as worthily fill the place, fulfil the duties, and preserve the honors, to as good an old age and close of service.

☞ The Ladies of the Pearl Street Baptist Church are to give a social levee at Jefferson Hall, this evening. The Portsmouth Cornet Band are to be present, and will add materially to the interest of the occasion. The object is a worthy one and a pleasant time may confidently be anticipated.

☞ 1st Ass't Engineer Samuel F. Savage has been ordered to the Portsmouth Navy Yard, to superintend the adjustment of the machinery of the new gunboats now building here.

☞ Samuel Langdon, Jr., of this city, has been appointed Justice of the Peace for Rockingham County.

☞ At the entertainment recently given at the Mercantile Library Hall in Boston, for the benefit of the Ladies' Physiological Institute, Mr. James H. Head, of this city, was one of the selected club of singers, and the rendering of his songs was pronounced equal to that of any of the performers.—The entire charge of the tableaux company was also under his control. The songs which Mr. Head sang were,—"What is the Spell," from opera of Amilie; "Peace, be Still," by J. R. Ling; "The Tempest," words by J. T. Fields.

☞ Edmund March Blunt died at his residence in Sing Sing, N. Y. on Saturday night, in his 92d year. Mr. Blunt was a native of this city, having been born here June 20, 1770. He was well known as the author of various nautical works, and his "American Coast Pilot," in which not a port on the coasts of the United States is left undescribed, has made his name famous throughout the maritime world. His sailing directions have saved thousands from shipwreck. The "Pilot," commenced by him in 1796, and published in 18 successive editions, has been translated into most of the Europern languages, and continues to this day a standard authority. He took the greatest interest in the war, and up to the last moment of his existence, prayed for the success of the Union arms.

☞ By the arrival of the steamer Bohemian at Halifax, we have advices from Europe to the 27th ult.—five days later than previous accounts. The war excitement in England was subsiding, and a peaceful termination of the controversy with this country was anticipated. There appears to be much excitement among the people of Lisbon, in relation to the death of the late King, whose body was to be disinterred for examination. The rebels in China had caused great alarm by their approach to the cities of Ningpo and Hangchow. At the latter place the foreign residents were threatened with destruction. In the Liverpool cotton market, an advance of 3-4 and 1d on the week is reported.—The stock in market was 558,000 bales, of which 216,000 bales were American. In Breadstuffs and Provisions no change of importance.

☞ A destructive fire occurred in Philadelphia on Monday afternoon in the business portion of the city, which threatened at one time serious results, but through the efforts of the firemen and the power of the steam engines the flames were stayed after causing a loss of $75,000. The fire broke out in a large warehouse, occupied by G. W. Lewis, wholesale druggist. A stove being upset set fire to the floor, which was saturated with essential oils.

Mrs Timothy Bradlee, of Trumbull county, Ohio, recently gave birth to eight children—three boys and five girls; all lived. Poor Mr Bradlee has the sympathy of the community, and bears up as well as could be expected; Mrs B. bears better. —*Post.*

☞ A British steamer, supposed to be the Australasian, has been wrecked. A dispatch dated Aspee Bay, Jan. 4, via Sackville, Jan. 6, says on Monday last the shores of the bay were strewed with half barrels of butter, boxes of cheese, and a small portion of the cabin of some wrecked ship.—A portion of the keel, with a quantity of copper attached, and a portion of a wheel, came ashore. No bodies. The wrecked vessel is supposed to have struck at St. Pauls.

☞ At a meeting held in Great Salt Lake City, Jan. 6, resolutions were passed relative to the admission of Utah into the Union as a State. Delegates were elected to meet delegates from other counties on the 20th inst., to draft and adopt a Constitution and form a State Government, to be submitted to the people for their acceptance or rejection, and to memoralize Congress for the admission of Utah during the present session.

☞ The Times' Washington dispatch says it is stated very positively that a very high officer in the army, was arrested Saturday night on the charge of being the medium through which the rebels have been constantly obtaining important information relative to our military movements. Prominent persons at Washington, are understood to be involved in the same affair.

CARD.—At a regular meeting of the Members of Gov. Langdon Engine Co., No. 3, held on Monday evening last, the following resolution was passed:

Resolved that the thanks of this Company be tendered to Mr. James H. Head for the handsome engraving of Beethoven presented to us on the 15th of December.

Per order,
THOS. FAIRSERVICE, Clerk.

☞ Having made arrangements for furnishing good custom-made BOOTS and SHOES for the people; also for all kinds of repairing in the same line, an invitation is extended to all who are in need of something good to wear to call at No. 6 MARKET SQUARE. D. R. AMBROSE.

N. B.—Newspapers and Periodicals as heretofore. dec30

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

NOTICE TO SUBSCRIBERS.—The bulk of our readers desire their papers early: and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or rendered by storms, unless they have a drop-box cut for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place without,—and always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and for information of any instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

THE PATENT FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all Hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair; oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

BRITISH REVIEWS,
Great Inducements to Subscribe!
PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (CONSERVATIVE)
2. THE EDINBURGH REVIEW (WHIG).
3. THE NORTH BRITISH REVIEW (Free Church.
4. THE WESTMINSTER REVIEW (LIBERAL).
5. BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

THE NEW YORK TRIBUNE
Large Premiums!
TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, and have issued it to any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the names of scores of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see it to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wringe anything from a silk glove to a heavy blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tubs of any thickness, and can be easily detached and set aside.

No House should be without one.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disorder! Injured by its presence, they purify the blood, and let the fluids move on unobstructed in health and vigor. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. Those functions, left unrelieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effects that expel the cold, cleanse the stomach and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by these means. Numbers have cured themselves of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Professor of Surgery, Marshall of St. Louis, Mo. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little children of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples upon her face and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cutterright, New Orleans.

Your Pills are the prince of purgs. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that is ever treat with a purgative medicine.* I place great dependence on an efficacious cathartic in my daily contest with disease, and I believe your Pills are the best cathartic I use. I think your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1854.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache, my body and bowels have been cured by one of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PIERLE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as a purgative, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any other remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., Feb. 5, 1857.

DR. AYER: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease indicate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. C. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, in bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Yours, &c.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in the ministry. Regulating the secretions of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1857.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Fenwick, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Hitherto of our fraternity have found them so effectual as to leave nothing to be desired. I believe in fact for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prepagator of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Buart, Physician and Midwife, Boston.

I find one of two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion, when sluggish or partially suppressed, and very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PLANTERS' HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold seized in my limbs and brought on severe clutching neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the use of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering on the use of them, I was soon cured.

SENATE CHAMBER, Baton Rouge, La., 5 Br. 1854.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years.

VINCENT SLIDELL.

☞ Most of the Pills in market are drastic purgatives, which, although a valuable remedy in skilful hands, are dangerous in a public pill, from the frequent abuse to which that frequently follows its popularity.

☞ Our Pills, contains no mercury or mineral substance whatever.

"THE HAMMOND LINIMENT"

THE HAMMOND LINIMENT — DISEASE SURE and SPEEDY REMEDY, — THE HAMMOND LINIMENT

—FOR—

NEURALGIA, RHEUMATISM, LUMBAGO, SCIATICA, BRUISES, SORE THROAT, CHILBLAINS, HEADACHE, SPRAINS, PILES, PAIN IN BACK, SIDE, LIMBS & CHEST

The best evidence of its worth is the testimony of those who have been relieved and cured by its use.

"THE HAMMOND LINIMENT"

has been used in our families with the very best results. We therefore recommend its use to all who may be afflicted with either of the above troublesome diseases, as we have found it to by what the proprietors claim.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE, and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE, celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

And examine the PATENT

UNIVERSAL CLOTHES-WEINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to take of any thickness, and can be easily detached and set aside.

No House should be without one.

CURE YOUR COUGH!

PRESTON'S COUGH SYRUP is the best and cheapest Cough Medicine in use. Price 25 cts. Prepared by

d25 4t W. R. PRESTON, APOTHECARY.

AYER'S CATHARTIC PILLS.

Are you sick, feble, and complaining? Are you out of order, with your system disarranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the foul humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. If not relieved, heart upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opposed to the disease, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true on so apparent a trifle is true of every common complaint, is also true in many of the desperate and dangerous distempers. The same purgative effect expels them. Cleansed by similar cleansing from the derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. Those who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians to some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of S. Louis, Feb. 4, 1855.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of the worst scrofula, which had baffled all other skill, and her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purgatives. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than by say of four cures tried with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURGH, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache and my body cleansed by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse so nicely.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at last a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb, 1856.

GENT: I have used your Pills in my general practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. A. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Hines, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the best cathartic I have ever known, and I can confidently recommend them to my friends. Yours, J. V HINES.

WARSAW, Wyoming Co., N. Y., Oct. 21, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN C. BURNHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Brothers of our fraternity have found them as efficacious as I have, they should join me in proclaiming to the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe our diseases to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Ewart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretion which wholly or partially suppressed, and also very efficacious in clearing the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PLANTERS' HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their efforts were slow, but sure. By persevering as the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 D. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me 20 years. VINCENT SLIDELL.

Mr. Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. They do not contain a mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE, and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific. It is highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and beautifying ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Portsmouth, N. H.

FRIDAY, JANUARY 10, 1862.

LOYAL DEMOCRATS IN MAINE.

Hon. E. K. Smart, the eminent Democratic Senator in Maine, has introduced a series of resolutions into the Legislature, providing:—

1. That it is the duty of Congress to provide for the confiscation and liberation of every slave of a rebel, by such means as will not injure the rights of loyal people.

2. That Congress has the right to employ soldiers of any color or condition.

3. That Congress should grant to all such men, who may enlist in the army, the pay, clothing and subsistence of a soldier, and take steps for colonizing others who may be confiscated, so far as it may be practicable, in some place or places of the Union, where the climate is congenial to them.

4. That all vacant and unoccupied lands, held by States which have entered into an unconstitutional confederation for the purpose of making war upon the Union, should by act of Congress be immediately confiscated to the United States, to be appropriated according to the discretion of Congress, for the benefit of manumitted slave soldiers and others of African descent, who should be protected, wherever lands are set apart for them, by a system of government appropriate to their condition.

And 5, That Congressmen from Maine be requested to procure such action as may be needful in the premises.

On this the Bath Times, a loyal Democratic paper remarks:—

Mr. S., if we understand him, proposes no indiscriminate arming of irresponsible slaves, but he would use the slaves confiscated by the acts of Congress and the rules of war, to promote the loyal cause, and not allow their physical force to be wasted. He does not believe in taking our best New England blood to shovel sand for the building of earthworks at Hilton's Head or at Tybee, or any other Southern point, when confiscated slaves can do it, and would be glad to do it, for $8 per month. He does not believe that our unacclimated men should be kept in miasmatic forts, when they may be garrisoned by colored men well adapted to the climate. He would therefore discipline and drill the black men, reduce them to military rule, and, under the strict discipline of the camp, he would employ them to swell the Union column, and do Union work. And why is he not right? that's the question. We work a mule or a jackass in our army, why not a man? Still, the present is a transition state. The tide is rising, and what six months ago would have been regarded as arrant heresy is now strictly orthodox. Revolutions seldom go backwards. The tide is still rising, and Union men are fast coming to see that, to save the Union and put down rebellion, no means must be unemployed which comports with humanity. Providence may be trusted to open the way and to present the issues, and it is our business to accept them. The logic of events is doing its work. We commend the following from the Augusta Age:—

The question presented is a *practical* one, to be determined by practical experiment. To what use confiscated negroes ought to be put, our knowledge of their capacity as a class is too meagre to enable us to decide. But we repeat, what we have before said, that we are in favor of putting them to that use to which they are best adapted.

We are in favor of putting down this rebellion at any and all hazards, and will justify a resort to any means necessary to that end. What the necessary means shall turn out to be, must be determined by rapidly occurring events. The policy that is wise to-day may not be wise to-morrow; and the country must be guided by the current, and abide by the logic, of events.

CONGRESS.—In the Senate, Wednesday, Mr. Hale of N. H., from the Naval Committee, reported back the bill which passed the House some time since, providing for the construction of twenty iron-clad gunboats. An amendment to the bill, authorizing the President, instead of the Secretary of the Navy, to make the contracts for the work, has been introduced by the Committee, as a censure on the Secretary, on account of certain purchases of ships in New York. This amendment was opposed by several Senators, but no question was taken. The bill remitting certain duties paid coffee, sugar, &c., bonded before the recent act, was objected to by Mr. Hale, as merely putting money in the hands of the importers.

In the House, various bills were reported, and sundry resolutions of inquiry, in relation to plans of taxation and other matters, were adopted, and the consideration of the Civil and Diplomatic appropriation bill was commenced.

☞ Nobody will come forward to take the office of Collector of the war tax in the Norfolk district, and H. T. Garnett, Chief Collector of the Confederate war tax for Virginia, in a formal advertisement, threatens to appoint some one from outside of the district to perform that duty, which, in his proclamation, he admits to be odious to the people there.

☞ The splendid brown stone fronts in New York are said to be showing signs of decay.

NEW HAMPSHIRE ITEMS.

—— Rev. J. H. Moore who has been pastor of the Universalist Society in Concord for the past seven years, resigned on Wednesday. He has now become connected with the Universalist Society in Warren, Mass.

—— Dr. Timothy Haynes, of Concord, having been appointed a Brigade Surgeon in Gen. Buel's Division, in Kentucky, left on Friday last, for the seat of war.

—— The Derry Bank has declared a semi-annual dividend of three per cent.

—— The Coos County Democrat has been suspended. So the newspapers go—the weak yield to the hard times.

—— Hon. Robert Ingalls, of Shelburne, died in that town of apoplexy, Thursday, Jan. 2. The Lancaster Republican says, "Judge Ingalls had been in usual health, and while returning from Gorham on the evening previous to his death, was struck with palsy. At the house of Col. James H. Hall, he attempted to get out of his sleigh, and fell. He was carried to his own house where he expired. Judge Ingalls has had prominent connection for many years in the affairs of our County, and was known throughout the State. He held many positions of responsibility and honor, and was esteemed as a worthy, energetic and honorable man."

—— Will Friend Clark of the Mirror please tell us how long it took him to "compile" that list of "N. H. soldiers who are now or have been prisoners"? It occupied us so long a time that we feel interested in the matter, and if he succeeded in a shorter time, we will give him the credit of it.

—— Lieut. Col. Lull, of Nashua, of the 8th regiment N. H. Volunteers, has been presented, by his friends, with a splendid horse and equipments—with which we hope he will do his full share towards lulling the excitement the country is now in.

—— The New Hampshire Sixth Regiment have received orders to proceed to Annapolis to embark with Burnside's Division.

FIRES AT THE SOUTH.—It is impossible not to be struck with the extraordinary concurrence of fires in Southern cities of late. Here is a ten-days' record:—1. Fire in Charleston—the work of an incendiary; loss, $12,000,000. 2. Montgomery "fired in six different places by slaves."—3. Nashville fired, and commissary stores destroyed to the amount of a million dollars. 4. Fire in Norfolk—the Custom house, Post office, and a number of buildings destroyed. 5. Richmond on fire twice—the last time destroying divers public buildings. 6. Destruction of a powder-mill at New Orleans—the work of an incendiary.

In addition to, and later than these, we learn through Southern papers that, on the 17th December, the greater part of Greenville, Alabama, was destroyed by fire. Also, that during the night of Sunday week Charleston "was fired in several places," as though with the intent of destroying what remains of that ruined city.

FOREIGN.—The steamship Canada, from Liverpool 29th ult., and Queenstown 29th ult., arrived at Halifax Thursday morning. Her dates are two days later than previous advices. A state of suspense prevailed in England when the Canada left, pending the arrival of the Africa with the response of the American Government. Meantime the transportation of troops to Canada continued, and as a measure of precaution a corps of trained nurses is also to be sent out. Intelligence has been received from India, that there was a prospect of a difficulty with the Sikhs, who gave the English so much trouble in Northern India a few years ago. The London Times says Count Rechberg has written a dispatch to the Austrian Minister at Washington, fully justifying the British demands in the case of the San Jacinto, and urging the American Government not to complicate their own affairs by any hesitancy in satisfying the just demands of the English Government. The Prussian Government is said to have addressed a similar dispatch to its Minister at Washington. In the Liverpool market, cotton and breadstuffs are reported at a slight decline.

☞ A party who were carousing on New Year's night at Enosburg, Vt, getting out of candles, dispatched a boy ten years old to a neighbor's, nearly a mile distant, for more, and to fortify him against the cold and the gale, half a tumbler of whisky was given him. The poor boy lost his way and perished in the snow, while the revelers, says the Burlington Press, kept on their frolic till morning, when the disappearance of the boy becoming known to the neighbors, search was made and his body found.

☞ Extract from the last speech of Stephen A. Douglas:—

"The conspiracy to break up the Union is a fact now known to all. Armies are being raised, and war levied to accomplish it. There can be but two sides to the controversy. Every man must be on the side of the United States or against it. There can be no neutrals in this war. There can be none but patriots and traitors."

Why was the bombardment of Port Royal like the telegraphic dispatches?

Ans.—Because there is a great deal of Wabash (war bosh) in it.—*Ex.*

THE REBELLION.

Brig. Gen. Sherman's dispatch from Port Royal, in relation to the recent advance by Gen. Stevens to the main land, says the simple object of this dash was to destroy the batteries which the enemy appeared to have erected on the Coosaw river to obstruct the navigation of that stream, and also to punish him for the insult in firing into the steamer Mayflower on her recent passage for the purpose of sounding the depth of the channel. The affair succeeded perfectly, and the enemy were driven out of their batteries, their batteries demolished, and the property found there brought away or destroyed, with little or no loss of life on our side. After the object of the movement was executed, Gen. Stevens, agreeably to his instructions, returned to Port Royal Island.

On the morning of the 2d inst. the ocean steamer Ella Wardley, Capt. Swasey, ran the blockade at Charleston from Nassau, N. P. She was chased and fired at by the blockading squadron without harm to her. Her passengers were all English and Scotch, except B. T. Bisbie, late Confederate bearer of dispatches to Europe. The Nassau authorities forced the Flambeau out of the harbor, which gave the Ella Wardley the opportunity to escape. [The reader may remember that Capt. Missroon is in command off Charleston;—and he may not wonder that vessels run in now and then.]

Gen. Shields reported himself to the President on Wednesday and asks immediate service in that field where the most work is required. His arrival is hailed with joy by the Irish, who intend to give him a grand welcome and serenade.

The World's dispatch makes the following statement: Three divisions of the army are under marching orders, and troops have already been dispatched to a certain point. Be prepared to hear stirring news within a week. The rebels' movements betray a total ignorance of the plans of our Generals.

Gen Hooker's division has practically gone into winter quarters. The same is true of Gen. Banks' division, although the rebels do not seem disposed to let them rest quietly.

A Washington dispatch says it is possible that there will be much disappointment when the destination of the Burnside expedition is known. The members of the Cabinet and our leading Generals, however, have given assurances to the leading members of Congress that the expedition will be attended with the most important results, and will materially change the aspect of the war.

IN THE DEMOCRATIC STATE CONVENTION, at Concord, which nominated Gen. Stark for Governor, Mr. Lamprey of Hampton and Gideon H. Rundlett of Portsmouth were Vice Presidents of Rockingham County. No member of the State Committee resides in this city.

Among the resolutions are the following:

Resolved, That we denounce Northern abolitionism and Southern secession as the co-operating sources of our present calamities—alike treasonable to the Constitution and inimical to the Union. The only way to a restored Union and a respected Constitution, with returning peace and prosperity, is through the overthrow of the enemies to both.

That the Constitution is the supreme law of the land, and no State has the right to secede therefrom and dissolve its connection with the Union which that Constitution was made to secure, except for causes which will justify revolution.

That the duty of the General Government to suppress all attempts to dissolve the Union is imperative and cannot be evaded.

That neither the President nor Congress can constitutionally entertain any proposition which has for its object the dismemberment of the Government or the dissolution of the Union.

That we approve of the action of the President in the matter of the Trent, and only regret that a decision right in itself was delayed for a peremptory demand from Great Britain.

That the triumph of the Democratic party offers the only hope of awakening the Union sentiment of the South, which can be aroused only by the assurance of safety and protection in the Union; therefore we invite the true and patriotic of all parties to rally under the flag of the Democracy as the only sure means by which the present war can be brought to an honorable close.

☞ Gen. Hodges, 18 years of age, a student of the academy in Wilbraham, Mass., died suddenly in his room at the boarding house of that institution on Tuesday morning of last week. He was apparently as well as ever a few minutes before his death, when he suddenly exclaimed to his room mate that he was going to die. He threw himself upon the bed and expired in a short time. His parents live in Jencksville.

☞ It appears by the Governor's message that Maine has in the field sixteen thousand three hundred and forty-three troops, being five hundred and seventy-eight more than her quota. Aroostook county has furnished the largest number in proportion to its population. The war debt of the State amounts to $873,604.96.

☞ Gen. Buell, of Kentucky, is down upon proclamations. He neither issues them himself nor permits his officers to do so.

MY LITTLE HEART.

The sun is set, but there falls no dew;
The year is old and the moon is new;
My fate is cruel, my heart is free,
And I sit in the silence and think of thee,
My dearest, dear little heart.

I sit in the silence and watch the skies,
As the tender red of the evening dies;
My fate is cruel, but faith defies
The dreary night that between us lies,
My dearest, dear little heart.

All the dreaming is broken through;
Both what is done and undone I rue;
Nothing is steadfast and nothing true
But your love for me and my love for you,
My dearest, dear little heart.

When the wild waves ebb, when the wild waves flow,
When the winds are loud, when the winds are low,
When the roses come, when the roses go,
One thought, one feeling is all I know,
My dearest, dear little heart.

The time is weary, the year is old;
The light of the lily turns close to the mold;
The grave is cruel, the grave is cold,
But the other side is the city of gold,
My dearest, dear little heart.

THE HORSE'S PRAYER.

Up the hill hurry me not,
Down the hill worry me not,
In the barn forget me not.
Up hill bear me,
Down hill spare me.
On the plain spare me not,
Give me no water when I am hot.

☞ A gentleman in Boston has promised the gift of $20,000 to the Boston Society of Natural History, contingent upon the raising of a like sum from other sources by the society. The sums are to be devoted to the erection of a suitable building for the purposes of the organization.

☞ The Union Convention which assembled at Hartford, Conn., Thursday, nominated a ticket for State officers, and passed a series of patriotic resolutions, in favor of discarding all party objects and uniting to sustain the Government in the present struggle for national existence.

☞ The Boston Courier says commissioned officers of the volunteer service who have resigned their position will not be again recognized by the Government, even should they receive a commission for a place in the army from the respective Governors of the States.

☞ Mr. Bradford, the new Governor of Maryland, was inaugurated at Annapolis Wednesday. He made an eloquent address, condemning the rebellion in the strongest terms, and expressed the utmost devotion to the Union and Constitution.

☞ The Union prisoners just from Richmond report fires almost every night in the towns of the South for some weks past, and the people are very much terrified with a rumor that the South was full of Union incendiaries.

☞ Steamship Australasian, supposed to be lost, arrived at New York, Thursday.

Special Notices.

TRUTH IS MIGHTY and always prevails, though it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as in simplifying the administration of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—a case of medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq., and corner State and Pleasant sts., Portsmouth; M. S. BURR & CO., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me.; or sent anywhere by

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:
"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."
Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle; otherwise a different paper may be selected.

Lost, Found, Wants.

LOST.

Dec. 13, between Austin and Market streets, a pair of SPECTACLES, with silver bows, belonging to an old man, who cannot well read without them. The finder, on leaving them at the Chronicle Office, shall be suitably rewarded.

MAN OVERBOARD.

A liberal reward will be paid for the recovery of the body of a man who was lost overboard near Wade's Beach, from sch. Peru, from this port for Thomaston, Dec. 16. He was 25 years old, dark complexion; had on white knit drawers and under-shirt, a white shirt; and blue woolen shirt over it; plaid pants, with two dollars in the pocket. Refer to M. Fisher & Co., or J. Eldredge & Son, Portsmouth.

☞ At the Portsmouth Navy Yard, the wages of some of the "laborers" have been cut down from $1.50 and $1.25, to $1.25 and $1. Most or all the minors employed have been discharged.—The pay of the mechanics, we believe, is unchanged—and the complaints were, that they had to go to work earlier; (though we guess they would have to "get up still earlier in the morning," and work harder too, to earn the same wages elsewhere,) and the large gang of borers also mistakenly considered themselves included among the "laborers." The Commandant, we are told, referred the matter to a committee of four eminent mechanics on the Yard, and acted on their report.

A communication from Vox Populi, on the hardship and injustice of reducing the poor laborers' pay only, we could not find room for. Neither did our former remarks refer at all to *them*, as having no cause of complaint, but to some of the mechanics, who were publicly growling about they know not what.

POLICE COURT, Thursday.—Before Justice Odell.—John Keboe, for brawl and tumult in and around the Brick Market, fined $3: costs $3.86.

Wednesday, Jan. 8.—Emery Ayers, for drunkenness, fined $3, costs $3.86.

John Muchemore, do., fined $3, costs $3.86.

Benj. H. Grant, charged with violating Ordinance No. 31, Sec. 4—discharged by paying costs. This ordinance relates to billiard rooms, and forbids the entrance of minors, without consent of parents, guardians, or masters.

☞ We are informed Mr. J. F. Shores, jr., has been unanimously elected Chairman of the Trustees of Piscataqua Lodge No. 6, I. O. of O. F., in this city—in place of the late Hon. C. S. Toppan. The other members of the Board are Messrs. Jas. M. Carr and A. Q. Wendell. This staunch Lodge has been in operation for sixteen years, and has a fund of $10,000. Mr. Shores is not only "a good fellow," in every reputable sense of that term—if we may be allowed to use it; but has long been one of the most active members among the Odd Fellows, having joined in organizing this Lodge, and successfully labored with his predecessors in office, for its interest, ever since.

☞ Both Boards of the new City Council were in session Thursday evening. The usual standing committees were announced in each. In Board of Aldermen a resolution was adopted, authorizing the Mayor to employ the services of the late City Clerk whenever in his opinion it would be for the interest of the city. In Convention, George A. Wiggin was elected City Messenger, receiving nineteen votes; scattering, five.

☞ The School Committee of District No. 1 have appointed Wm. H. Dennett, Esq., teacher of the Woodbury School, at Gravelly Ridge, in place of Mr. Foss, who has taken another school.

☞ The social levee at Jefferson Hall, given by the Ladies of the Pearl Street Baptist Society, is to be continued this, Friday, evening.

OFF AGAIN FOR THE POTOMAC.—Capt. Charles E. Rand, of the Massachusetts 1st, and a son of Portsmouth, was in the memorable battle of Bull Run. Since then he has been on a furlough in Boston, and has been very efficient in recruiting for the army, from three to five hundred recruits having been accepted by him and forwarded to the Potomac. He has also forwarded to the various regiments five thousand parcels and packages. For the past month he has been in active service in following up and arresting deserters from the army, 50 of whom he has hunted up and returned to Washington. By his persevering and energetic efforts, Capt. Rand has proved himself to be a most worthy officer and has received the approval of his superiors for the energy displayed in the offices which he has filled. He returns to his command on the Potomac next week. H.

☞ An English steamer, the Immortalite, arrived several days ago at Annapolis, and made application to our government for permission to coal. Orders were immediately dispatched to our officers at that station to allow her to take in all the coal required. This action of our government is in striking contrast with the recent conduct of the British officials at Nassau.

☞ The barn of Asa Paine, Esq., of Anson, Me., was blown down on Wednesday week. There were forty sheep and four head of neat cattle in the barn at the time, all of which escaped.

☞ The Norfolk Day Book of Monday says a sawmill in Norfolk Navy Yard was fired by an incendiary on Sunday. It was however extinguished with little damage.—There have been several fires in Charleston within the past few days.

☞ Two steamers for the Chinese Government are building at a New York shipyard.

We have reason to believe that, up to the time of his death, the Prince Consort raised his voice energetically against the haste with which England is rushing into a war with the United States—an event which he denounced as subversive of her interests, dangerous to the real sources of her power, and certain to be advantageous only to the despotic powers of Europe.—Whether that view was right or wrong, such, we believe, was the faith in which the Prince Consort died.—*London Critic.*

☞ An elderly lady named Susan Williams, belonging in Charlestown, Mass., has died from injuries received by falling upon the ice, in the street.

☞ The Tribune learns that Mr. Bonner, of the N. Y. Ledger, has made arrangements with Dr. Windship, of Roxbury, Ms., the famous "strong man," by which Dr. W. is to write exclusively for the Ledger.

A celebrated violinist has been offered an engagement for some popular entertainment in London, on the following terms—"One solo per night, at the rate of a thousand pounds per year—money banked."

☞ New York has enjoyed a two days' sleighing carnival. On Tuesday the Central Park was visited by eight hundred and sixty-one sleighs and cutters.

☞ The powder manufacturing company at Bennington, Vt., are fulfilling a second order for one thousand barrels of gunpowder for the Government.

PEERLESS.—Mrs. Sarah Larrabee of Rockville, Mass., has in the Union army, *four sons, seventeen grandsons,* and *one great grandson.* To her, with great confidence we may say, "None but yourself can be your parallel."—*Pine and Palm.*

☞ John Currier, of Newburyport, has built 67 vessels, and has two more on the stocks, measuring altogether 51,671 tons,—a large record.

☞ Henry J. Raymond, editor of the New York Times, was elected Speaker of the New York Assembly on Tuesday.

☞ In some of the Western States it now requires four bushels of corn to buy one pound of tea.

NOTICE TO ADVERTISERS.—The notices of yearly advertisers in the Daily Chronicle, are also inserted in the Weekly *once*, without extra charge; but subsequent Weekly insertions must be paid for, if ordered.

☞ Having made arrangements for furnishing good custom-made BOOTS and SHOES for the people; also for all kinds of repairing in the same line, an invitation is extended to all who are in need of something good to wear to call at No. 6 MARKET SQUARE. D. R. AMBROSE.

☞ See a woman, in another column, picking Sambuel Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have all advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

This, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on the part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

2. THE EDINBURGH REVIEW (WHIG).
3. THE NORTH BRITISH REVIEW (Free Church.
4. THE WESTMINSTER REVIEW (LIBERAL).
5. BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we recommend them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives the additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper considering the quality by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ending, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of.... $1 00

For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 1 00

For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 3 00

For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 8 00

For $50, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 10 00

For $80, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 18 00

For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.. 25 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For $11 25, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of..... $2 00

For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 4 00

For $40, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 10 00

For $60, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 17 00

For $100, Fifty Copies Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.... 30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tubs of any thickness, and can be easily detached and set aside.

No House should be without one.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? The symptoms are often the prelude to serious illness. Some slight sickness is coming upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the functions of life run unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease, and by their action on the digestive organs, they restore the natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. Thus, in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it, the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Sixteen years from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1855.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which make them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer you more complaint. I have cured with your Pills better than to say *all that is ever final with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRERIE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bill, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people. 22

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangement of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, MANTON BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever found, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the foundation of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in the problem lay it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the parent of others that are worse. I believe our diseases to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Smart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent preventives of the natural sorrow that when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 De 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and confident that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JANUARY 11, 1862.

A VISIT TO CONCORD.

EDITORIAL JOTTINGS.—Yes, we went to Concord on Wednesday, "so early in the morning," that it seemed like going over night,—with a car-full of other good Democrats—though we did not all go on exactly the same errand, nor all precisely agree in political sentiments. Of the Democratic State Convention, which occurred on Jackson's Day, the Chronicle has already told its readers something; and also of the Horse Guards' Ball, — although, strangely enough, none of the many Boston reporters present have said a word of the Guards' election of officers, the real business of the day.

As to the Democratic Convention, it was expected that the Wheelerites, or liberal Democrats, would show in considerable strength; and we heard, outside, curses both loud and deep, from Democrats, that the nomination was made by acclamation, before permanent organization, and before a vote could be taken. Of course the nomination belonged, by usage, to Gen. Stark—but the liberals say the old liners were afraid of their strength, and had to spring this trap on them to save themselves. Of this we have nothing to say, not having been at the Convention—but we are prepared to believe almost any trick or trap possible with any "party" or Convention;—and simply remark, "Fight dog, fight bear, —my dog isn't there."

But we were present at the Horse Guards' election, and the old officers were mostly re-elected—Col. George Stark, Lt. Col. A. H. Bellows, Major H. O. Kent and Adj. Sanborn. W. H. Bullock was chosen Treasurer, in place of Mr. Hill, who declined re-election; and George H. Pierce of Dover was elected Paymaster, in place of Frank Fuller, who has "left the country and gone to" Utah, (but seems to bid fair now to come back into it by and by, in some official capacity, from the Great Salt Lake region, as we hope he may.)

Of Company C, of Portsmouth, Great Falls, &c., M. C. Burleigh of Great Falls, is Captain; F. W. Miller and H. Eldredge, Lieutenants; M. Eldredge, Orderly; J. E. Rider, Clerk; Frank Jones, Guidon Bearer.

The Guards' Levee and Ball was held at Phenix Hall and the Phenix Hotel and Parlors, in the evening—and was truly a splendid affair.

Among those present were Gov. Berry, ex-Govs. Colby and Williams, Gen. Stark of Nashua, Col. George H. Pierce of Dover, Col. Putnam of the N. H. 7th Regt., E. M. Stoddard, Master of the sloop of-war Kearsarge; Paymaster H. H. Pangborn of the U. S. sloop of-war Constellation; Major Stevens, Capt. E. L. Bailey and Lieut. Sylvester Rogers, of the N. H. 2d Regt.; Capt. Prentiss of the N. H. Cavalry; four gentlemen of New Haven, of the Governor's Horse Guards of Connecticut, in their gray uniform; Brig. Gen. John H. Gage, &c.

The list of civilians present included many of the most prominent citizens of the State; and, taken all in all, the occasion, in every feature that indicated success, proved all that its promoters anticipated, and more.

The press was largely represented. Several New Hampshire editors proper were there; and almost all the Boston Dailies had a reporter or penny-a-liner present, some of whom were certainly *as handy* with their heels as their pens; and it would seem that brains could hardly withstand such a whirling as some of their heads, and those of a few of the ladies got.

The Decorations were elaborate and splendid, and exhibited good taste in all their details. We have not room to particularize, if we cared to; and will only say they were the work of "Col." Wm. Beals, of Boston, and probably among the most superb ever seen in New England. The magnificent flag given by Californians to the N. H. 1st Regt., was there, with its heavy gold fringe and tassels. It cost $600, but as there *was no* 1st Regiment when it arrived there, the donors must again give it to somebody.

The music was by Hall's Band of Boston, and was good; but we could not see that either the playing or calling was one whit superior to Lamprey's Band in this city—which always gives fine music, while Mr. L.'s figures are as pleasing as those of "any other man" we know of.

Of the attendance, we have not room to particularize. About three hundred were present, and the scene was a brilliant and pleasing one. The list of celebrities would give decidedly a male preponderance; and the ladies were not "dressed and undressed" to so extreme a degree as is usual in similar splendid entertainments. There were many elegant toilets, but none gorgeous; and so many beautiful women and fine dancers, that the belle could not be unanimously decided on. Our taste was for Miss O., a young Concord lady, in black barege with pink puffs, low neck and short sleeves, hair plated — simple elegance — and she was a capital dancer. Portsmouth was represented by about half-a-dozen couple, including the Misses H., Miss L., Mrs. M., and others,—who we are bound to believe represented the fair sex of our city, at least as well as her more material interests are considered by the Concord powers that be.

The spacious Hall (fully equal to our Jefferson Hall) is entered from the Phenix Hotel by a bridge-walk from the third story; and as the company of one hundred and fifty couples formed in the Hotel, and marched into the Hall, to the grand march of the Horse Guards, the scene was brilliant and inspiriting. The list of dances comprised twenty-four—many waltzes and fancy dances being interspersed, in which Miss H. of Portsmouth, was most prominent. We give the list:

1 The Governor's Horse Guards' Grand March: Eaton. 2 Cotillon: Union. 3 Contra: French Four. 4 Cotillon: Amoskeag Veterans'. 5 Quadrille: Lancers'. 6 Contra: Money Musk. 7 Cotillon: Hussard de la Garde. 8 Quadrille: Caledonians. 9 The: Spanish Dance. 10 Cotillon: Ancient and Honorable. 11 Quadrille: Polka. [Supper.] 12 Cotillon: Military and Grand Basket, [omitted.]

Intermission—Waltz, Schottische, Polka.

13 Cotillon: Granite State Cadets'. 14 Quadrille: Lancers'. 15 Contra: Zip Coon. 16 Cotillon: Washington. 17 Quadrille: Waltz. 18 Contra: Portland Fancy. 19 Cotillon: New Year. 20 Contra: Ladies' Triumph. 21 Cotillon: General Jackson. 22 Contra: Virginia Reel. 23 Cotillon: General Stark. 24 Contra: Tempest.

Supper was served about midnight,—part at the Phenix Hotel, and part at the Eagle —both excellent and bountiful. About two hundred sat down at the Phenix, and fifty or so at the Eagle. We did not see the Eagle's spread, but the tables at the Phenix were profusely loaded and elegantly decorated. See the rich bill of fare:

Oysters—Stewed oysters, oysters fried in butter, escaloped oysters. Cold Meats—ham, tongue, pressed corned beef, boned turkey, turkey, chicken, pigs' feet—pressed. Game—canvas-back duck, mongrel goose, black duck, prairie chicken, partridge, pigeons, grouse. Relishes—chicken salad, celery, pickles, olives, cranberry sauce. Pastry —apple tarts, cranberry jelly, jelly cake, delicate cake, fruit cake, black cake, ladies' cake, currant cake, sponge cake, pyramid cake—ornamented. Dessert—nuts, raisins, oranges, apples, grapes, apple jelly, cranberry jelly, wine jelly, lemon ice-cream, manilla ice-cream, whipped cream, boiled custards, blanc mange, charlotte-russe, floating islands. Tea and coffee.

More anon.

☞ An extensive riot took place at Carbonear, N. F., Tuesday. Some twelve or fourteen persons were shot, but none killed outright. Troops were sent from St. Johns at midnight to preserve order. The parties are kept down by the military. The town is in a state of siege, and business is suspended. At Harbor Grace both parties are largely reinforced, and hostilities will recommence the moment the troops are withdrawn. The trouble grew out of the difference between the Catholics and Protestants.

☞ By the recent report of the Sanitary Commission, it appears that at least two thirds of the volunteers enlisted in the army are native Americans. The average age of the privates as nearly as can be ascertained from imperfect returns, is a little under 25 years. Somewhat more than one half their number are under 23 years of age. The average age of the officers is about 34.

☞ The contract to furnish the Naval Department with 10,000 pairs of shoes for the Marine Corps during the year 1862, has been awarded to Henry Newton of North Weymouth, Mass., at $1.40 per pair. The marine shoe is cut low, differing in other respects very little from the regular army shoe. The bids were opened about a fortnight since.

☞ The Provost Marshal General at St. Louis has issued an order requiring all publishers of newspapers in the State of Missouri, St. Louis papers excepted, to furnish him a copy of each for inspection, a failure with which order will render the paper liable to suppression.

☞ Albert Carpenter, a blind man hailing from St. Paul, Minnesota, was robbed in Boston on Wednesday of $230—the gift of Masonic and other societies of St. Paul, to enable him to visit Germany for medical treatment.

☞ The Columbus (Ohio) State Journal says that at a meeting of the Board of Control of the State Bank of Ohio, held on Friday, it was resolved not to suspend specie payment. This simply means that the Bank will issue no more bills.

☞ Two weeks since Gen. McClellan requested of the Secretary of War the appointment of Frank Patterson, son of Gen. Patterson, as Brigadier-General. Thursday an order for his appointment was sent by the President to the War Department.

☞ The St. Louis Republican reports that Gen. Sigel and some of the officers under him are about resigning their positions in the army.

A crazy inmate of the Napa (Cal.) jail, recently desired the sheriff to provide for his dinner a bottle of champagne, some fried potatoes, and $150,000.

CONGRESS—In the Senate Thursday, the Judiciary Committee reported in favor of expelling Waldo P. Johnson, Senator from Missouri. Mr. Hale of N. H., introduced a bill to prevent frauds on the Treasury, which provides five and ten years hard labor to any person obtaining Government monies fraudulently. If an officer of the Government he shall be discharged and punished, and be ever ineligible to any office. Referred. Mr. Hale moved to take up the bill providing for twenty mail clad gunboats, the question being on substituting the President for the Sec. of the Navy. Mr. Hale favored the amendment. The Secretary of the Navy was undoubtedly honest, but had made a mistake. A lengthy debate ensued, and Mr. Wilson, by consent, introduced a resolution that the Sec. of the Navy be requested to inform the Senate of the facts in regard to the employment of George B. Morgan to purchase vessels, and the amount of compensation paid him; which was agreed to.

Mr. Sumner addressed the Senate upon the Trent affair. He defended the position taken by Secretary Seward in the surrender of Messrs. Mason and Slidell, as the only legal and just one that the Government could honorably assume.

The House considered the bill for abolishing the franking privilege, but no decisive vote was taken.

☞ Information has been received from New Orleans that Mr. James F. Otis, one of the editors of the New Orleans Picayune, had been placed under arrest for uttering seditious language. Mr. Otis is a native of Newburyport, Mass., and was connected with the press of Philadelphia many years before going South. The Picayune, it will be remembered, resisted the Secession heresy even after the Secession ordinance had passed, and only gave in its adhesion when it could no longer successfully resist the pressure of external circumstances. The arrest of Mr. Otis now would seem to show that there is a little of the old leaven still left in the establishment.

☞ An attempt was on Wednesday night made to blow up the Mansion House in Alexandria, formerly occupied as a hotel, but now used as a hospital. A barrel had been secreted in the cellar filled with powder and projectiles, and a fuse was found extending from there to the stable. In proximity to these combustibles, matches and Chinese crackers had been plentifully distributed. The fuse end at the stable had actually been ignited, but this was fortunately discovered by the guard. But for this, not only would several hundred lives probably have been lost, but other casualties resulted.

☞ Great excitement occurred in the St. Louis Chamber of Commerce Thursday afternoon, on the occasion of the election of officers, which resulted in the disruption of the Chamber, by the withdrawal of the Union members, who subsequently established a Union Chamber of Commerce, which will be immediately carried out. The trouble occurred in consequence of the secession members refusing by their votes to admit a number of the Union applicants for membership.

☞ A Colonel of a regiment stationed at Hilton Head, now at Washington, says he has no doubt of his ability to take Charleston with his single regiment. So great is the Southern panic that houses ten miles in the interior are known to have been abandoned by their owners in the same condition as Beaufort was found.

☞ The State of Kentucky has raised and equipped four regiments of cavalry and twenty regiments of infantry, composed, in all, of twenty-nine thousand soldiers, all now in the field in defence of the Union.—Kentucky is one of the "down-trodden" States.

☞ Messrs. Chs. F. Abbott, and Joseph W. Pickett, recent graduates from the Andover Institution, were ordained Evangelists, Jan. 2, at Bristol, N. H. Sermon by C. W. Wallace, of Manchester. Mr. Abbott is a stated supply at Bristol, and Mr. Pickett at Wentworth.

☞ The Senate Committee on the Judiciary have come to the conclusion, six to one, to report against the expulsion of Jesse D. Bright of Indiana, the question involving his loyalty having been referred to them.

☞ During the War of 1812 the British fleet on Lake Champlain attempted to close the harbor of Otter Creek by sinking several vessels loaded with stones. This they considered legitimate war then.

☞ The Tribune's dispatch says that Monday night a council was held at the capitol between all the members of the Cabinet and the War Investigating Committee.

THE REBELLION.

A dispatch from Cairo says, as soon as 25,000 troops, now on their way, arrive, a column of from 60,000 to 75,000 strong will march from Paducah under Gen. Grant. The destination of this force is said to be Nashville, whence, a juncture being made with Gen. Buell's command, the entire army will proceed to New Orleans. This movement, it is stated, will undoubtedly occur within the next six days.

The expedition under the command of Gen. Burnside sailed from Annapolis Thursday afternoon. The fleet of war vessels intended to co-operate with the land forces are collected at Hampton Roads, where they will be joined by the transports conveying the troops.

The session lasted three hours. The propriety of silence as to the debate and conclusion arrived at, is obvious. It may not be improper, however, to state that the Cabinet officer whose life has been spent in the courts of law led the demand for an immediate battle, and that council for delay came from the heretofore belligerent member of the Administration.

A portion of the troops connected with the expedition down the Mississippi, have been sent from Cairo to Sterling Point.—The troops and stores were all on board the gunboats and steamers, and as everything was ready, they would probably all start on Friday.

The Boston Transcript says orders were received on Friday morning, for the immediate disembarkation of Gen. Butler's troops from the Constitution. It was rumored that the troops at Ship Island are to be ordered home, or join some other expedition. Some more immediately important project seems to have occasioned this unexpected change of plans.

Special Notices.

TRUTH IS MIGHTY and always prevails, the it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, billousness, croup, catarrh, piles, etc. etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—a case of medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq., and corner State and Pleasant sts., Portsmouth; M. S. Burns & Co., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me.; or sent anywhere by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the back and limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail.

Sold by W. R. PRESTON and all druggists.

Recollections of Old Acquaintance.

BY UNCLE TOBY.

HENRY FREEBORN AND MRS. ROBSHAW.—Uncle Toby's Recollections have called up a host of similar recollections in the minds of others, and many of them are too good to be lost. Some of them are stories of the olden time, and may now be told without offence, though in their proper day they were the scandals of the times.—And if any one will compare the private memoirs of the past with those of the present, he may see at a glance that many things are venerable because they are obscure, which would be contemptible if they were obvious.

Henry Freeborn was a rich young man, of a family that stood high in an eastern town more than a hundred years ago. His education, at Harvard College, was finished. He had studied no profession, his wealth called for no increase by his efforts, and he had undertaken no business, but lived a life of leisure and pleasure, somewhat after the manner of young gentry in all times and countries. Not being married at the time when this memoir commences, he lived with his widowed mother, a worthy housewife of middle age and noble qualities, one of the best women in the world, as people said, but a little proud of her beautiful and accomplished son.

In Boston, at the same time, dwelt Captain Robshaw, a sailor, open, bold and brave, who earned his money like a slave and spent it like a prince. This Captain had a wife, Fanny, younger than himself,—very fair to look upon, and the sequel shows, as frail as she was fair, though no one suspected this, certainly he did not. She was a gay young lady, of an elegant person, accomplished manners, and susceptible heart. Her husband's wealth and liberality, with her own taste and fancy, clothed her with goodly apparel, and decked her with jewels of gold. In her husband's absence she visited some relatives in the eastern town where Harry Freeborn lived, and almost as a matter of course they met in the best social circles of an aristocratic town.

Indeed they often met, where there were no circles but their own dear selves; as a lady of their own day said, they were always together, often in the streets.

One Saturday, Henry Freeborn had quite a lot of good eatables "cooked up," and carried to his chamber. Perhaps the housemaids raised the question what he would do with them: but it is not likely they got the true answer.

Mrs. Fanny, early the next morning, which was Sunday, took a strange fancy to ride out on her saddle-horse; and about the middle of that day the people of Hampton Falls were disturbed in their worship by the report that a lady's riding-hat and whip had been found near a bridge or causeway, and that her horse with a side-saddle was caught in the highway. The meeting broke up, and the congregation went to drag the stream for the body of a woman who must have drowned herself. They did not find her: but the report of these things, so direct and clear, went back to her relatives, and they prepared mourning dresses, not doubting her death in the least, but expecting a hasty funeral as soon as her body should be found.

On that same Sunday, Henry Freeborn was out of church and out of town. He came home late in the evening, in his chaise, and went to his chamber as usual, though he had some company there of which his mother had no idea. Early on Monday he left for Boston; and when his mother and her maids went to look after his chamber, they found the door locked, and supposed that he must by mistake have carried the key to Boston in his pocket. At least, Mrs. Robshaw heard them say so as they stood in the entry while she listened inside. He had supplied her plentifully with food to stand something of a siege; but in making provision for drink he had unluckily brought it in a favorite silver tankard: and the old lady enquired for it every day.—At last, on Wednesday, she told her maids "if Henry don't come home to-night, we must open the door to-morrow; for we are going to have company, and can't do without the tankard." This brought matters to a crisis, and that night Mrs. Robshaw crept out of her hiding-place and gained the street. No watchman then made night hideous by his cries, but all was still. One of her aunts was startled by a mysterious knocking at the street door, and looking from the window, asked who was there.—"It is I, Fanny Robshaw," was the answer. "It must be your ghost," said the frightened aunt. "No: it is not my ghost or my spirit, but it is I, myself; you must let me in, and I'll tell you all about it." The aunt opened the door, and the niece made a clean breast of it by telling the whole story of her going home with Henry in his chaise and being shut up in his chamber. The mourning dresses were laid aside, and her friends took care of her.

Her husband arrived not long afterwards, and was greatly scandalized at the reports; but he loved his wife and came to visit her. She did not deny her indiscretion: but when he offered to forgive her if she would say she was sorry, she declined. He then laid down his handkerchief and told her if she would pick it up and hand it to him, he would make all up and live with her again the same as ever; but she would not do it: and as he left her, he threatened if Henry Freeborn ever came to Boston, he would make daylight shine through him.

In due time, and before a very long time, Henry Freeborn was married, not to Fanny Robshaw, but to another young lady;—and Captain Robshaw put away his wife according to law,—and as soon as this was done, Henry Freeborn settled on her a pension for life.

Years passed—Mrs. Robshaw became a member of the first Congregational Church in ———, and so did Henry Freeborn and wife; and he occupied conspicuous places both in church and state. Other years passed, and all the parties had gone on to middle age in life.

In the mean time, Judge Fielding, a man of great mental and moral worth, as well as of high legal standing, had lost his wife by death; and desiring a fit companion for himself and a good mother for his children, saw fit to select Mrs. Fanny Robshaw, and she in turn saw fit to accept his proposals of marriage. Of course this made a talk—but when a female friend questioned the legal and moral fitness of the match, the Judge made answer, that "Mrs. R. was as free to marry as any single woman; and that although her youth had been stained by a great fault, yet her subsequent life had been without reproach, and a twenty years' penance was long enough to prove any one."—They were married, and were said to live happily. They certainly lived together in apparent comfort many years; and she was received into the first society in the place as freely as if nothing had ever happened to cloud her fair fame.

Does any one wish for the moral of this story? If so, he must extract it for himself, for Uncle Toby this morning is not exactly in the mood, nor was this story made to point a moral at all, but to preserve a piece of veritable history with fancy names, partly for the purpose of showing that runaway wives and strange matches existed in the last century as well as in the present. If any novel-reader objects to the fortune of the guilty parties as altogether too good, Uncle Toby cannot help it. If he tells a tale, he can make it suit the moral, as Mr. Arthur does, and as the author of the Temperance Tales did; but when he tells a story that a fine old lady tells him, he only brings out the facts, and lets the moral take care of itself. The Bible stories are made so—and they are the very best—true to the life, as this is.

THE PATENT
FOUNTAIN HAIR-BRUSH.
In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*
THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.
To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—
It dresses the hair without soiling the fingers; it effects a saving of from one-half to the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unstinted testimony of my patent agent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

From the Journal
PORTSMOUTH ATHENEUM.

At the late annual meeting the following officers were elected for the current year:

President—Rev. Dr. Burroughs.
Directors—Alfred W. Haven, Richard Jenness, J. M. Tredick, Albert R. Hatch, Daniel Austin.
Sec. & Treasurer—William H. Rollins.

It appears by the annual report that the number of books belonging to the Library is 9541, of which 224 have been added the last year—200 by donation and 24 by purchase. To better accommodate and arrange the books, more room was needed, and it was judged best to unite the room in the third story with the Library room, by making a large opening in the floor between. The effect has been good, and the room made far more convenient, pleasant and in viting. The institution is indebted to the liberality and taste of its worthy President for the handsome chandelier and centrepiece, as well as for the fitting of the new museum room. Rev. D. Austin has also presented a set of furniture for the room. For these gifts, as well as for the services of Messrs. William H. and Charles H. Rollins, in arranging the books and preparing the new Catalogue for publication, the Stockholders passed to them individually votes of thanks.

The new Catalogue is now in the press.

BOYS' HIGH SCHOOL.—A few weeks since one of the High School Committee gave the boys the subject of the "New and Old Year" for an exercise in composition—promising prizes to the writers of the two best pieces—to be decided by a committee. Twelve competitors entered the list, and on Monday last, Rev. Messrs. Patterson and Eddy, accompanied by Alderman Rider, visited the school to make the award. Rev. Mr. P. stated that it was with some difficulty that they had come to their decision. They were pleased to find a patriotic spirit as well as a good moral tone pervading most of the pieces. After an appropriate address to the school, he announced JOHN E. COLCORD as entitled to the first prize, and WILLIE HOYT as entitled to the second.

Rev. Mr. Eddy said that to him was assigned the more pleasant duty of presenting the prizes. The first a gold pencil case, the second two volumes, "Tom Brown at Oxford," were then presented, with a feeling address to the recipients and the school, on the importance the exercise in composition holds in completing a school education. Rev. Mr. Patterson again addressed the school, and by some pertinent anecdotes illustrated the importance of close application by the scholars and of acquiring a thorough knowledge of what they study.

The school, under the superintendence of A. M. Payson as principal, and Lewis Smith as assistant, is in excellent order, and presents about a hundred young men who in a few years will make their mark in the world. How valuable are their advantages, and with what confidence we can look upon the result of the influence under which they are now placed.

In the library of the school we found about two hundred volumes—15 of them recently received from that friend in Boston to whom the school has in former times been much indebted. We learn too that Mr. Fields has also recently given an elegant set of Walter Scott's novels, fifty volumes, to the Girls High School. These pleasant remembrances of his native place are duly appreciated.

8—The Last Two Books on Africa.
9—Dr. Walker's Sermons.
10—The Domestic and Foreign Relations of the United States.
11—Critical Notices.
12—New Publications.

This number of the Review being the first of a new volume, the Publishers would take this opportunity to commend the work to the favor of the American public.

During the past year, the timely articles which have appeared upon subjects so important to our nation, have attracted the attention and commanded the admiration of all readers; and nowhere have more able and well-digested opinions upon these great topics appeared than in the North-American Review. The article in the present number on the Domestic and Foreign Relations of the United States, examining thoroughly the subject how uppermost in the minds of all the great nations, is worthy of special attention.

The Review is published quarterly, at five dollars per year, by CROSBY & NICHOLS, Boston.

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—It simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tubs of any thickness, and can be easily detached and set aside.

No House should be without one.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deadly and dangerous diseases of our nature. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are equally, and many of them easily, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Dupal, Baltimore.

DEAR SIR, AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we cure treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 7, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirable—unrivaled in their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for the derangement of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALDEN BALCH, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I doubt there is cathartic so well adapted to the exigencies I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I visit in cases of distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WEBRAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MESCHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If those of our fraternity have failed in an affection as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although not enough in itself, is the progenitor of others that are worse, and believe my disease to originate in the liver, but your Pills affect that organ and cure the disease.

From Rev. E. Sweet, Physician and Minister, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent preventives of the sickness arising from wholly or partially suppressed, and also very effectual to relieve the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawley, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on every spring neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. I believe my recovering, in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that had afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS FREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO
a few well known gentlemen and physicians, who have tried the Wine.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JANUARY 13, 1862.

LETTER FROM NEW YORK.

NEW YORK, Jan. 8.

Dear Chronicle:—With the commencement of the week occurred the annual change in our city government,—the mayor, one-half the aldermen, and the entire common council retiring from office, and the late elected candidates succeeding.

Born in the city of Philadelphia in 1812, our retiring mayor, Fernando Wood, is to-day more widely known than any person of an equal political position, in the country. At the early age of twenty he began to take an interest in politics, being at that time in the tobacco trade in Pearl street, and about 1840 was engaged in business on his own account, making money and increasing his business every year.

He was elected Representative to Congress at the "Tippecanoe and Tyler too" canvass, and by his efforts and speeches, public attention was first called to the Morse Electric Telegraph.

Several years after he was engaged in business at Syracuse, swindled his partner out of a few thousand dollars, and also purchased a vessel for $6000 for the shipment of some goods, and charged his partner the same amount for *his half!*

In 1850 he was nominated by the democrats for Mayor, and defeated: but in 1854, after an exciting canvass, was elected, and at the expiration of his term in 1856, re-elected. During the year occurred the "Police Riot," between the police in office and the new corps substituted by an interfering legislature. Five or six hundred of the State police attempted to take possession of the City Hall, but were resisted by Wood, who like a Bonaparte of old, gathered about 300 of his police at the rear entrance and a bloody riot ensued, in which pistols and clubs were freely used. The 7th Regt., which was on the march down Broadway *en route* for Washington, was ordered into the Park, and a settlement effected.—Here Wood displayed that indomitable will which has ever proved an inherent trait in his character.

In 1857 Wood was legislated out of office by an act shortening the Mayoralty term one year, and, Tieman succeeded when the Mayoralty term was legislated back to two years. This diabolical manœuver on the part of the opposition Assembly, was universally condemned. After disappointing every one, Tieman retired from office, and in 1859 Wood was nominated and elected.

At Mozart Hall, on the election night, as the returns came in indicating his success, the excitement was tremendous. A crowd of people, cheering, yelling and almost crazy with joy, were hushed by the commanding form of Fernando, who uttered the words, "Truth crushed to earth will rise again." Then the the applause broke forth afresh.

The two great events of his last term have been his Thanksgiving Proclamation, in which he stated that "he did not see that we had much to be thankful for," and his Message to the City Government, recommending the secession of N. Y. City, "assured that we shall receive cordial sympathy and support from our sister cities of the South."

In many respects Fernando Wood has been an excellent Mayor;—energetic and capable, unswerving in his purposes, he has advanced the interests of the city, taking care that his own kept company. As for his honesty it is not over-nice, but few expect that Mr. Opdyke will prove any more scrupulous than his predecessor.

The greatest advantage in the success of the former is the change. Let any man continue in the same office for as long a period as Wood has occupied the Mayoralty and the people get cloyed with both him and his ideas. But he is not "dead yet," but endowed as he undeniably is with superior talents, and seeking political advancement, with no scruples as to the means of its attainment, coming years may call upon us to add to our record of Senators and Representatives; to our list of Presidents even, the name of Fernando Wood.

NEWINGTON.

☞ Willmer & Smith's (Liverpool) European Times says that "a very sudden and gratifying change has come over the public mind during the last fortnight relative to the misunderstanding which has arisen between the Governments of Great Britain and the United States." This change it says is due to the sobering effect of Prince Albert's death, to the President's message, and M. Thouvenel's dispatch.

RAREY is in Madrid, performing in white kids, dress coat, and beautiful apparel, before Queen Isabella, and also challenging the bull-fighters to tame bulls with him, he using his strap and they their ring weapons.

Tacitus says:—"In the early ages man lived a life of innocence and simplicity."—On this a critic remarks, "When was this period of innocence and simplicity? The first woman went astray. The first man that was born into the world killed the second. When did the simplicity begin?"

AT CONCORD.—We don't care to extend our "Editorial Notes" much, and will only say that the Horse Guards' Ball was exceedingly well managed, in all departments, and that great credit is due to the Committee, especially to Adj. J. B. Sanborn, for their unwearied exertions. Commissary Dumas (of the Phenix Hotel,) also spared no effort or expense to make the affair a success—and all concerned had the satisfaction of knowing that it was completely successful.

Mr. Bruce, also, the clerk of the Phenix, whose watchful vigilance "never sleeps," that we can see—and the other employees of the establishment, did their best to accommodate the rush of guests.—Every hotel in Concord was crowded on the occasion of the State Convention, &c. The Rockingham County delegation went to the depot on Wednesday afternoon, but concluded not to go home that night—as the last cars had been *gone* about ten minutes!

At the Ball, besides the ladies who have been already initialed in the reports, were Miss S. and Miss C., both recently living in Portsmouth, but now of Concord; and who, dressed in white, (as were by far the larger portion of the ladies present,—though nearly all these were trimmed with pink, and only one with blue, and that not tasteful,) we were glad to claim as additional "fair" representatives of the beauty of our good city.

Concerning the belleship, the Traveller man ventures:

"With a few exceptions the dresses of the ladies were not so elegant as those worn last season. Some of the ladies excused their plain, simple style of toilettes by attributing it to the effect of the war. Many of the ladies were exceedingly pretty, and in their movements exhibited considerable grace. Of the belles it will not, perhaps, be inappropiate to say that Miss H., of Portsmouth, was considered by all as the most attractive of the many lovely ladies present. Miss E., of Manchester, was also greatly admired for elegance of dress and exquisite grace in the dance.

Your own correspondent has also been rash enough to declare *his* admiration for the lovely Miss O. of Concord; while our discreet friend of the Post, after acknowledging that

"Such billows of gauze and surges of muslin and laces; such richness of silks and gaudiness of satins; such sweets of flowers; such ravishing necks, and much else of a kindred nature; was truly a spectacle to look upon, admire, and get poetically enthusiastic over,"

very cautiously says:

"The honor of the belleship of the ball was divided *between* a keen eyed, sweet-tongued and sylphian 22 of Portsmouth, and a black-eyed, swan-necked impulsive 18 of Concord. Judgments and opinions oscillated from one to the other, and to both was finally awarded the honor. There were some half dozen others that would have risen to a belleship in the general run of belles. New Hampshire could, without affecting its supply, stock the Union with these earthly divinities."

Next morning, Thursday, all hands were on board the early train for Portsmouth, except one *little* fellow who stood over to find his *great*-coat, which he accused some of the H. G.'s of hooking. Perhaps they did, but as we saw the doughty Captain with it on next day, we infer the borrower couldn't keep it about him, and so returned it.

We will conclude our rambling Notes, by saying that the new branch road to Manchester runs through beautiful scenery; and will, another season, conduce no less to the rural attractions of travel in this whole region, than to its material prosperity.

A duel was fought one day last week near Yorktown, Va., between a Lieut. Jones, of the 5th Lousiana regiment, and Dr. Forward, the sutler of the same regiment, which resulted in the death of both upon the first fire. The duel was fought with rifles, at forty paces.—*Ex.*

That's the way to fight a duel, or a battle, if you are going to fight one at all. Not fire six shots, hit nobody, and then apologize—not fire three rounds or three hours over the heads of your enemies, then both turn tail and run—"nobody killed and nobody hurt." It may be good fun for those engaged in it, but the people don't want to pay the awful bills this sort of game is costing.

☞ D. U. Martin, the wherry and berry man, is now mining in California, and subsists almost entirely on grapes and apples. The same fruits formed his diet on his sea-voyage from here to the Isthmus, and bananas and oranges on the Pacific side.—He had a rough passage out, but was not sea sick. Mr. Martin is of opinion that it is not the eating of tropical fruits that produces fatal effects in warm climates, but the drinking of poisonous liquors.

☞ The privateer Sumter has been again heard from. The State department has information that she was in the harbor of St. Pierre, Martinique, on the 22d of December, and the United States steamer Iroquois, which had followed her up, was one league off the harbor awaiting for her to again come out.

☞ Peterson's Magazine for February is just out. A capital number of the best $2 Magazine published.

THE REBELLION.

A party of Col Jennison's regiment at Walden, Mo., made a descent in the neighborhood where the Government wagons were burnt and fired the houses of the most prominent rebels engaged in that affair, as well as in the attack on Maj. Hough's command. On the 8th, Majs. Terrence and Hubbard, with 450 troops, attacked he notorious rebel, Poindexter, with 1000 to 1300 men on Silver Creek, Howard Co., Mo., totally routing them, with a loss of 7 left on the field and many more carried off, and from 50 to 75 wounded and 30 prisoners. Our loss was 4. The rebel camp was destroyed, and a large number of horses and teams were taken.

It is reported, and believed that Gen. Jackson has made his appearance before Romney, Va., with the intention of making an attack on Gen Kelly.

The expedition down the Mississippi has commenced moving. It is understood that Gens. Paine and McClernard will be in command of the forces from Cairo and Bird's Point, and Gens. Smith and Wallace of those from Paducah. The troops will ascend the Tennessee river some distance, but the final destination is not known. A considerable body of cavalry will start at the same time from Bird's Point and proceed through Kentucky, joining our army at the point of debarkation on the Tennessee river.

Advices from Port Royal, 6th, say our force at Tybee Island has been increased 3000 from Port Royal. Fort Pulaski kept firing, and one private had been killed. A skirmish took place between part of Gen. Stevens' force on the main land and the rebels, on the 5th, resulting in serious loss to the rebels, besides 7 prisoners. Gen. Sherman sent 3500 men to reinforce Gen. Stevens to make active operations on the Railroad between Savannah and Charleston, and had severely censured Gen. Sherman for his want of activity. Reinforcements are daily arriving at Port Royal, and all the troops are in good health and eager for a fight.

One of the proprietors of the Louisville Democrat says the second rebel invasion of Kentucky ended in a digraceful rout. On Monday last Col. Garfield's forces were met at Painsville, within seven miles of the rebels' camp, by a flag of truce from Humphrey Marshall, asking if matters could not be arranged without a fight. He replied "no arrangement, except a fight or an unconditional surrender!" Marshall then told his men they had the alternative to surrender or to disband. They decided to disband and sent for their tents, baggage, supplies, etc. Then each man looked out for himself, and the whole force scattered in confusion. No attempt was made to save anything except their cannon. Col. G. sent his cavalry in pursuit, and expected to capture the guns, and perhaps some of the rebels. If this story is true, the rebels have had their last sneer at Bull Run.

The rebels at Norfolk were making great preparations last week, in anticipation of an attack by Gen. Burnside.

WOODEN SHOES.—A firm in Raleigh, N. C., have a large manufactory of wooden soled shoes, employing thirty hands, and are turning out about one hundred pairs of shoes per day. The shape of the shoe is first marked and sawed out, then it is bored and scooped out and fashioned at the bottom, sand papered, lined, painted, topped with leather, and finished in various rooms in the same building. Most of this work is done by machinery driven by steam.

The wood is gum and poplar, which is well steamed before the shoe is made.—These shoes are actually lighter than the leather brogan of the same number, and as for durability, the bottoms will last until the next war.

Wooden shoes are worn in the northern part of Europe, and in some localities in this country; but we suppose this is the first manufactory of the sort by machinery and steam, which has been established.

☞ The Boston Courier says the statements in the Transcript that Gen. Butler's Expedition had been broken up, that the steamer Constitution had been discharged from commission, and that the troops "hailed their deliverance with joy," were entirely without foundation in fact. The delay is only temporary, and is not caused by the refusal of the Governor to commission the officers.

The Boston Journal, Saturday evening, however says:—"The gun-boat Sazon is taking Col. French's regiment from the steamship Constitution to Fort Independence. Col. Shepley's regiment (Maine 12th) will leave for Camp Chase, Lowell, Sunday at nine o'clock, arrangements having been made for a special train at that time. The steamship will then probably go to New York to transport troops to some point at no great distance, after which we may expect to see her again in our harbor with sailing orders."

☞ Lieut. Fairfax authorizes an emphatic denial of the assertion of foolish Commander Williams that Miss Slidell used her "little knuckles" on his face.

CONGRESS.—In the Senate Friday, Messrs. Waldo P. Johnson and Trusten Polk, Senators from Missouri, having joined the rebels, were expelled by a unanimous vote. The papers in the case of Mr. Stark of Oregon were referred to the Committee on the Judiciary. The remainder of the session was spent in discussing the bill for the regulation of the office of sutler in the army.

In the House, a communication was received from the Secretary of War, in response to the resolution making certain inquiries in relation to the battle of Ball's Bluff. The Secretary states that it would not be compatible with the public interest to give the information asked for. In Committee of the Whole on the Civil and Diplomatic Appropriation bill, an appropriation of $100,000 for printing treasury notes was stricken out, on the ground of the excessive prices agreed upon in the contract for printing. When the amendment was reported to the House, Mr. Stevens demanded the yeas and nays on the question, affirming that the Secretary of the Treasury would feel compelled to resign if the appropriation were refused. Without taking the question, the House adjourned to Monday.

STATE PROVISION FOR TROOPS.—The Vermont troops in the army of the Potomac are to be envied of all their fellow soldiers. Their State has opened a bank account with each one of them, and regularly passes to his credit $7 a month. This sum may be checked for by the volunteer, if he is a single man. If married it is paid to his family. If permitted to remain undrawn in the State Treasury for six months, the rate of six per cent. is allowed on it. Vermont Volunteers are thus paid $13 a month by the national Government, and $7 a month by their State, making $20 a month pay in addition to their clothing and rations. It is gratifying to know that the Vermont volunteers are generally a class of men who take care of their money. —*Exchange.*

Special Notices.

TRUTH IS MIGHTY and always prevails; tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the fact that a practice that has long been considered "regular." A case of these Curatives for family use are getting to be almost as common as bubble in a home, and every family should have one.—a case of medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq.; and corner State and Pleasant Sts., Portsmouth; M. S. BURR & Co., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me; or sent anywhere by

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28dawjm

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is felt in its superiority by those who have given it a fair and impartial trial.

☞ Upton & Preston's Minstrel Troupe, of Salem, Mass., who gave three concerts in Portsmouth a week ago, (under the management of one Wilson, alias George Henderson, of Portland,—a poor scamp who defrauded them and others,) are an excellent band of six or seven performers, part of whom belong to the Salem Band. They are capital singers, and get up a good deal of fun—and altogether we consider them the best troupe of the size we over heard. We understand they are to sing here again by and bye, when Frank Kent will appear with them—the Ella Zoyara of the stage, concerning whom none can tell whether *he* is a woman, or *she* is a man. The Dog Carlo delighted all, with his wonderful tricks. We shall be glad to see them all again.

AT THEIR OLD TRICKS.—We notice by the Boston papers, that our old friends and patrons, Messrs. Allen & Paine, who learnt the trade of advertising in Portsmouth, and mainly in the Chronicle—still keep up the habit which they found to pay so well here. Not only do they advertise their own leading wholesale cloak house extensively, but they also do the same for a large branch retail store; and now we see that Stillman (that name is a misname, for he can't keep still, anyhow,) we see that S. B. Allen, Esq., advertises his own law and collection office extensively. He told us, when he took the fine rooms on Court Square, that he should spend a couple of thousand dollars or so, in advertising his collection agency—that no investment had ever paid their house so well as liberal advertising; and that they should increase it. They have found that it is not wise to spend more for store-rent than for advertising.

☞ Our friend B. P. Shillaber, Esq., of the Boston Saturday Evening Gazette, delivered a lecture on "Fun" before the Young Men's Lyceum at Kittery on Thursday evening last. It is, perhaps, the most difficult thing in the world to write about fun and be funny, but Shillaber, having enjoyed the confidence of Mrs. Partington to a profitable degree, and studied human nature, as exemplified by "Ike," to a remarkable degree, like the wheel-barrow man carried all before him, and poked fun at the audience in a manner that was perfectly irresistible.

☞ The first lecture of Rev. Mr. Lord's course will be delivered at Hanover street Chapel to-morrow, Tuesday, evening.—This course has been referred to in the most eulogistic terms by the newspapers in the cities in which it has been delivered, and our citizens are fortunate in having an opportunity to hear it.

☞ At the Democratic Senatorial Convention, holden at Hampton, Thursday, Thomas G. Furber of Newington was nominated as candidate for Senator.

Another day of "words, words, words," in Congress, and nothing done. The Ball Bluff disaster, the Trent affair, West Point, the negro—everything is discussed but the finances of the nation, the only real question now before the country. There is a tempest brewing for these "spouting wretches," as Carlyle once called a similar class in England, who consumed the time of Congress which should be given to the gravest practical problems that ever taxed the brains of statesmen and financiers.—*New York World.*

☞ Persons who a year ago invested in the 12 per cent. Government loan, having one year to run, made a profitable bargain, as the notes now overdue are paid in coin, which commands such a premium that they obtain 16 per cent. as a year's interest on their funds.

Remember that we are not waging war for the establishment of a new form of government upon the ruins of one fallen and destroyed, nor for a change of government, but to preserve and transmit unimpaired to those who are to come after us, one with which we are all satisfied. Our war cry is the old flag—the old constitution—the old nationality.

——The Seventh Regiment, at Manchester, received orders Thursday to leave for Washington immediately. It will start the first of this week.

NEW HAMPSHIRE ITEMS.

——Samuel H. Gilman is a Captain in the Confederate army; Benjamin Gilman, his brother, is a Lieut. in the Union army. They are natives of the town of Tamworth, being sons of the late Jonathan C. Gilman, and descendants of the late Rev. Samuel Hidden formerly of T.

——Dr. Perry's annual Bill of Mortality states the number of deaths in Exeter in 1861 at 58—29 males, and 29 females. There were 14 deaths from consumption, and 5 of old age. The average age of the deceased was 45.

——On the morning of the 2d inst., at about half past two o'clock, the house of Mr. John A. Wakefield at Chesterfield Factory village, was discovered to be on fire. The wind was blowing a gale, and so rapid was the spread of the flames, that it was with difficulty the inmates escaped with their lives, both Mr. and Mrs. Wakefield being severely burned. The Keene Sentinel says it was a fearful sight—the fire leaped from object to object, the trees in the vicinity having the appearance of a burning forest. It is supposed the fire took from ashes placed in the wood-house.—There was no insurance.

——The Ballot says the pupils of one the Grammar schools in Exeter, to the number of thirty or more, accompanied by their teacher, Mr. E. Gerrish, on Monday last took a sleighride to Portsmouth and the navy yard. The sleighing was excellent, and although the air was rather keen, the boys enjoyed the ride exceedingly.

☞ A dispatch from Portland, Jan. 11, says steamship Hibernia, from Liverpool Jan. 2d, will go there first, and land her mails and passengers and then proceed to St. John. Mr. Seward has telegraphed that British troops may be landed there and conveyed to Canada or elsewhere.

The Portland Courier, a few days since, said if British troops were allowed to pass through that city, the people wouldn't say anything "but they'd keep up a de'il of a thinking."

☞ The World's Washington dispatch says there is immense activity in every military department and although a movement on the Potomac is not expected immediately, events may make a march on Centreville a military necessity.

☞ The Tribune's Washington dispatch says the Committee on Ways and Means have agreed to impose a tax upon railroad passengers of one-fourth of a cent per mile.

NOTICE TO ADVERTISERS.—The notices of yearly advertisers in the Daily Chronicle, are also inserted in the Weekly *once*, without extra charge; but subsequent Weekly insertions must be paid for, if ordered.

☞ Having made arrangements for furnishing good custom-made BOOTS and SHOES for the people; also for all kinds of repairing in the same line, an invitation is extended to all who are in need of something good to wear to call at No. 6 MARKET SQUARE. D. R. AMBROSE.

☞ See a woman, in another column, picking Sambucci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y

THE PATENT
FOUNTAIN HAIR-BRUSH.
In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economizing Preparations for the Hair.*
THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.
To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—
It dresses the hair without soiling the fingers; it effects a saving of one-half the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
75 State Street, opposite Kilby Street,
BOSTON,
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching said name. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H Eddy has made for me THIRTEEN applications, for all but one of which patents have been granted, and that is *now pending*. Such unimpeachable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

HISTORICAL LECTURES
—OF—
GREAT REPRESENTATIVE WOMEN.
THE REV. JOHN LORD
WILL deliver a Course of FIVE LECTURES in the Chapel in Hanover Street,
Commencing TUESDAY Evening, January 14th,
At 7½ o'clock, and continue weekly.
These Lectures are intended to give a History of the successive developments in the condition of Woman since the introduction of Christianity, and her relative position in different ages, with a view of tracing the progress of her elevation.
SUBJECTS:
Lec. 1. Jan. 14—PAULA—The Roman Matron—Friendship.
" 2. " 21.—HELOISE—The Mediæval Woman—Love.
" 3. " 28.—ELIZABETH—Woman as a Sovereign.
" 4. Feb. 4.—MADAME DE MAINTENON—The Woman of Society.
" 5. " 5.—MADAME DE STAEL.—The Literary Woman.
Tickets for the Course, $1.00. Single admission, 25 Cents. For sale by J. H. Thacher, N. P. Thacher, J. H. Foster and J. F. Shores, Jr.
This Course of Lectures was given to large and cultivated audiences in New-York, Brooklyn, Philadelphia, Baltimore, Washington, Troy, and Providence—also to the Colleges of Dartmouth, Amherst, Williams, Bowdoin and Yale, and has generally received very complimentary notices from the Press.
From the Philadelphia Inquirer, April, 1861.
The Hall of the University has been thronged, during the delivery of this series, with cultivated audiences; and Mr. Lord has fully established a claim to hold the highest rank as a popular elucidator of the facts and philosophy of History. His manner is marked by a dignified simplicity of style, picturesque in the grouping of persons and incidents, without any straying after rhetorical embellishment.
The undersigned, citizens of New-York, remembering with pleasure the Lectures which the Rev. JOHN LORD has, at different times, given in this city, hereby request him to deliver part of his New Course on Representative women, designed to present the successive stages in the progress of Woman's condition since the introduction of Christianity.

of a host of talented Writers at home, and intelligent Correspondents abroad, comprising the more varied and interesting topics of discussion upon National Subjects, Literary Matters, Commercial Affairs, the Arts, Sciences, &c.,
No pains nor expense are spared to make its Editorial and Reportorial departments, and its home and foreign correspondence equal in all respects to the demands of the age. The aim of all those connected with the paper is to make it a first-class, high-toned newspaper, that shall ever be a welcome, genial and trusted visitor to the homes of men of all creeds and parties. While the news of the day, and its due prominence, the columns of the paper contain a great variety of articles on current topics of general interest, and all public questions are discussed in an independent and candid manner. The *Transcript* has many literary friends who make it their chosen vehicle of communication with the public, and whose contributions add much to its other attractions. In a word, this paper will labor heartily to cherish the interests of literature and science; countenance and inculcate the principles of humanity and general benevolence, public and private charity; good humor and all social affections and generous sentiments among the people."

HOUSE-KEEPERS, TAKE NOTICE!

Please Call at No. 12 Market St.,

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tube of any thickness, and can be easily detached and set aside.

No House should be without one.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system disranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obnoxious humors which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding parts, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in regard to the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and to her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

YOUR Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR REV. AYER: I cannot answer you what complaints I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Quarter Session.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. My patients in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the public.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

DR.: I have used your Pills in my general and hospital practice ever since you made them, and cheerfully bear witness to the efficacy of the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Externally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I could then in esteem as very of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their mild purgative action makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

TOO much cannot be said of your Pills for the cure of costiveness. If others of our fellow-citizens have found as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe our diseases to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very efficacious to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic spasms, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your resident agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the direful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

☞ 100, 25 cents per Box, or 5 Boxes for $1.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquor and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Advertising.
For a Square (14 inches) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $3, three months $5, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.
Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.
Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in the city and vicinity, and throughout the State. ☞ Liberal terms for yearly advertising.

☞ The N. Y. Tribune publishes a letter from a distinguished Englishman, formerly a member of Parliament, which shows how public opinion has been manufactured across the water, and what extraordinary inducements have been held out by Davis & Co., to gain supporters; we append the following extract:

"Long before secession was an accomplished fact, the press of England had been tampered with by the emissaries your disunion party.—Men had been industriously at work to prepare the way for the speedy recognition of the independence of the Cotton States. The programme of Jefferson Davis and his co conspirators had been made known, and arguments supplied wherewith it might be supported. Men here were already supplied with their briefs and their retaining fees. The simultaneous rising of the Free States, and the improvisation of an immense army of loyal men, greatly disconcerted the machinations of Yancey, Mann, and their corrupt tools, and necessitated the adoption of a different course of action; but they are still active, and the plunder of the Sub-Treasuries of the South still holds out, and is freely distributed among those who are base enough to be instruments of the worst of traitors and vilest of despots."

☞ Parchment is to be discarded by Congress. Heretofore it has been the practice to have all acts of Congress enrolled on skins of parchment before they were signed, which takes some time, and causes a deal of unnecessary delay at the close of the session. Senator Sumner has introduced a bill dispensing with this relic of feudal customs, and providing for the simple copying of acts in a fair hand on linen paper, which will be for easier to preserve for reference than are the cumbersome rolls of parchment, upon which the laws and resolutions of Congress have been engrossed ever since the foundation of the government.

TOBACCO PROSCRIBED AND BRANDY TO BE PERSECUTED.—The French Government has imposed an additional tax upon tobacco, raising the revenue from this one source to six millions of dollars more than was raised on the former rates of duty. It is said, also, that brandies, now paying twenty five cents per quart, are hereafter to be charged more than double that amount for the benefit of the National Treasury. Louis Napoleon has declared himself an enemy of tobacco, though unable to release himself from its pernicious charms. He is said to be on the eve of taking the most strenuous measures against smoking in the schools and colleges, where it seems the use of tobacco has been carried to a great excess, to the very serious detriment of the health of the boys. It is said many lads smoke eight, ten and twenty cigars a day. Cigar smoking killed count d'Orsay; it has threatened the Emperor Napoleon seriously with disease of the spine (he smokes twenty cigars a day); and it is also said to have been the cause of Cavaignac's death, and to have killed Lord Seymour.—*English Paper.*

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints
Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no admixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JANUARY 14, 1862.

For the Chronicle.

THE PUBLIC FINANCES.—*New Plan Proposed.*—The report of the Hon. S. P. CHASE, Sec. of the Treasury, on the public finances, is a very able state paper, evincing profound knowledge of the subject. The war expenses are so large that it is expedient to adopt a new financial plan.—The principal features of the plan he recommends, are 1st, a circulation of notes bearing a common impress on and authenticated by a common authority. 2d, the redemption of these notes by the associations and institutions to which they may be delivered for issue; and 3d, the security of that redemption by the pledge of the United States stocks, and an adequate provision of specie.

The report assigns very strong reasons in favor of such an institution well deserving the consideration of Congress. We see no reason why government notes, in other words treasury notes, may not be issued sufficient, at the least, for the present exigencies. Perhaps the Secretary's plan may be modified a little, and rendered still more simple. Congress may pass a bill authorizing the issue of treasury notes to any amount required under the present posture of our public affairs, and requiring the revenue from customs to be paid in specie, for the redemption of the notes. The war has been the means of largely reducing the impost duties, but we think that thirty or forty millions annually paid and deposited in the public Treasury would be sufficient for the redemption of the notes. That amount would constitute a specie basis more secure than that of half, if not more, of the State Banks in the Union. Besides, the whole nation would be responsible for the ultimate redemption of the notes—for it would be a *national institution*, the *public faith* being *pledged* for the redemption of the notes.—The government officers, having the management of it, would be the *agents* of the people. Who would question the public faith of this nation of such vast resources and annual products? It is a State bank doctrine that the wider the circulation of the notes, the less frequent would be the demand for specie. These treasury notes would have a circulation, so far as the Union extended, uniform and equivalent to specie, and therefore there would be less demand for specie. The effect would be to retain a larger amount of specie in this country, and should the experiment prove successful, the notes would probably be receivable for foreign merchandize. We would no longer be subject to the fluctuations, insolvency, speculations, &c. of the paper of State banks, which often issue bills to ten or fifteen times the amount of specie in their vaults; and the stockholders realize a vast amount for interest on their paper issues. The adoption of the proposed plan would force the paper issues of at least irresponsible or insolvent State banks out of the market and greatly relieve the people from the payment of large interest on discounts and exchanges. It may be objected that too large an amount of specie currency would accumulate in the National Treasury—but the objection may be obviated by an authority to pay, in such case, any overplus of the specie to the public creditors. For the convenience of the public creditors, authority may be given to establish branches of the national institution in some of our largest cities, where the notes may be exchanged for specie on demand.

It will be perceived that the plan now proposed by the Secretary of Treasury, or the modification of it, differs wholly from the Bank of England or any of our State banks. Its simplicity can be no radical objection to it. The public faith being pledged for the ultimate redemption of the notes there could be no insolvency, unless the *nation* should become insolvent. Should the annual receipts of specie become insufficient, a resort may be had to a direct tax and excise duties. The Secretary says that "the large amount of specie (constantly increasing) now in the United States, reaching a total of not less than two hundred and seventy-five millions of dollars, will easily support payment of duties in coin, while these payments and ordinary demands will aid in retaining this specie in the country as a solid basis both of circulation and loans."—About thirty years ago the whole amount of specie in the country was estimated at thirty one millions. Many other reasons may be assigned in support of the plan.

PRO PATRIA.

☞ Mrs. Gaines, whose celebrated lawsuit against the city of New Orleans was decided in the Supreme Court just before the secession of Louisiana, has received permission to cross the lines to New Orleans via Fortress Monroe and Norfolk.

☞ It is proposed to introduce into the public schools of New York some method of instruction in the elements of military science.

THE FINANCES.—The newspapers and money-cliques are frightening the people about the financial condition of the Government. They are alarmed at the idea that by the time the war is ended we shall have a national debt of $1,000,000,000, and they propose to stop the wheels of Government, in the midst of war, to investigate frauds in army and navy contracts. A sensible and cool writer in the Boston Post remarks:—

"That frauds have been committed and money squandered, all the world knows, and all the world knows that such things have always been done and always will be done in all countries, under like circumstances. In England the frauds committed by contractors during the Crimean war were frightful, and in the provisioning most atrocious. Nobody expects that strict economy and rigid accountability can be practical in such an emergency as our country was so suddenly and unexpectedly thrown into. And after all, these small or large losses are of very little importance in comparison with the great object at stake, the preservation of the Union. This secured, the prosperity in all branches of industry which will spring up in a degree unexampled, even in this country, will enable us to bear any taxation that may be required, and it will be loyally and cheerfully paid."

UNITY BUT NOT UNION.—The Keene Sentinel said, some weeks ago:

"The town of Unity is said to be a disunion nest, containing over 100 secession rebels, who have formed a company and threaten to resist taxation and drafting for war purposes."

As we have seen no contradiction of this, we suppose it true.

Unity is a town in Sullivan county, fifty miles west of Concord, containing in 1850, 961 inhabitants; in 1820 there were 1230. In 1860 it gave Gov. Goodwin 54 votes, and Mr. Cate 151; in 1861 it gave Gov. Berry 56, and Col. Stark 128, and rent Lyman Rosseville as Representative.

☞ A difference of opinion shows itself in Congress, on the expediency of enlarging the number of Cadets at West Point: and it appears most probable that no enlargement will be made.

It is a costly institution; and has its uses, and abuses also. It has furnished officers for our own army, and for the *rebels* also.

It is a remarkable fact, that while well paid *officers*, both in the Army and Navy, have gone into the rebellion, in great numbers, very *few* soldiers, and we believe *no* sailors have done so.

This looks, says Uncle Toby, as if it would be *better* to promote men from the *forecastle* and the *ranks*, than it is to educate and pay an aristocracy of officers, to turn traitors.

☞ If you wish to understand politics, says Uncle Toby, read the Money Articles in the papers of great cities.

The Boston Post's money article of Saturday afternoon, says,—

The week closed with a strong stock market, both at auction and the board.

Bank specie, $8,614,000. The Boston banks were unanimous to protect the U. S. demand notes until the requisite enactment is obtained from Congress. This happens in a few days, and we are assured that everything is in progress to furnish adequate means to the Treasury on the basis of thorough taxation.

Brokers' offices have not had such a busy appearance since 1857, with this difference, that visitors now come loaded with specie, while then paper was pressed for sale.

The demand for gold or sterling is very slack in Boston. Money is quiet and abundant, and the general feeling strong, easy and confident. No one would think it was war time, from the prices of sound investments.

☞ A few weeks ago two or three little girls of Salem, Mass., not more than six years of age, having relatives and friends in the army, expressed a wish to do something for the soldiers; and of their own free will, and by their own proposition, set on foot a Fair to raise money for this purpose. They gathered their materials, prepared their articles, and arranged their Fair, which was in due time holden, and with such success that the proceeds realized amounted to between *sixty and seventy dollars!*

☞ Washington dispatches report that the State Department is in receipt of a dispatch from the Austrian Minister, Count Rechberg, touching the seizure of Mason and Slidell. Austria kindly but positively, and without entering into the argument, declares the proceedings not in accordance with international law. No other continental Power, except France, has spoken, but similar dispatches from Prussia and Russia are looked for by an early steamer.

☞ A Government sale of Sea Island Cotton, confiscated by the National forces in South Carolina, was made at New York on Saturday. There were, in all, seventy-three bales sold, weighing about 25,700 pounds. The prices paid varied from 63 1-2 cents for the ginned, down to 18 cents for unginned. The total proceeds of the sale were $14,231 12.

☞ A Correspondent from Paducah, of the 5th, complains bitterly of the treatment of the Union men there by the Federal General Smith, and demands his immediate removal.

NEW HAMPSHIRE ITEMS.

—— The Mirror says a child of Mr. Solomon Avery of North Lyndeboro', was left alone a short time, and his clothes took fire; he put on his cap, went to a neighbor's, some rods distant, and told them he had got burnt dreadfully; the flames were then doing their fatal work, burning underneath his outer garments, and, although they were immediately extinguished he died in about twenty-four hours. He was an only son, a bright little fellow, and retained his reason to the last.

—— Miss Sarah F. Wilson, 17 years of age, employed in the Manchester Mills, committed suicide on Thursday night, by drowning in the canal. The cause that induced her to commit the rash act was the death of a soldier in the N. H. 4th regiment.

—— The wife of Thomas W. Baldwin, in Hollis, was accidentally shot, Dec. 6, with a pistol in the hands of a son of Mr. Franklin Hayden, aged four years. The ball struck her in the leg, near the knee, and went nearly through it. About twenty days after, amputation of the leg was performed, but she survived only a short time, and died on the 26th of December.

—— The Canterbury Society of Shakers intend to exhibit one of their excellent washing-machines at the World's Fair, in London.

—— The store of W. M. Weed, Esq., of Sandwich, Clerk of the Courts for Carroll County, was burnt on Monday night last, and a large portion of the records and files of the Court destroyed.

—— Mr. Abraham Perkins, of Laconia, died of small pox in the infected district near the lake, three or four days since. No new cases have occurred.

—— On the 29th ult., the dwelling house of J. F. Keyes, Esq., in Holderness, was partially consumed by fire. The alarm was given while the family were at a funeral. Men worked bravely, and the ladies, with bare hands, shoveled snow, and passed water to the men on the roof, without which the building could not have been saved. The damage is estimated at $1500. Insured in the Gilmanton Company.

—— Edward Sawyer, Esq., of Dover, has been appointed cashier of the Merrimack County Bank in Concord, in place of J. C. A. Wingate, Esq., resigned in consequence of protracted prostration from sickness.

—— A trotting match took place at Island Pond, on Thursday, on the Massabesic, near Manchester, between the two year-old colts belonging to John Stewart of Boston, Mass., and John M. Taggart of Goffstown; heats, mile and repeat, for $500. The Mirror says everything conspired to draw a crowd, as the Benecia Boy, the victor of the great English pugilist was there, and the most renowned reinsman of the country, Hiram Woodruff, and the Right Bower of the New England trots, Dan Mace, were to engineer the colts over the icy surface of the Massabesic. At a little past noon a delegation arrived from Boston in an extra train and by 2 o'clock all the powers of equine locomotion were put to their utmost test; all the sleighs, hacks, coaches, big teams, job sleds, and even common wood sleds being on the road to the Pond. Spectators came from all the neighboring towns in private conveyances. The Mirror insinuates that many even among their staid and proper people, whose morality is unquestioned, evinced the live best interest in the race, and the greatest anxiety to see the hero of the P. R. The match was won by Taggart's colt, 3.03 being the best time. He is said to be the fastest animal of his age in the country.

☞ Col. Colt, the celebrated revolving arms manufacturer, died at his residence in Hartford, Conn., on Friday, of paralysis of the brain. His health has been very precarious for over a year. Few men have had a more eventful history, or have played the game of life with greater success than he. It is but a few years, comparatively, since he commenced the manufacture of his revolving pistols with a capital not exceeding $5000. He had at the time of his death over a million dollars invested in the buildings and machinery forming his establishment at Hartford, and his business the past year was immense.

NAVAL.—The U. S. Sloop-of-war John Adams arrived at New York Sunday, from China, on which station she has been cruising for a number of years.

The new steam frigate Pensacola, which has been for several months at the Washington Navy Yard, went down the river on Saturday, passing the rebel batteries on the banks without receiving the least damage.

☞ Cannel coal has been discovered at Crab Orchard, Ky., by the troops there, and the inhabitants are astonished at it.—One man said that several years ago he had dug a well on an adjoining farm, through the "same sort of stuff," but it had never occurred to him that it was cannel coal.

A cotemporary has been studying fonotophy. Here is a specimen: "Wat kant be qrd must b ndurd."

THE REBELLION.

Rumors prevail at Lebanon, Ky., that the Federal troops have taken two steamers, proceeding up the Cumberland River, with munitions of war, clothing and provisions for Zollicoffer's forces.

Saturday morning three rebel gunboats from Columbus attacked our gunboats, the Essex and St. Louis, lying off Fort Jefferson. A brisk engagement ensued for a short time, when the rebels retreated, and one of the rebel's boats was disabled.

The Coast Survey bureau has detailed one of its most efficient officers to accompany Gen Burnside's expedition.

The N. Y. Herald's dispatch says a grand Irish Division is to be formed under Major General Shields, the brigades to be commanded by Meagher, Mulligan, Cass, and Corcoran.

The rebel army under Gen. Jackson are in and around Bath, Va., and burnt a gristmill and some other buildings, Saturday.

A transport at New York from Baltimore reports passed, 11th, off Cove Point a portion of Gen. Burnside's expedition, bound South.

The recent order to disembark the troops having been countermanded, the steamer Constitution with troops attached to Gen. Butler's expedition, finally sailed from Boston at 7 o'clock Monday morning.

☞ Zollicoffer is called the Nena Sahib of Kentucky. His men shoot the farmers, steal the cattle, burn the houses and ravish the women in the border counties in an unparalleled manner.

☞ It was reported and generally believed in Washington, on Monday, that Sec. Cameron has resigned, that Edward M. Stanton will take his place, and that Mr. Cameron will be appointed Minister to Russia.

☞ A bill is before the House Committee on Military Affairs, providing for the construction of a new railway from Washington to New York, the rates of fare to be low, and the bonds guarantied by Congress.

A story is told of a person asking another one whether he would advise him to lend a certain friend money. "No! you might lend him an emetic, and he would'nt return it," was the advice.

Special Notices.

TRUTH IS MIGHTY and always prevails, the it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahnemann, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. TIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one,—a case of medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq., and corner State and Pleasant sts., Portsmouth; M. S. Burr & Co., Wilcox, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me.; or sent anywhere by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Low ness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28dawsm

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity, has met with a great degree of success, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

☞ We understand that the pay of "mechanics" at the Portsmouth Navy Yard has been reduced twenty five cents per day for all grades. The pay of the "laborers" has not been reduced so much as was anticipated—the reduction being twelve and a half cents per day. They will now receive $1 and $1.12, according to grade. Minors, over nineteen years of age, are to receive $1 per day; under nineteen, 75 cents.—This new arrangement is to go into effect this, Tuesday, morning.

☞ One of the General Orders of the 4th N. H. Regiment, now at Port Royal, requires that the commissioned officers shall select from the corporals and privates of their companies, every week, four who have distinguished themselves most, for gentlemanly deportment, proficiency in drill, and attention to military duty—to be honorably mentioned. Corporal John W. Brewster of this city, was the first man selected from company B.

☞ We find the names of the following army officers, well known in this city, given in the published list of those who have been recommended to the Senate for promotion:—Lieut. Col. Justin Dimick to be Colonel; Capt. Amiel W. Whipple to be Major; Capt. William Austine to be Major; 1st Lieut. William A. Winder to be Captain; 1st Lieut. Edward J. Conner, of Exeter, to be Captain; 1st. Lieut. Joseph A. Potter, of Concord, to be Assistant Quartermaster with rank of Captain; 2d Lieut. Justin E. Dimick to be First Lieutenant; Joseph Godfrey, of Hampton Falls, to be an Assistant Quartermaster with the rank of Captain.

☞ The first lecture of Rev. Mr. Lord's admirable course will be given at Hanover st. Chapel this evening. See advertisement.

Some Hog.—There is now a hog in New York, city, at Tattersall's stables, which weighs 1380 pounds! He is 8 feet long, and 7 1-2 in girth—twenty months old.—He is to be raffled for in a few days.—*Wilkes' Spirit.*

A pretty good prize for whoever is lucky enough to get him—but not to be compared to the famous pacing and trotting horse Billy, which, (as will be seen by the advertisement in another column,) with several other good horses, carriages, harnesses, &c., are to be raffled for at Union Hall in this city, on Wednesday evening next.

☞ Among the most frequently *scissored* of our exchanges is the Manchester Mirror, and we always turn to its columns with pleasure, feeling assured that we shall be amply repaid for the time devoted to "looking it over." But we were perfectly overwhelmed on Monday, when we read the following rejoinder to an item which we wrote with less seriousness than some others in the same column:

The Portsmouth Chronicle claims credit for compilation from the New York Tribune of a list of New Hampshire soldiers imprisoned in Southern dungeons, published by us a few days since. It was scissored out hastily, and as the Tribune had the credit of the original, we did not consider it necessary to acknowledge the labors of the compiler. A glance at it now shows that the Chronicle was entitled to consideration. We make this acknowledgement cheerfully as we have noticed with pleasure the past year the increased labors of the Chronicle in condensing and collecting news, and are happy to say that we regard it as second to none of our New Hampshire journals in that particular.

☞ The excellent quartet choir of the Unitarian church in Newtonville, Mass., which has for a year or two been under direction of Mr. J. G. Tompson, jr., formerly conductor of music at the Episcopal Church in Portsmouth—on Tuesday evening of last week gave a concert at the Newtonville Church, complimentary to their soprano, Miss Louisa C. Davey. They were assisted by the Musical Society, under direction of Mr. F. J. Campbell, Prof. of Music at the Blind Asylum, a gentleman of fine musical abilities and attainments, though entirely blind.

The entertainment was pronounced one of the best ever given outside of Boston, and included music of a high order, as follows:

Quintette.—Choir "His Thee, Shallop." Kucken.
The May-bells and the Flowers Mendelssohn.
Piano Solo, Thalberg's "Sweet Home."
Kwait for the Lord—Choir, Mendelssohn.
Angel Trio—Lift thine eyes, from "Elijah;" "
The Wanderer, Schubert.
Bird Song, Fred. Gumbert.
May Song, Mendelssohn.
The Lord will comfort Zion.—Choir. Von Weber.
Speak! for thy servant hearth, F. J. Campbell.
Ave Maria Cherubini.
As the hart pants.—Choir. Mendelssohn.
Piano Duett,—Song without words Mendelssohn.
Serenade, Schubert.
Evening,—Musical Society. Kalliwoda.

Pecuniarily, also, the affair was quite successful—and the fair beneficiary received about $60 net proceeds.

☞ Francis H. Murdoch was arrested at Leicester, Mass., on Friday, on a charge of aiding the rebels. He was formerly a resident of Leicester, and has a brother there who manufactures cards for cotton mills, but has recently resided in Macon, Ga.—He has recently made several visits to Massachusetts, and it is alleged, has been engaged in the transportation of cards there.

☞ The Tribune Almanac and Political Register for 1862, contains a vast amount of curious and useful information, in the form of tables,—lists of the U. S. Government officers, and also of the Rebels, State and Nations. Published by the Tribune Association, New York City.

Brodhead M. E. Society.

A meeting of the Brodhead Church and Society will be held at the Methodist Chapel in Dunlap Street, on WEDNESDAY Evening, J n. 15th, at half past 7 o'clock, for special business.

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly

Notice to Subscribers.—The bulk of our readers desire their papers early; and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or spoiled by storms, unless they have a drop-box cut for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place within reach, always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and for information of any instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottle; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters appertaining thereto. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

HISTORICAL LECTURES

—ON—

GREAT REPRESENTATIVE WOMEN.

THE REV. JOHN LORD

Will deliver a Course of FIVE LECTURES in the **Chapel in Hanover Street,**

Commencing TUESDAY Evening, January 14th,

At 7½ o'clock, and continue weekly.

These Lectures are intended to give a History of the successive developments in the condition of Woman since the introduction of Christianity, and her relative position in different ages, with a view of tracing the progress of her elevation.

SUBJECTS:

Lec. 1. Jan. 14.—Paula.—The Roman Matron—Friendship.
" 2. " 21.—Heloise—The Mediæval Woman—Love.
" 3. " 28.—Elizabeth—Woman as a Sovereign.
" 4. Feb. 4.—Madame de Maintenon—The Woman of Society.
" 5. " 5.—Madame de Stael.—The Literary Woman.

Tickets for the Course, **$1.00.** Single admission, 25 Cents. Tickets by J. H. Thacher, N. P. Thacher, J. H. Foster and J. F. Shores, Jr.

This Course of Lectures was given to large and cultivated audiences in New-York, Brooklyn, Philadelphia, Baltimore, Washington, Troy, and Providence—also to the Colleges of Dartmouth, Amherst, Williams, Bowdoin and Yale, and has generally received very complimentary notices from the Press.

From the Philadelphia Inquirer, April, 1861.

The Hall of the University has been thronged, during the delivery of this series, with cultivated audiences; and Mr. Lord has fully established a claim to hold the highest rank as a popular elucidator of the facts and philosophy of History. His manner is marked by a dignified simplicity of style, picturesque in the grouping of persons and incidents, without any straying after rhetorical embellishment.

The undersigned, citizens of New-York, remembering with pleasure the Lectures which the Rev. JOHN LORD has, at different times, given in this city, hereby request him to deliver part of his New Course on Representative women, designed to present the successive stages in the progress of Woman's condition since the introduction of Christianity.

THE BOSTON TRANSCRIPT.

Daily and Weekly Editions.

OFFICE.....N. ENGLAND GRANITE BUILDING, Nos. 90 and 92 Washington Street, Boston.

The **DAILY EVENING TRANSCRIPT**, was established in 1830, and ever since that period (thirty-one years,) has enjoyed a large circulation in Boston and vicinity than any other journal. It contains **All the Foreign and Domestic Local News.** In addition to the News of the Day and General Miscellany, the columns of the Transcript are enriched by the

ORIGINAL CONTRIBUTIONS

of a host of talented Writers at home, and Intelligent Correspondents abroad, comprising the more varied and interesting topics of discussion upon National Subjects, Literary Matters, Commercial affairs, the Arts, Sciences, &c.,

No pains nor expense are spared to make its Editorial and Reportorial departments, and its home and foreign correspondence equal in all respects to the demands of the age. The aim of all these connected with the paper is to make it a first-class, high-toned newspaper, that shall ever be a welcome, genial and trusted visitor to the homes of men of all creeds and parties. While the news of the day has its due prominence, the columns of the paper contain a great variety of articles on current topics of general interest, and all public questions are discussed in an independent and candid manner. The *Transcript* has many warm friends who make it their chosen vehicle of communication with the public, and whose contributions add much to its other attractions. In a word, this paper will labor heartily to cherish the interests of literature and science; countenance and inculcate the principles of humanity and general benevolence, public and private charity; gratify humor and all social affections and generous sentiments among the people.

Terms, FIVE DOLLARS per annum, or *One Dollar Less than any other Subscription Daily published in Boston.*

THE BOSTON WEEKLY TRANSCRIPT

Is a good sized, handsomely printed paper, completely filled with twenty-eight columns of Reading Matter, having no advertisements. Its miscellaneous contents are varied, interesting and useful, and the sheet altogether is prepared with a view to its being a meet.

Morning Chronicle.

TURNING THE TABLES ON HER.—The following story, whether true or false we cannot say, is the talk of a village in the parish of Halifax, and bordering on Brandford. It appears that a certain woman felt her spouse an incumbrance, and unmindful of her marriage vows and the rigors of the law, resolved on his disposal after a method now, alas, too common. She applied to the druggist of the village for a quantity of arsenic. He very properly refused to sell her the article, and informed her husband of the application, at the same time inquiring of him for what purpose his wife wanted such a quantity of such an article. The husband replied jocularly that he could not tell unless it was for the purpose of poisoning him, and told the druggist that if she applied again he must sell her some harmless article in lieu of the arsenic, and they would see what her objects were.

She did apply again, and the wary apothecary delivered her some carbonate of soda, warning the husband of what had occurred When he went home he found a meat pie prepared for dinner. He pretended at first want of appetite, and invited her to help herself. She refused, and at last he ate a quantity of the pie. In a little time he professed himself unwell, then feigned thirst, then alarming sickness, and finally death.

The treacherous woman manifested great concern during these proceedings, but the instant death supervened to her to have occurred, she passed a rope through the chamber floor, and knit it to her husband's neck, in order that when neighbors were called in he might appear to have hanged himself. She then ran up stairs to draw up and fix the rope. The instant she had disappeared the dead man revived, released himself of the rope and passed it around the leg of the table, and the woman hang that useful domestic article instead of the other one, the husband. The latter also ran up stairs, inquiring of the faithless woman what she was after, drawing the table up that way?

The affair has ended for the present, is his, as the phrase is, taking the law into his own hands. He has given her, as the Yankee folks say, a "right down good hiding."—*Leeds (Eng.) Mercury.*

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tubs of any thickness, and can be easily detached and set aside.

No House should be without one.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as importers, is not only a sufficient guarantee for the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty in procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines for medicinal and other purposes*, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no traveling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

For a Square (1½ inches) or less, one insertion 50 cents, three insertions $1, one week $1.50, one month $3, three months $6, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.

Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.

Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered, and will thus receive the most thorough circulation both in this city and vicinity, and throughout the State. ☞ Liberal terms for yearly advertising.

☞ A mechanical engineer says the British Navy is replete with failures in steamship building, and cites the squadron which carried the Prince of Wales home from Portland. These ships carried only 5 days' coal for full steaming, and inside of the first week out they were reduced to incumbered, inefficient sailing craft, to make their way, as best they could, until another coal depot could be reached.

A gentleman who rents a moor on the line of a recently projected railway, on the west of Scotland, was a short time since, taking a quit snooze after his diurnal toil, when his slumbers were interrupted by the entrance of an excited assistant-keeper, who informed him that a party of poachers were in the glen pursuing their felonious avocations with a brass cannon mounted on a rest, and requested his help to capture them. Muttering an anathama on all poachers, he sat out with the keeper for the spot, and on reaching it found that the suspected game destroyers were a party of engineers taking the railway level with a theodolite.

☞ The ladies of Macon, Southern Illinois, who are organized as a soldiers' aid society, gathered a load of corn, a few weeks since, given them by the farmers, drove it to town, and sold it at auction (a young lady being auctioneer) at four cents above the market price, the money to go for supplies for sick and wounded soldiers.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEEKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints.

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JANUARY 15, 1862.

☞ The expedition which is ready to start from Cairo has been for some months in preparation, under the supervision of able and experienced officers of the army and navy. The fleet consists of twelve gun-boats, thirty-eight mortar-boats, and twenty-eight tugs and steamboats. The gun-boats are as follows:

	Guns.		Guns.
Benton	18	Pittsburg	15
Essex	15	Cincinnati	15
St. Louis	15	Louisville	15
Carondelet	15	Conestoga	15
Mound City	15	Lexington	15
Cairo	15	Tyler	15

The flag ship of the expedition is the Benton. She is one hundred and eighty-six feet long on deck, seventy-five feet beam, and carries eighteen guns, from 32-pounders to 45-pounders. The eleven other gun-boats are one hundred and seventy-five feet in length, fifty-one feet six inches in breadth, and draw five feet when loaded. The bows and bow-bulwarks consist of about three feet of oak timber, bolted together, and sheathed with wrought-iron plates two and a half inches thick. The sides have the same sheathing, with less bulk of timber. Each boat is pierced for fifteen guns, four on each side, four on the stern, and three at the bows. The bow-guns are 84-pounder rifled cannon; the others are 8-inch Columbiads. The sides of the boats incline at an angle of forty-five degrees, and nothing but a plunging shot from a high bluff could strike the surface at right angles. The boilers and machinery are so situated as to be considered quite out of danger from an enemy's fire. The iron plating has been severely tested by shots from rifled cannon at different distances, and has shown itself to be impervious to any shots that have been sent against it, even at a range of three hundred yards.—The mortar boats are built of heavy timbers, the sides of boiler iron, loop-holed for musketry, and are so arranged that they can be used for bridges. They will each carry one fifteen-inch mortar.

Arrest of an Alleged Forger.—On Saturday evening, a man named George A. Tirrell was arrested at the Parker House, Boston, on a charge of uttering an altered or forged draft, drawn by the Brighton Market Bank upon the Bank of Mutual Redemption, payable to the order of Henry Wheeler. During the first of the week Tirrell purchased at the Brighton Bank a check for $400, which he disposed of in a legal manner. This was probably done as a "blind." On Friday he purchased at the same bank a check for $25 on the Bank of Mutual Redemption, and by a chemical process erased the "Twenty five" and inserted in the place thereof "Three Thousand." On Saturday he presented this check, so altered, at the Mount Vernon Bank, and had the amount placed to the credit of a third person. Soon after, he sold a check on the Mount Vernon Bank, for $2500, purporting to be signed by the party in whose name he had made the deposit, and subsequently drew the balance of the check. Upon examining the check the teller of the Bank had his suspicions excited, the Detectives were placed upon Tirrell's track, and he was arrested. The gold was found in his possession, and also $5000 in U. S. Treasury notes, obtained by means of a forged check. He also purchased on Friday or Saturday, by means of a similar check on the Metropolitan Bank, $2500 in U. S. Treasury notes, and two $1000 New Hampshire bonds. The Treasury notes he sold to parties on State street, Saturday afternoon. The New Hampshire bonds have not yet been found.

Tirrell has been engaged in the rubber goods business in Boston for some time past, and was a member of the Grand Jury in 1861.

Giving Credit. — Some persons and papers are careful to give credit for their quotations: others give none, or carelessly give it wrong.

The new editor of the Portland Advertiser, in republishing an editorial which he wrote twenty years ago, closes with this paragraph:

The personal independence and courage arising from all the virtues, is well expressed by Noah Webster, in one of his lessons for children, in these words, viz: "The wicked flee when no man pursueth, but the righteous are as bold as a Lion."

If the reader, and the editor, who we believe has been a clergyman, will turn to the 28th chapter of Proverbs, they may see, in the 1st verse, that one Solomon, the editor of that book, published Noah Webster's lesson about 2800 years ago.

☞ Swindling seems to be the order of the day, in England as well as here. The British National loan and Investment Association has "busted up," owing only one million eight hundred thousand dollars, with assets amounting to but $275,000. John Bull has to stand some swindling as well as Uncle Sam.

THE REBELLION.

The 'Times' Washington dispatch says that Adj. Gen. Finnell of Kentucky is in Washington. His news is cheering. Gen. Buell is universally popular, and it is believed invincible in arms. Gen. Finnell anticipates a great battle this week, and the advance of Buell's entire army into Tennessee within thirty days. Arms and clothing are to be sent along to equip the thousands of loyal Tennesseeans who are known to be ready to join the army as soon as it reaches the State.

Most of the vessels composing Gen. Burnside's expedition left Hampton Roads very quietly at intervals during Saturday night. Others left during the next forenoon, including a large fleet of schooners.

A dispatch from Cairo, states that two more columns would be moved into Kentucky, Tuesday. All the transports there had been chartered for that purpose.—Troops are on the way there from St. Louis. Fifty prisoners taken by Gen. Paine were brought to Bird's Point Monday, among whom is Col. Bird, from whom that place derives its name. Positive evidence exists that he has contributed $35,000 in aid of the rebellion, and that he voluntarily sent his slaves to work on the fortifications. A nephew of Gen. Polk was arrested near Blandville, Ky., by one of our scouting parties. He had dispatches to spies at Columbus.

The St. Louis Republican learns that ex-Senator Johnson is at Price's camp, with a commission from the rebel authorities to raise troops in Missouri.

A letter from Cattlesburg, Ky., says that on the 8th a skirmish took place on Jennies Creek, three miles west of Paintville, Ky. between a part of the 2d Federal Cavalry, under Col. Bowles, and a portion of Marshall's rebel forces, under Shaw. The rebels lost six killed, fourteen wounded, and seven prisoners. The Federals lost two killed and one wounded. Before Col. Bowles' attack, Humphrey Marshall addressed his men, advising the surrender of the whole force. His men refused, saying they preferred fighting to such a cowardly course. After the skirmish, Marshall's whole force fled, and 300 picked infantry and 900 cavalry pursued them, expecting to overtake them and capture Prestonburg on the 10th.

All the rebel troops at Winchester have left to join Jackson. A rebel militia captain reported that Jackson had attacked Romney, and that the rebel loss was 100 killed, 70 wounded and 200 taken prisoners. The rebels are said to have burned Bath.

Santa Fe dates to Dec. 29, are received. 2000 Texan rebels are reported marching up the Rio Grande river to attack Fort Craig, and an equal number up the Pecos river to attack Fort Union. The latter is well prepared to resist, but fears are entertained that Fort Craig will be taken, and the Texans advance on Santa Fe, where considerable excitement prevails.

Burnside's Expedition.—The New York Tribune's Fortress Monroe correspondent says:

"In regard to Gen. Burnside's expedition, there is a common belief that the expedition will rendezvous at Hatteras Inlet, and Pamlico and Albemarle Sounds, which will be the immediate field of operations. The force when fairly afloat on the waters of Pamlico Sound, will address itself to Roanoke Island, which is strongly fortified.—This is the key to Albemarle Sound through Currituck, and it is supposed to be defended by from 2000 to 3000 men. I presume the clearing out of the rebels from all the sounds will follow. It must not be supposed that this is the whole work laid out for the expedition. It will be but clearing away the underbrush, and there will be time enough to record the rest when it takes place."

☞ The following is the explanation of the change in the Cabinet, received from Washington:—Our present relations with Europe are deemed highly important and interesting, and as Russia seems to be a strong friendly power, the President is anxious that some one should act as Minister at the Court of St. Petersburg in whom he has entire confidence, who can ably and fairly represent his views and aid our cause in Europe. Gen. Cameron accepted the office of Sec. of War with great reluctance, preferring to retain his seat in the Senate, and has always declared his intention to vacate the place when the interests of the country should allow, and he would have a proper successor. The gentleman selected Edward M. Stanton, is a warm personal friend of Gen. Cameron, is from his own State, and accepted the position at the latter's solicitation. Mr. Stanton was the Attorney General towards the conclusion of Mr. Buchanan's administration. He sacrifices an immense private business to serve the government. The appointment is popular, as it is generally conceded he is a man of sterling integrity, without any political affiliations to trammel his action. The friends of Gen. Cameron claim that he can afford to lay aside his exhausting labors, having accomplished so much in the organization and equipment of the largest army ever assembled on the American continent. The nominations were sent to the Senate on Monday by the President.

NEW HAMPSHIRE ITEMS.

—— A lark was seen in a field in Bradford, on Wednesday. These birds generally leave this climate early in the fall, and return late in the spring, but the South is in such bad repute just now that even the birds won't visit it.

—— The Common Council of the city of Lawrence, Mass., consists of eighteen members. Eight are natives of New Hampshire.

—— A lot of rude fellows of the baser sort, one evening recently, took possession of the rear car of a train from Concord, and had "a small bit of a discussion" with their fists as to who was "the best man"—their definition of *best* not being put down in Webster's Unabridged. The conductor of the train, not desiring such company, resolved to leave them to their fate. The car in which they were, was disconnected from the train, and left behind, much to the amazement and disgust of its pugnacious occupants, who were provided with suitable accommodations by the police.

—— One day last week an accomplished officer of volunteers, now in camp at Manchester, visited Concord, and went the grand rounds of the city, with a lady's black hair-pin cunningly hanging to his whiskers. The Statesman anxiously inquires—"how came it there?"

—— They have been enjoying an intense excitement in Manchester over Commodore George Washington Nutt, of that city. He is an honorary member of the Governor's Horse Guards and the Amoskeag Veterans, and was made much of at the time of the Horse Guards' first Anniversary. But he awoke the other morning to find himself indeed famous. The Mirror gives the particulars:—Joseph Cushing, "one of the late firm of Howes & Cushing, who chartered a ship expressly to take our great American Circus to England five years ago," had heard of the little Nutt, and wished to engage him to go to London for the Great Exhibition next year, and to continue the engagement several years: he offered to pay five thousand dollars per year for him, besides paying all expenses.—But Barnum had also heard of him—and who can withstand *him?* As usual he was prompt, and wrote to his confidential agent, saying:—

"Don't fail to take the first train for Manchester, N. H., and secure if possible the dwarf Commodore Nutt. Rather than fail in getting him you may offer him or his father thirty thousand dollars for the privilege of exhibiting him three years; besides which I will pay all the expenses of board, clothing, costumes and travel of the little Commodore, also the expenses of any companion he may select, and will give him the profits of all sales of books, pictures, &c., and present him all cuts, property and paraphernalia attached to the exhibition at the close of the engagement, including a splendid pair of ponies and carriage. I hear that several showmen are after him. Nail him, and don't let them get ahead of you."

The agent came, saw, and made a contract for three years, with the privilege of renewing it for two more. While they were making the bargain, a dispatch came—"Will give sixteen thousand dollars for Commodore Nutt three years."—from June, Howe, Quick & Co., New York. The name of June is familiar to all acquainted with circuses, and the Company is making arrangements to travel through Europe.—The Mirror adds that this sudden demand from so many noted and responsible parties, deeply affected Maj. Nutt, the father, but the Commodore bore his honors lightly and seemed delighted with the prospect of "an onward movement," of a chance to show himself the Napoleon of Liliputs, to *tower far below* Tom Thumb, and thereby throw the latter in the shade. He is about seventeen years of age, head and shoulders shorter than Tom Thumb, perfect in form, handsome, witty and winning.

—— The Seventh N. H. Regiment, Col. Putnam, left Manchester at 10 o'clock Tuesday forenoon, for the Potomac. The Eighth, Col. Fearing, is reported to be going the last of this week or first of next, to join Gen. Butler's expedition. The Sixth is in Gen. Burnside's expedition. Brig. Gen. Foster, of Nashua commands one of the brigades in the same expedition.

☞ The House Committee on Ways and Means are considering the policy of recommending the issue of notes smaller than fives. There is a great demand for ones and twos. The General Banking-Bill now in the hands of the Committees will not be reported to the House for several weeks.

☞ The Committee on Ways and Means have completed the army bill. The amount asked for is $487,000,000.

The Senate Com. of Foreign Affairs will soon report a bill for the recognition of Hayti and Liberia.

☞ The apointment of Mr. Stanton as Secretary of War is reported to give great pleasure to all the officers of the army. They have confidence in his energy and pluck and believe he will push on his way.

☞ The U. S. gunboat Penobscot, built at Belfast, Me., by C. P. Carter & Co, left that port Monday for Portsmouth Navy Yard, where she will receive her armament.

Congress.—In the Senate, Monday, the Judiciary Committee reported that there was not sufficient evidence in favor of the charges against Mr. Bright of Indiana to warrant his expulsion. Various orders of inquiry, schemes of finance, &c., were offered.

In the House, Mr. Clements was admitted to a seat as a Representative from the fourth Tennessee district. The civil appropriation bill coming up, Mr. Dawes of Mass. related several instances of great extravagance in contracts for military supplies. Finally, an appropriation of $150,000 was inserted, to pay for the printing of treasury notes, thus relieving the Secretary of the Treasury from the necessity of resigning his office, as his friends threatened he would do, if this appropriation was refused. The amendment proposed by the Committee of the Whole, suspending the appropriations for the Coast Survey, was not concurred in by the House.

Special Notices.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahnemann, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—8 cases of medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq., and corner State and Pleasant sts., Portsmouth; M. S. Burr & Co., wholesale, Boston, Mass.; W. O. Phillips, wholesale, Portland, Me; or sent any where by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with perfect success.

In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excessive and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28dawly

SANDEMANIAN SOCIETY.

Under the head of "A Religious sect lost in New Hampshire," a correspondent of the Exeter News Letter gives the following memoranda of the Sandemanian Society in Portsmouth,—to which we append a correction of some slight errors, which ought not to pass in a paper so often referred to for items about old affairs.

The first religious society established in Portsmouth, was the Episcopalian about 1638. Next was the Congregational in 1671. The third was a Society of Sandemanians about 1764.* We believe this was the only one of that name that has been in this State. The founder of this sect was Robert Sandeman, born in Perth in Scotland in 1715. He was educated for the ministry, but turned his attention to the manufacture of linen. When nearly 30 years of age he began to preach and avowed the sentiments since peculiar to the sect. One leading idea is, that the bare word of Jesus Christ without a deed or thought on the part of men is sufficient to present the chief of sinners spotless before God. The Lord's supper is attended weekly. They have love feasts, have a community of goods so far that what one has is liable to be called for the help of the poor; and they hold it unlawful to lay up treasures on earth.

Mr. Sandeman came to America in 1764, and formed a few societies. He resided in Danbury, Ct., and died there in 1771, aged 53.

The society in Portsmouth never had a large number of members, nor a house of worship.† For many years previous to 1824, Daniel Humphries, Esq., was the leader in the exercise of public worship.—The society existed in 1835, but for many years has been extinct.‡

CORRECTIONS AND NOTES.

* It was not the 3d, but the 4th. The third Church here was the Independent, which was formed in 1757, which opened its new house May 17, 1761,—and which had for its ministers, Rev. Messrs Drown and Walton.

† This statement, about the house, is an error. The Sandemanians did build and own a house of worship which stood on the ledge of rocks near Pleasant and Richmond streets, which locality received the name of Brimstone Hill, probably from some peculiar preaching there.

When the Universalist society, being the fifth, had become too numerous to assemble in Dearborn's School Room, they purchased the Meeting House on Brimstone Hill, of the Sandemanians, who had dwindled to a school house audience, and met in the brick school house, now standing in State street.

‡ It has held no public meetings for many years, and only a few individuals survive. The late George Sparhawk, of Kittery, kept up weekly meetings in his house, as long as he lived.

☞ The pay of the workmen at the Portsmouth Navy Yard, was reduced somewhat on Tuesday, as we stated in that morning's Chronicle. This being unsatisfactory to the workmen, many of the gangs have struck. The blacksmiths, (all but one,) and gun-carriage makers refused to work at all on the terms offered, and at twelve o'clock the caulkers and carpenters had also determined to strike. There were over six hundred and fifty carpenters at work on the Yard, and when the roll was called in the afternoon, only about twenty-five answered to their names, and several of those who did answer declined to work.

The carpenters, after roll-call in the afternoon, adjourned to the neighboring town of Kittery and listened to a letter from their committee at Washington, which stated, we are informed, that they had reason to think they should be able to obtain a reduction of the number of hours of labor to the old standard, but that there seemed little prospect of obtaining a return to the former wages.

A meeting of the blacksmiths was held in Jefferson Hall in this city on Tuesday afternoon. Mr. Joseph H. Berry was chosen chairman, and Mr. B. C. Merry, Secretary. The number of blacksmiths employed upon the yard was 130, and, perhaps, 75 of them were present at this meeting, which was hastily called. It was there unanimously voted that "they would hang together, and not go to work, under protest or in any other way, until their wrongs were righted." A committee of three was appointed to wait upon Mr. E. Otis, master blacksmith, to consult with him as to what was best to be done; and to make arrangements for paying their regular wages to such workmen as were poor and whose families would consequently suffer from the strike, —the funds to be raised by assessments upon the blacksmiths of the first and second classes. It was also voted to inform the blacksmiths at the Charlestown, Mass., Navy Yard of the action taken here, and to ask them to co-operate with them. The meeting then adjourned, to meet at the same place at seven o'clock in the evening.

In the evening Jefferson Hall was pretty well filled. Many of the workmen were present, apparently, more as silent lookers-on than as active participators. Yet the number of those who, having come to a determination for themselves or having been led to one by the representations of others, were inflexibly bent upon pursuing the course they had marked out, was by no means small. Speeches were made, and as the usual catch-words, clap-trap and bombast was not suppressed by those who professed to see no alternative but a strike, (unanimous by consent or by compulsion,) the milder counsels of those who suggested patience and deprecated blind impetuosity, availed but little. Nearly if not quite all of the most prominent actors were men who have come comparatively recently from Maine to work upon the Yard, and such men, particularly, could see no probability that precipitate action now would redound to the permanent or temporary injury of this naval station: it is known that a strong effort is being made to have a military and naval station established a few miles to the East of us, which shall seemingly obviate the necessity of that here; we trust that no one of our citizens will hereafter have occasion to think that he has been led into this matter by those who had an eye to that result.

Somewhat over nine hundred men are engaged in this movement. The machinists, joiners, boat-builders, painters, and block and spar makers have not struck.

Committees have been appointed in all the departments which have struck, to look after the interests of the poor.

☞ We, in common with our citizens generally, regret the action of the Navy Yard workmen, consequent upon the reduction of wages. The matter which is made the subject of complaint, is one for which the officers of the Yard are in no manner responsible, as they act only in obedience to the act of Congress. It would gratify us should the workmen receive their former rate of wages, but it might be difficult for them to obtain elsewhere even that which is now offered them. We hope that the workmen will this morning go to work as usual, and that the officers of the Yard will overlook this present action.

The draft for the payment of the December roll has not yet been received. The roll is ready, and waiting the arrival of the draft for its payment.

Brodhead M. E. Society.

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

—AND THE—

BRITISH REVIEWS,

Great Inducements to Subscribe!

PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1
THE LONDON QUARTERLY (CONSERVATIVE)

2
THE EDINBURGH REVIEW (WHIG).

3
THE NORTH BRITISH REVIEW (Free Church.

4
THE WESTMINSTER REVIEW (LIBERAL).

5
BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

POSTAGE.

The postage to any part of the United States will be but **Twenty-four Cents** a year for "Blackwood," and but **Fourteen Cents** a year for each of the Reviews.

At the above prices the Periodicals will be furnished for 1862, and as a

PREMIUM TO NEW SUBSCRIBERS,

the Nos. of the same Periodicals for 1860 will be furnished complete, *without additional charge.*

Unlike the more ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the Nos for 1860, may be regarded nearly as valuable as for 1862.

Subscribers wishing also the Nos. for 1861, will be supplied at the following EXTREMELY LOW RATES.

Splendid Offers for 1860, '61, and '62.

THE NEW YORK TRIBUNE

Large Premiums!

TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have prided ourselves on the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to those friends, but have none the less realized the fullness of our obligations for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season, only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgment—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly or Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of....$1 00

For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....1 00

For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....3 00

For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....8 00

For $50, Fifty Copies Weekly Tribune, *to one address*, Pens or Pens and Cases to value of.....10 00

For $80, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....18 00

For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..25 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For $11 25, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of.....$2 00

For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....4 00

For $40, Twenty Cop. Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00

For $60, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....17 00

For $100, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose wares are unsurpassed, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much *safer* than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

Morning Chronicle.

The account of the disbandment of Humphrey Marshall's corps is truly amusing to those who have the fortune to know the leader. The good-natured Colonel, when we saw him last, was nearly as large as Falstaff, and gave every indication of rivaling the dimensions of that famous and most portly warrior, within a reasonable period now long since elapsed. To think of belting in such proportions seemed preposterous. That he should decline a battle is not surprising. To march at all times has been very inconvenient for him and as for running away from anybody who tried to follow him, it was clearly out of the question. No man should be held to fight, under such disadvantages; and therefore we say it was wise for the Colonel to disband his troops at a good distance from the enemy, and to secure the best possible start for himself. Looking at the matter in a serious point of view, the scattering of these forces without a battle, is one of the best symptoms we have seen of disheartment among the rebels.—*Bost. Cour.*

The opposition in Congress to internal taxation will probably be overcome by the argument of pressing necessity. In many of the rural districts, members, in advocating the war, assured the voters that it should not be followed by taxes. Many would, if possible, fulfil the promise.—*Wash. Cor. Ball. Sun.*

Lieut. Maury was not long since proposed as a candidate for corresponding member of the French Institute. His claims were referred to a committee of eminent savans, who reported unanimously that the public reputation of Mr. Maury was the work of writers who knew nothing of the subjects they discussed.—*Boston Post.*

HOUSE-KEEPERS, TAKE NOTICE!

Please Call at No. 12 Market St.,

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—It is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tubs of any thickness, and can be easily detached and set aside.

No House should be without one.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

Advertising.

For a Square (14 inches) or less, one insertion 50 cents; three insertions $1; one week $1.50, one month $3, three months $5, six months $8, one year $15. These are Daily rates—and no advertisements receive more than one insertion in the Weekly (Gazette) without special order and charge.

Funeral Notices, and Advertisements of articles Lost and Found, &c., 50 cents.

Advertisements may appear both in the Daily Chronicle and Weekly Gazette, if ordered; and will thus receive the most thorough circulation both in this city and vicinity, and throughout the State. ☞ Liberal terms for yearly advertising

☞ The Chicago people are in a bad way; their hydrants give out fishes and tadpoles, and their water pitchers and tanks smell like the last run of shad. They have to strain all their drinking water, and the noise of the finny tribe in the pipes disturb the people so at night that they are compelled to muffle the pipes and wad up the faucets. Where the street hydrants are allowed to run, there is a fish stand; and it is said the accumulation of animal matter and fish bones in the streets is alarming. The Chicago Journal states that any effort of the Fire Department to put out fires, only adds fuel to the flames—that the fish oil in the water makes the conflagration ten times worse.

☞ Jefferson Davis, called the President of the States in rebellion, is denominated by the Richmond Dispatch the "Great Cunctator." A cunctator is "one who delays or lingers," and the Southern journals abuse Davis, Beauregard & Co. for their inaction, quite as energetically as some of our ultra press assail McClellan and so on because they will not engage in another Bull Run "forward to Richmond."

☞ The Emperor of the French has lent the British Government 2000 pairs of snow boots for the use of the troops which are now crossing the Atlantic on their way to Canada—"than which (says a Liverpool paper) nothing could be more considerate or friendly."

☞ An Indian damsel and a Frenchman were lately married at Oldtown, Me. The wedding was attended by all the first families on the island to whom birch bark wigwigging were sent, and the nuptials were celebrated with an eclat worthy of the occasion, closing with a grand dance after the aboriginal fashion

☞ A new serial work by the author of "John Halifax, Gentleman," is announced for publication in the English magazine "Good Words." It commences with the January number, and will continue throughout the year. It is entitled "The Mistress and the Maid."

☞ A Nashville paper says that "a few steel cannon are wanted at Bowling Green." The Louisville Journal suggests that Floyd, if a little inducement were offered him, could soon steal the iron ones.

It is affirmed in London that the last use the Prince Consort made of his pen was, at the Queen's request, to "soften the despatch sent to Lord Lyons."

☞ It is stated that Dr. Ralph H. Darby, formerly of Boston, is serving as Assistant Surgeon on board the pirate Sumter.

OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,
The Great Family Remedy for Kidney Affections, Rheumatism, Chronic Complaints
Excellent Wine for Females.
Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.
AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.
WE REFER TO

THURSDAY, JANUARY 16, 1862.

WORK AND PAY.

We publish this morning, for the benefit of all concered, the 8th Section of a Law of the United States, entitled "An Act to promote the efficiency of the Navy."

This is the Section that prescribes the pay and hours of labor on the Navy Yards,—to conform to the private ship yards.—It provides,—

"The hours of labor in the navy yards of the United States shall be the same as in the private ship yards, at or nearest to the post where such navy yards are established, and the, and the wages paid to all employes in such yards shall be, *as near as may be*, the average price paid to employes *of the same grade* in private ship yards or workshops in or nearest to the same vicinity, *to be determined by the commandant of the navy yard.*"

It will be seen that it is the duty of the Commandants of the yards, to ascertain as nearly as they can, the hours and labor outside the yards,—and when they have done this, the men are to be paid the same wages as elsewhere, and work the same time neither less nor more.

If workmen there wish for *higher* wages, or *shorter time*,—the only road to present success, is a unanimous petition to Congress to alter the law.

The future remedy would be at the ballot box, to choose Represeniatives to Congress who will vote to pay men on the Navy Yards 50 per cent. more than elsewhere, and give them shorter days besides.

☞ Senator Wilson, in a recent speech before the Senate, urged the sound doctrine "that this nation is in peril, and that we need means to carry on this war against the gigantic rebellion arrayed against us, that we must put a direct tax upon the country, that we must raise revenue from every source whence revenue can be derived, and that we (Senators) must reduce our own salaries and the salaries of men engaged in the civil and military service of the country."

THE REBELLION.

The War Department has received intelligence that confirms the report of the dispersion of Humphrey Marshall's whole force. It says that Marshall's whole army is now fleeing in utter confusion. The official dispatch from Col. Garfield to Gen. Buell, dated Prestonburg, 12th, states that he left Paintville Thursday noon, with 1100 men, and engaged Marshall's force, 2500 strong, with 3 cannon posted on the hill.—"We fought them until dark and drove them from all their positions. This morning we found 25 of his dead on the field.—The enemy's loss cannot be less than 60.—We took 22 prisoners, 10 horses, and a quantity of stores. The enemy burned most of his stores and fled precipitately during the night. To-day I have crossed the river and occupied Prestonburg. Our loss is 2 killed and 25 wounded."

The Bowling Green correspondent of the Nashville Courier says that Gen. Johnson has called upon the Provisional Government of Kentucky for 25,000 infantry and 5000 cavalry for 3 years. Floyd's brigade from Virginia are going to Scottsville, Ky.

The 1st Kansas regiment reached Lexington, Mo., on Friday last, and arrested several of the most prominent and active rebels of the town. They also took about 1500 hogs which were intended for Price's army, and other valuable property.

A St. Louis dispatch says Gen. Sigel is still a Brigadier General and in service at Rolla, Mo., and has no intention of resigning.

Jackson's rebel forces have not shelled Hancock, Va. Up to Monday noon he had not left his position at Bath. Officers who were present at the late affair at Bath, represent that our repulse was insignificant and loss trifling, though our force was greatly inferior.

A general order has been issued from the War Department giving commissions to the officers nominated by Gen. Butler.

The President on Monday nominated Thomas F. Meagher and James Shields to be Brigadier Generals.

☞ We make the following extract from a letter received from Lieut. A. J. Sides, Co. H, 6th N. H. Reg't, which is attached to Gen. Burnside's expedition:

JAN. 11, 1862.

We are about ten miles from Fortress Monroe, having been three days on the water; and as we are sailing with a heavy ship in tow, with part of our troops and baggage, it makes it difficult for our steamer to get along.

About ten miles out from Annapolis while in a dense fog, we came in collision with a brig and carried away her masts and rigging. We were out of sight of land at the time and had to come to anchor for the night. This morning we started again on our journey South. The sea is running high and the boat rocks pretty badly. I saw Gen. Burnside in Annapolis the day before we left for Fortress Monroe, and he thinks a great deal of the Sixth N. H. Regiment. It has a good reputation, but I don't know what he will do with us after he gets us there, for it is difficult for the boys to be soldiers and sailors too.

☞ The *U. S. Senate*, Jan. 14, considered the Washington Jail Delivery Bill.—Mr. Powell moved an amendment to except fugitive slaves, and it was rejected; yeas 5, nays 35. The yeas were Messrs. Bayard, Kennedy, Pearce, Powell and Saulsbury.

Mr. Clark offered an amendment that no person shall hereafter be confined in jail without a warrant from a magistrate or Court or order of one of the Houses of Congress. Agreed to.

The bill passed; yeas 31, nays, Carlisle, Kennedy, Powell, Saulsbury, 4.

The *House* considered the bill on the Franking Privilege,—struck out all but the first section,—rejected all half way measures,—and then passed the very short bill, 107 against 42. It as follows:

"Be it enacted, &c., that from and after the first of July, 1862, the franking privilege shall be and is hereby abolished."

NAVAL.—At the Brooklyn Navy Yard the frigate Sabine is discharging her guns, preparatory to going into the dry dock for repairs. It is expected that she will carry a heavier armament than heretofore, when next in commission. The Columbiads and rifled Parrott guns will no doubt form an important feature in her new armament. The frigate on the stocks in the Brooklyn Navy Yard will be named Lakawanna.

The keel of a sloop-of-war, to be called the Monongahela, will be laid at the Philadelphia Navy Yard this week. The steamer Powhatan which was sent from New York to Philadelphia a few weeks ago, there being no room at the Brooklyn Navy Yard, has been stripped to the water's edge. He planking is very rotten.

The U. S. ship Saratoga, Capt. Grendy, arrived at St. Helena, Oct. 27, from Loando.

☞ A writer in the Aroostook Times says:—

"For the last fifteen or twenty years, the principal haunt for wolves has been in the southeast corner of the State, included between Calais, the sea shore and Penobscot waters, where were also the greatest number of deer."

This territory about one hundred miles square, he calls the wolf-ville of Maine and says it is fitted for deer which the wolves follow, by the great amount of water, lowland meadows, and thick evergreen ridges for winter—a country that offers but little inducement for settlement and cultivation.

☞ The Newburyport Herald says a storekeeper in a neighboring town, who don't take the papers, recently had large calls for cotton goods, which at once cleared his shelves. The next day he ordered a fresh supply from Boston, and found the wholesale price five cents a yard more than he had retailed for. A trader in the suburbs of that city came off as badly with tea. Before he heard of advanced prices he sold out at 50 cents a pound, and to replenish his stock was forced to pay 76 cents for the same quality.

☞ The name of the gorgeous French Palace of Tuileries was derived from the circumstance, that where the palace stands was the site of an old manufactory of tiles (tuilerice) as if one should say the tile-house. Oxford, the name of the celebrated seat of learning, has a derivation equally humble: Oxford is only the ox-path across the river. Bosphorus is a high-sounding name in the Greek language; but what is it, in the English translation, but bull-path or oxford?

NEWS IN FRANCE.—A large Federal expedition will *soon descend the Mississippi* with a great quantity of heavy stores, destined to be sunk at the mouth of the ports of Charleston and Savannah, in order to render the blockade effective.

The above is from *Galignani*. The editor has, doubtless, a clear idea of the shape of the American coast, and probably imagines St. Louis on the seaboard.

☞ The crew of schooner E. H. Atwood, of Boston, which put into Fortress Monroe on the 19th inst., were obliged to subsist for ten days on raisins, the length of the passage from Malaga for New York, over eighty one days, using up all the supplies. The captain had his wife with him, who suffered most from the unusual food.

☞ The Assistant Secretary of the Treasury returned to his post on Monday, having been absent a short time on account of failing health. Within one hour the chief clerk was stricken down, and is now dangerously ill. The labors of that department seem to be more than human ability can endure.

Mr. Rodman, the chief clerk, died at Washington, Wednesday morning.

☞ The Tennessee Senate has voted to increase the wages of the rebel soldiers of that State to fifteen dollars a month. But the wages heretofore have been paid in paper of no value, and the increased wages will be paid in paper of no value. "I'll give you nothing the first year and double it the next," said Billy Burch.

☞ Among the petitions presented to the Mass. Legislature on Monday, was one of Dr. L. L. Seymour of Greenfield for payment for medical services rendeerd a returned volunteer, who died in consequence of wounds received at the battle of Ball's Bluff!!

☞ Another meeting of the Navy Yard workmen was held in Jefferson Hall last evening, and milder counsels prevailed.—This morning the men will return to their work, and will endeavor by petition to obtain their former wages, etc. It will gratify the loyal men and friends of the workmen, to know that they have determined to act in this manner.

☞ A serious and somewhat singular accident occurred last week in Plainfield, N. J. A quantity of percussion powder had been sprinkled, by some mischievous boys, on a path across a field. A lad passing along the path trod upon the powder, when it exploded, tearing his foot to atoms. Another lad escaped with the loss of his boot, which was torn into shreds.

☞ Gen. McClellan strongly urges the organization and practical preparation of artillery corps in all the seaport and lake towns, with a view to have in readiness for any emergency an effective body of well drilled artillerists for the defence of our harbors and coasts.

☞ Rev. John Lord gave the opening lecture of his interesting course, on Great Representative Women, on Tuesday evening, at the Hanover Street Chapel, to a fine audience. The second on Heloise,—the Mediæval Woman, Love,—is advertised for Friday evening.

☞ The Tribune's dispatch says that the President has said he will not accept Gen. Sigel's resignation except as a last resort. He accounts him a valuable officer, and will spare no pains to retain him in the service.

☞ The Cape Ann Advertiser says if "Uncle Sam" wants the Cape Ann sailors, he must send along the bounty money.

☞ Wool, as cotton disappears, will be more in demand, and we hope and trust that this will lead our farmers more into sheep husbandry.

"How far is it from Cowes to Ryde?" demanded a gentleman of a poor tired pedestrian. "I don't know *how far it is to ride*," answered the poor man, "but it is a precious long way to *walk!*"

☞ The meeting of the Brodhead M. E. Society announced for last evening, was postponed on account of the storm, until Wednesday evening next.

☞ Mr. Stearns, a distiller of Richmond, Va., is making about $4000 a day clear profit on whiskey. The demand for whiskey is so great that every gallon is sold as soon as it is made.

☞ The Toronto Leader has been ordered to state that it is not the organ of the Government. Lord Monck is evidently ashamed of its billingsgate talent.

☞ During the minority of the present Emperor of China (Tsai Chun) the regent of that country is, for the first time, a woman.

☞ Joseph Patterson, of Bennington, Vt., has decamped with $20,000, and the books of a paper mill in which he held a partnership interest.

☞ It is estimated that the mortality in our army since the war broke out will reach 22,000. The number killed in battle, skirmishes, &c., is about 11,000, and the number wounded 17,000.

☞ The people of Charleston, S. C., are discussing the point of forming a Central Park on the ground made bare by the recent fire.

☞ The message of Governor Dennison, of Ohio, occupies fifteen and a half columns of the State Journal. This is about equal to some of Gov. Wise's productions.

☞ Mr. Braman, U. S. Consul at Teneriffe, committed suicide a few weeks since. All his property was in Virginia bonds.

WINE IN CALIFORNIA.—Those persons who have not kept informed in regard to the increase of the wine trade of California, will be astonished at the following facts: The climate of the country offers particular advantages for the culture of the grape.—On accountof the perpetual summer, there is never a failure in the crop. The quantity made from an acre is never less than eight hundred gallons, being nearly thrice as much as the European vintage affords. The labor of cultivation is much less, owing to the uniformly mild weather. The quantity of wine made last autumn in California exceeded three million gallons. At present some eight millions of vines are planted, and the number is constantly increasing, so that in two years the production of wine will probably exceed ten millions of gallons.

In quality some of this wine is equal to the best Hock. In Los Angeles County, some five hundred miles south from San Francisco, Messrs. Kohion & Frohling have vineyards which are very productive. The labor employed is mostly Indian. The varieties which they have put into the market are, 1, an excellent white wine, similar to the Hock, and preferred to it by many good judges; 2, Angelica, a sweet wine; 3, a Port, very similar to that of Lisbon; 4, Muscatel, a delicate sweet wine, hardly inferior to the best Tokay. No further back than 1854, this enterprising house made their first vintage, which consisted of about three hundred gallons. Their vintage this year will be nearly two hundred and fifty thousand gallons. They occupy in San Francisco the entire basement of the Montgomery Block, 275 feet square, and having ton cellars; and their sales this year, in the State of California alone, have reached over one hundred thousand dollars.

Messrs. Perkins and Stern, 160 Broadway, New York, and S. C. Perkins, at 46 Bromfield street, Boston, are the Atlantic agents of this California house, and the pioneers of the trade here. But nine months have elapsed since they first opened the wines in this market, and from the first there has been a steady increase in the sales. More than four hundred cases of the white wine have been sent to Europe, and many of them to persons on the Rhine; and from the oldest wine growers of Germany come the highest encomiums. The white wine is quite cheap, compared with a similar quality of Hock; and the venders will do a good work if they can substitute it for the fiery Bourbon and other strong liquors now so much in vogue in this country.—We learn that several of the German regiments now in camp have ordered considerable quantities of this wine.

The grapes now grown in California were nearly all introduced by the Spanish missionaries, about a century ago. At first they tried to import cuttings from Europe; but these died on account of the long voyages, and finally the seeds of raisins were planted, and from these seedlings nearly all the varieties now common have been derived. Wine has been made for nearly a century by the Spanish residents; but for home consumption chiefly. The splendid capabilities of California, as a wine producing country, are now being rapidly developed under the instigation of Yankee enterprise and capital. In consideration of California's loyalty to the Union, let us do what we can to encourage her home manufactures, especially when we find she gives us a better article for less price. Mr. Perkins, late of the firm of Phillips, Sampson & Co., will give such further information on the subject of this important culture as may be desired.—*Boston Transcript.*

Mr. N. P. Thacher, as will be seen by his advertisement, is agent for the sale of the California Wines in Portsmouth.

ADMINISTRATRIX' NOTICE.

The subscriber gives notice that she has been duly appointed Administratrix of the estate of HANSON HOYT, late of Newington in the County of Rockingham, deceased.

All persons indebted to said estate are requested to make payment: and all having claims to present them for adjustment.

Dated at Newington, Jan. 14th, 1862.

OLIVE F. HOYT.

To the Honorable Judge of Probate for the County of Rockingham in the State of New Hampshire:

Respectfully Represents OLIVE F. HOYT of Newington in said County, that HANSON HOYT of said Newington has lately deceased, intestate, having, at the time of his decease, a family homestead, situate in said Newington, described as follows, viz:—a tract of land with buildings thereon, bounded northerly by land of James Hoyt, easterly by land of Isaac Frink and Darius Frink, southerly by land of Henry I. Downing and the road, and westerly by the road from Newington meeting-houses to Greenland; that your petitioner is widow of said deceased, and has been and shall be in the occupation of said premises; that no release or waiver of the right of homestead has been made; that the said deceased left no minor children. Wherefore she prays that a homestead of the value of five hundred dollars be set off to her agreeably to the statute in such case provided.

OLIVE F. HOYT.

Dated the 14th day of January A. D. 1862.

Rockingham ss. Probate Court at Portsmouth in said County, January 14th. A. D. 1862

Upon the foregoing Petition it is *Ordered*, that a hearing be had thereon at a Court of Probate to be holden at Portsmouth in said County, on the third Tuesday of March next, at ten o'clock A. M.; and that the Petitioner notify all persons concerned or interested therein to appear at said Court, and show cause if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the New Hampshire Gazette, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least thirty days prior to said Court.

By order of the Judge,

S. D. WINGATE, Register of Probate.

State of New Hampshire, Rockingham, ss.

By the Hon. Judge of Probate for said County.

To the heirs at law and creditors to the estate of SAMUEL BATSON, late of Newcastle, in said County, deceased, intestate, and all persons interested in said estate, Greeting:

You are hereby notified that JOHN E. RIDER, Administrator of the estate of said deceased will present his account of administering said estate at a Court of Probate to be holden at Portsmouth in said County, on the third Tuesday of March next, at 10 o'clock, A. M., for examination and allowance.

You are therefore hereby cited to appear at said Court and be heard thereon, and to show cause if any objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the New Hampshire Gazette, a newspaper printed at Portsmouth, the last publication whereof to be at least thirty days prior to said Court.

Dated at Portsmouth, January 14th, A. D. 1862.

By order of the Judge,

S. D. WINGATE, Register of Probate.

Special Notices.

TRUTH IS MIGHTY and always prevails, the it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—A case of medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq, and corner State and Pleasant sts, Portsmouth; M. S. Ryan & Co., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me.; or sent anywhere by

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28daw3m

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and will inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its cost in three months; and, finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (see *Act the Act of 1837.*)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a great collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.

BLACKWOOD'S MAGAZINE

—AND THE—

BRITISH REVIEWS,

Great Inducements to Subscribe!

PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (CONSERVATIVE).
2. THE EDINBURGH REVIEW (WHIG).
3. THE NORTH BRITISH REVIEW (Free Church.
4. THE WESTMINSTER REVIEW (LIBERAL).
5. BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS. (Regular Prices.)

	Per ann.
For any one of the four Reviews	$3 00
For any two of the four Reviews	5 00
For any three of the four Reviews	7 00

For Blackwood and three Reviews	9 00
For Blackwood and the four Reviews	10 00

Money current in the State where issued will be received at par.

POSTAGE.

The postage to any part of the United States will be but **Twenty-four Cents** a year for "Blackwood" alone, but **Fourteen Cents** a year for each of the Reviews.

At the above prices the Periodicals will be furnished for 1862, and as a

PREMIUM TO NEW SUBSCRIBERS,

the Nos. of the same Periodicals for 1860 will be furnished complete, *without additional charge.*

Unlike the more ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the Nos. for 1860, may be regarded nearly as valuable as for 1862.

Subscribers wishing also the Nos. for 1861, will be supplied at the following EXTREMELY LOW RATES:

Splendid Offers for 1860, '61, and '62.

For Blackwood's Magazine,	the 3 years,	$5 00

THE NEW YORK TRIBUNE

Large Premiums!

TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hard times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For **$12**, Eleven Copies Weekly Tribune, *address*, and Pens or Pens and Cases or Pens and cases to value of....**$1 00**

For **$10**, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **1 00**

For **$20**, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **3 00**

For **$40**, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **8 00**

For **$50**, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **10 00**

For **$100**, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.. **25 00**

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For **$11 25**, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of..... **$2 00**

For **$20**, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **4 00**

For **$40**, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **10 00**

For **$60**, Thirty Copies Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **17 00**

For **$100**, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.... **30 00**

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

Morning Chronicle.

THE BRIGHT LITTLE GIRL.

BY WILLIAM ALLINGHAM.

Her blue eyes they beam and they twinkle,
Her lips have made smiling more fair;
On cheek and on brow there's no wrinkle,
But thousands of curls in her hair.

She's little—you don't wish her taller;
Just half through her teens is her age;
And baby or lady to call her,
Were something to puzzle a sage!

Her walk is far better than dancing;
She speaks as another might sing;
And all by an innocent chancing,
Like lambkin and birds in the Spring.

Unskill'd in the airs of the city,
She's perfect in natural grace;
She's gentle, and truthful, and witty,
And ne'er spends a thought on her face.

Her face, with the fine glow that's in it,
As fresh as an apple-tree blossom—
And O! when she comes, in a minute,
Like sunbeams she brightens the room.

As taking in mind as in feature,
How many will sigh for her sake!
I wonder, the sweet little creature,
What sort of a wife she woul! make.

☞ The claim of ex-Treasurer Dorsheimer of New York to retain his position, because his legally elected successor failed to comply strictly with the law in filing his bond within a given time—has been promptly disposed of by the Courts. Judge Peckham, after hearing all that Dorsheimer's counsel had to offer, declared on Saturday, that Mr. Lewis was duly qualified as State Treasurer, and that Dorsheimer must surrender to him.

☞ The brig Lucy Darling, just arrived at New York from Nassau, reports that the British steamer Gladiator was at Nassau, waiting to sail for a Southern port.—On the 29th Dec., the British ship-of-war Conqueror, 101 guns, struck on a sunken rock on the east side of Rum Key, and when last heard from the rock had pierced five feet through her bottom. The frigate Bull Dog had gone to her assistance.

☞ The N. Y. Post says a letter has been received, which states that a respectable person, made a prisoner on Edisto river, says that a party is on foot, in favor of settling the question at issue by Commissioners, and that both Davis and Stevens are in favor of it, but the Rhett party from it down. The capture of Port Royal and the fire at Charleston were stunning blows to the people of South Carolina and Georgia.

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tubs of any thickness, and can be easily detached and set aside.

No House should be without one.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as a Importer, is our only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

NOTICE TO SUBSCRIBERS.—The bulk of our readers desire their papers early; and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or spoiled by storms, unless they have a drop-box cut for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place without,—and always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and for information of any instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Kidneys and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JANUARY 17, 1862.

NEW HAMPSHIRE ITEMS.

—— "Carleton," who is himself a New Hampshire boy, in one of his letters to the Boston Journal, thus speaks of two other sons of the old Granite State, now residing in St. Louis, Mo.:—

"As I have mentioned the Granite State, I may be allowed to extend the notice of her sons out here. Among them is Prof. Sanborn, formerly of Dartmouth College, known and beloved by thousands who have enjoyed his instruction in former years at old Dartmouth. He is now in the Washington University. Time has dealt kindly with him and his wife—niece of Daniel Webster. It was a pleasure to talk over old times in New Hampshire last evening at his quiet residence in the outskirts of the city. Adjoining Prof. Sanborn's residence is that of Chancellor J. G. Hoyt, formerly of Exeter. He is now Chancellor of the Washington University. He has a legion of friends in the East, and hosts of them in the West. It will pain them to hear that disease is making inroads upon his constitution. His spirit is as undaunted as ever.—He has been one of the determined men of this city—determined in his efforts to save it from secession."

—— Napoleon T. J. Dana, formerly of Concord, and late Captain in the U. S. army, has been appointed a Brigadier General of Volunteers.

—— The Independent Democrat says "there has been a large amount of sickness in the 1st Company of N. H. Sharpshooters. Several have died with *typhoid fever*, and, from what we can learn, we fear this *splendid corps of men* have not been properly cared for."

—— There are now about three hundred men of the Cavalry encamped in Concord. There are four companies, which constitute the 3d Battalion of the 1st Regiment of New England Cavalry. D. B. Nelson, of Manchester, is Major. They have about 300 horses on the ground. The men are daily exercised by the officers in riding and in the use of the sword. The companies will soon be fully equipped and ready for the orders of the War Department.

—— The two sons of Robert E. Pecker, Esq., of Concord, died this week. Frank, the oldest son, died in Vermont, and while the friends were at the funeral, news came on Wednesday by telegraph that Robert L., the youngest son had died in Boston.

—— On Monday, as Mr. Edward Dearborn and Daniel A. Shaw were engaged in cutting wood in Exeter, the axe of Mr. D. slipped from his mittened hands, and falling, nearly cut off the foot of Mr. Shaw.—After receiving the wound Mr. Shaw managed to walk about three quarters of a mile to the depot, when a friend conveyed him in a sleigh to the house of Dr. Perry, where the wound was dressed.

——The Rock Co. Bible Society held its annual meeting at North Hampton, Tuesday. Addresses were made by Chaplain Wood of the Navy, Rev. Messrs. Willey, Nason and others. In the evening a war-mee ing was held in the church, and an address on the "Relation of woman to the cause of freedom"—was delivered by Rev. Mr. Nason of Exeter.

—— The Dover Enquirer announces the death, in Wakefield, Dec. 19th, of a colored man named Senegal Thompson, aged 77 last October. "Senegal's mother was captured in an English Guinea slave ship, about the close of the Revolutionary war, and she became a resident (say no worse) in the family of the late Capt. Hopley Yeaton, of Portsmouth, where Senegal was born. Senegal was honest in all his dealings. He has passed through many adventures; has been in all quarters of the globe, in the East and West Indies, in California, China, England, France, and even the Fejee Islands; but at last he returned to old Wakefield to end his days, where he received the last unction at the hands of the Vicar of Wakefield, and died in peace with all the world, like a shock of corn fully ripe for the harvest."

MEXICO.—The spectacle of Mexico rising to repel the Spaniards is hardly less splendid than the uprising of the loyal North after the fall of Sumter. The Spaniards are surrounded and cooped up in Vera Cruz, and without the aid of enormous reinforcements, will never dare to commence a march upon the capital. All internal dissentions in Mexico are laid aside. The several States vie with each other in offering troops to the Central Government, and an official journal states that in a short time there will be an army of 150,000 men, with six hundred pieces of artillery, ready to move upon the invaders. Uraga was preparing to dispute the passes above Vera Cruz with about 20,000 men. Tampico, which it was at first resolved to abandon, is to be defended, and it is thought with a reasonable prospect of success.

The war is accepted, in fact, by the entire people, as a struggle for national existence. With this idea, they will fight with desperate resolution.

The train on the Vermont Central Railroad was brought to a dead stand, by the force of the wind, on New Year's night, when coming up the grade near Winooski Bridge. It was delayed about 25 minutes before being able to "stem the torrent."

☞ At Adnapendente, a little town just within the confines of the Papal States, a workman lately brought his child to a priest to be baptized. When the ceremony was half over, the priest asked the proposed name of the babe, to which the father answered, "*Italia Liberata Vittoria.*" This enraged the priest so much that he refused to go on with the service, leaving the child half-baptized. So the father returned home, and on telling the news to his wife she became terribly frightened lest the babe should die, and being half-baptized, should go neither to heaven nor to hell, but remain somewhere in mid air like a bat. To appease these fears, the father, who refused to have any other names than those selected by him, crossed the Tuscan frontier to Radicofant, where the baptism was happily completed.

☞ A beautiful young lady, only daughter of rich parents, cut off all her long golden tresses one night last week, while in a somnambulistic state. She was quite put out at the army style of her head in the morning, but was soothed by the barber, who promised a wig of the locks which should defy detection. The occurrence took place at Cincinnati.

☞ Winkle, the prize-fighter, who recently had a contest with Elliott at Weehawken, has died from the effects of the pummeling which he received at the hands of his antagonist. Elliott was arrested, and is now held for examination on the charge of leaving the State to engage in a prize-fight.

DON'T BELIEVE IT.—The Montreal Pilot insists that the reported permission to land troops at Portland, and take them over the Grand Trunk, is a sensation hoax—no truth at all in it. But it says, if such proves really to be the case, it is only a trick to get the troops there in order to capture them!

☞ The Alexandria (Va.) Local News notes the arrest of W. W. Harper, for refusing to give change for Treasury notes unless at a discount, and adds that his case was referred to the military Governor, whereupon Gen. Montgomery declared all persons subject to arrest and punishment who shall attempt to depreciate or interfere with the circulation of the U. S. demand notes.

☞ Amongst the names of those persons gazetted in the forfeit list for arrears of stakes, periodically exhibited at "Tatter sall's," England, appears that of the Baron de Vidil, who is represented therein as a defaulter to Mr Ten Broeck for the Goodwood stakes of 1859, won by that gentleman's horse Starke. The Baron is in jail for attempting to murder his son.

☞ On Tuesday evening Mr. Stephen Osgood's tailor's shop, at Georgetown Mass. was set on fire by the accidental breaking of a Kerosene lamp, and his entire stock of goods destroyed. Loss $2500; insured for $1500. The building was injured to the extent of several hundred dollars, on which there is insurance.

☞ The mints of the United States have coined since they com. enced operations—a period of less than seventy years—the large amount of eight hundred millions of dollars—about one-fifth of the whole metallic currency of the world. Of this amount five hundred and twenty millions of dollars were derived from the mines of the United States.

SMALL BUT SELECT.—A much esteemed Doctor of Divinity preached in Boston on Sunday afternoon last to a congregation of seventeen persons, seven of whom were paid for attending, namely, the sexton, organ-blower, organist and quartette choir.—Strange to say, that, among the actual worshipers, there were seven men to three women.

☞ The Boston correspondent of the Bath (Me.) Sentinel, writing under date of Dec. 30th, states that a painful rumor prevails concerning Professor Longfellow, to the effect that his mind has been affected to such an extent by the death of his wife, that he is now receiving medical treatment at a private lunatic asylum.

☞ The case of Capt. Chauncey McKeever, Adj. Gen. of Fremont, who was placed under arrest at the time the latter was released from the command of the army of the West, has been dismissed, and he is now the mustering-in officer of the army.

☞ The Newburyport Herald thinks it is a little funny to see the Democratic papers calling on the people to support President Lincoln and Gen. McClellan against the schemes and conspiracies of the administration (Republican) party.

☞ Jeff. Davis and Toombs, and L. P. Walker, who at first built so much on the success of their great scheme of privateering, must be somewhat disappointed at the present dull and unsatisfactory state of the business.

SPIRITUAL.—A clairvoyant in Provincetown, Mass., while in a trance, stated that the Rinaldo, with Mason and Slidell on board, went down stern foremost the night she sailed from that place.

THE REBELLION.

Between one and two thousand troops of Gen Burnside's expedition, were still in the Roads, on Wednesday, being detained by a severe snow storm.

There seems to be every reason to expect decisive action in Kentucky within a very few days. A dispatch from Cairo says Gen. Grant and staff embarked on board the steamer Chancellor, Wednesday morning, and took the field at Fort Jefferson.—Dispatches had been received from the advance guard under Gen. McClernand, saying it is on the march and would encamp at Mayfield, Ky., Wednesday night. Camp Beauregard is so near to Mayfield that the rebels must fight or run. Gen. Grant reviewed the troops composing the Second Division Wednesday morning, and informed them that he should march 30 miles by the next morning. The greatest enthusiasm prevails among the troops.

☞ Gen. McClellan was before the Joint Committee on the conduct of the war on Wednesday. For three hours they listened to his patient and candid account of his operations in the responsible office to which he was so suddenly summoned; the difficulties of his position; the embarrassments of questions arising; the amount of labor to be done, and the ferocity and strength of the rebellion he has to vanquish were grouped together in a manner so effective as to win a sympathy from the members who had imbibed prejudices against him, and the modest and steady assurance that he manifested of an easy and utter overthrow of the rebels, gave confidence in his capacity and generalship that had not before existed.

CONGRESS, Wednesday Jan. 15.—In the U. S. Senate a bill was reported for the preservation of the Atlantic fisheries. Also a bill to confiscate the property and free the slaves of rebels. Also a resolution to promote the efficiency of troops serving in Kansas, by authorizing the enrolment of blacks when necessary. [There is little or no chance of its passage.] The nomination of Edward M. Stanton as Secretary of War was confirmed by the Senate nearly unanimously.

In the House, a bill amending the direct tax bill, and liberating and colonizing the slaves, was reported and referred to the Committee of the Whole. A bill prohibiting the Coolie trade in American vessels, was passed.

A SUGAR-COATED PILL.—The Daily Morning Chronicle, Portsmouth (whose editor living at a seaport ought to know,) takes us gently to task for calling the Franklin an "old style" vessel. Perhaps we were not quite fortunate in that phrase "old style" to express an idea which we had, that *steamers* were adapted only to naval warfare of the dresent day. Nevertheless, being by no means certain that the Franklin is not to have engines, we bow to the superior knowledge of Brother Miller, and admit the taste of the Russian Ambassadors. When the railroad gets fairly to running, we expect to acquire as much nautical knowledge as "land lubbers" generally have.—*Manchester Journal of Agriculture.*

We beg our friend to feel quite certain that the Franklin *is* "to have engines"—that she was constructed with that idea in view, and that when launched and in actual service she will not only prove admirably "adapted to naval warfare of the present day," but will prove in an eminent degree, still another manifestation of the skill of the Portsmouth Navy Yard mechanics.

If you doubt this, friend — and if you *don't*,— take advantage of the railroad, come down and wander once more for an hour "over her vast expanse," and see if it is not true that the half has not yet been told. Our word for it, you will not regard the time mis-spent, which is devoted to an examination which embraces also the other vessels at the Portsmouth Navy Yard. It is worth something merely to see the evidences of activity and energy which are displayed there.

☞ "In Oswego, New York, lives Peter Rozell, who was born in Brooklyn, N. Y., in 1753, and consequently is now one hundred and eight years of age! He is living with a second wife, who is seventy-three years old. By his first marriage he had fifteen children, and by his second ten—making in all twenty-five children. The eldest child now living is eighty-two years old.—This aged friend enjoys comfortable health—visits his neighbors—sight and hearing good—and has used tobacco one hundred years!"

Orestes A. Brownson has given a new turn to an old idea, in the following style: "We have talked about the sublime courage of dying for our country—of standing up in the ranks to be shot at—to be killed for this glorious cause; *but what is needed now is the courage to kill somebody.*"

It is said they have a rifle company in Vermont, whose captain takes them out once a week for practice; he draws them up in single file, and sets a cider barrel to rolling down hill: the men commence shooting from right to left at the bung hole as it comes up. After the shooting is over, the captain examines the barrel, and if he finds a shot that did not enter the bung hole, the member who missed is expelled. None have been expelled for the last eight years.

IMMORTELLES.

BEAUTY.

And if with prayer and praise thy heart is filled,
Its fever cooled, its stormy passions stilled;
If thou dost catch faint glimpses of that shore
Where sorrow dies and parting is no more,
And thou canst almost solve death's mystery,
O! then, God's handmaid, Beauty, dwells with thee!
—*Leighton.*

Truth, ever sacred, counts that victory shame,
Which clarions meanness to a world's acclaim;
Scorns the proud wretch who plays the fatal dart,
But, while he dallies, drives it to the heart;
She is the weak tool, whose eager gaze descries
His neighbor's faults, with telescopic eyes.
Believes high rogues, though clad in jewels brave,
Should run the gauntlet with the shabbiest knave.
While Honor's post should be for him secure
Who lets in sunshine at the poor man's door.
J. T. Fields.

There is a fire-fly in the Southern climes,
That brightens only when upon the wing;
So is it with the soul.—When once we rest, we darken:
"On," said God, unto the soul, as to the world,
"Forever on!"

☞ The Hutchinsons got a pass on Tuesday to cross the Potomac, and visit the camps with the truly patriotic object of singing for a whole month to the soldiers in camp.

In Congress, Mr. Vallandigham, Representative from Ohio, calls for a statement of the present "floating debt of the United States." Perhaps Mr. V. had better withdraw his call until a good many steel-plated ships are built.

Special Notices.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the fact, that the practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one,—a case of medicine we mean, sold by J. H. American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28dawlm

☞ In Board of Aldermen, on Thursday evening, the committee on that portion of the Mayor's Address relating to the Police, reported, recommending that for the current year a City Marshal and three Assistants be appointed and be paid a salary sufficiently large to enable them to devote their entire time to the duties of the office, —all fees, fines, etc., received, to be paid into the City treasury. The subject, the Common Council concurring, was referred to a joint special committee.

In Executive session the following officers were elected:

City Marshal—Oren Bragdon.
Chief Engineer—John H. Moran.
Collector and Treas.—Robert Lefavour.
Street Commissioner—Eben. Haines.
Sup't of City Farm—Benj. Norton.
City Solicitor—Wm. H. Rollins.

NOTICE.—The Mechanics of Maine, now employed in the Navy Yard, Kittery, are requested to meet at Armory Hall, Kittery, this, Wednesday, Eve., at 7 o'clock, P. M. to refute the charges brought against them in the Portland Chronicle of this date.

Kittery, Jan. 15, 1862. Per Order.

The above was written on a sheet of note-paper, and stuck on a building on Market Square. Whether the *Portsmouth* Chronicle was meant we can't say—but there is no paper of the name in Portland. But as the "Maine mechanics" do not take our Chronicle, we don't see what business they have to know what is in it—even if we had made any "charges against them," —of which we are not aware, by the way, except saying that those who seemed to be the more prominent of the late strikers are Maine men. However, it is perhaps to be expected, that men whose ideas of the location of a Navy Yard are so jumbled up, should also get confused when speaking of newspapers. The Chronicle will try and survive these "blows," however—which we have the more hope of doing, seeing that not a man of the Maine discontents has his name on our list.

☞ The editor of the Ballot calls on "some power, to give him the gift of seeing himself as others see him." We shouldn't advise him to do it. He also asks:

"Does the publisher of the Chronicle desire to draw us into a controversy as to whether his paper is Democratic, or generally satisfactory to Democratic readers?"

No, sir,—"his paper" can take care of itself; and all that anybody who don't like it, has got to do, is just to let it alone. At any rate, although we are always thankful for good advice, we shan't ask the *Ballot* man to tell us how to print a newspaper.—And we have found out, long since, that those who criticize and growl at a paper the most, are almost always those whose patronage is not worth a—consideration.

☞ We regret to hear that the Portsmouth Steam Mill is contemplating a strike soon. Not the operatives; but that a portion of the machinery has already been stopped, and the whole will shut off in a few weeks, after the stock of cotton is used up. Perhaps they can get a new supply before their six weeks' stock is gone, however, as we hope they may, on all accounts, local and national.

We like the Chronicle as a newspaper, for its editors are industrious in gathering local items, and condensing the contents of its exchanges; but its attempts to suit politicians of all parties, and its pretentions to independence, are simply ridiculous.—*Ballot.*

Well, *the people* generally "like the Chronicle," Daily and Weekly, so well that our business is constantly enlarging and improving—so much so, that our receipts for the past month, even in the present state of things, have been larger than any other month since we started the paper; and our lists, especially the Weekly, are growing larger and better always.

As to our "attempts to suit politicians of all parties," the Ballot mistakes our utter disregard for each and all. And we certainly do not yet feel ourselves obliged to take our cue of independence from our amiable neighbor—who is welcome to bay the moon, or commence another "windmill controversy," whenever he likes, and with all the facts he can muster.

☞ The Navy Yard workmen went to work on Thursday morning, "under protest" —if anybody knows what that means. In accordance with an order from the Navy Department, three or four of the principal leaders in the late strike, have been discharged, and cannot be received again upon the Yard without special permission from that department.

☞ In the Senate, Thursday, Mr. Hale, of this State, offered a resolution of inquiry of the Navy Department, whether the ships Alabama (on the stocks at the Portsmouth Navy Yard) and Virginia had better be taken to pieces and used for the construction or repair of other vessels.

☞ Willis Barnabee, Esq., for many years landlord of the Franklin House in this city, died on Thursday morning, at the age of 72. He was previously for several years the driver of a United States mail coach, between Portsmouth and Boston, in the employ of the Eastern Stage Company; and was highly esteemed in both stations, by his employers, associates, and the public, before which he has been somewhat conspicuous for half a century. His ample proportions, and quiet manners are well remembered by hundreds of his old passengers;—and the same quiet manner has rendered his public house a home-like place to the traveller.

☞ The second lecture of Rev. Mr. Lord's course on Representative Women, will be delivered at Hanover Street Chapel this, Friday, evening. Those who appreciate the value of such a course of lectures, and who are desirous to occupy an evening in a way that will be at once interesting and profitable, seldom have an opportunity here to gratify their wishes in so marked a degree, as this course affords.

☞ The Rockingham County Republican Convention assembled in the Town Hall at Exeter on Tuesday, Jan. 14th. Jos. B. Adams of Portsmouth was chosen temporary Chairman, and Chas. L. Tidd of Portsmouth, Sec.

The permanent officers were:—President —Geo. W. Plumer, of Nottingham. Vice Presidents—Ira Hazelton of Portsmouth and four others. Secretaries—Chas. L. Tidd of Portsmouth, and O. Murray, Newmarket. For candidate for County Commissioner:

Aaron Quimby had	1
Joseph C. Hilliard	36
John Hodgdon 2d	50

On motion the nomination of John Hodgdon, 2d, was made unanimous.

On a second ballot, Alonzo J. Fogg was nominated for Register of Deeds, and Saml. A. Haley, for County Treasurer.

The resolutions of the State Convention were unanimously approved.

☞ Mr. Ezra Bartlett, of Stratham, has been appointed a Master's Mate in the U. S. Navy, and has been ordered for duty on board steamer Kearsarge now lying at the Navy Yard and about ready for sea.

☞ The soldiers at Hatteras are conducting an adult school for the instruction of negroes. It is under charge of Patrick Kelly, of Company C, United States Artillery, a man deeply interested in the scheme, and in every way qualified for his difficult post.

☞ Sec. Welles sent to the Senate on Wednesday a defense of himself in the matter of charges preferred against him.

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837,*)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers and Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents issued in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

BLACKWOOD'S MAGAZINE

—AND THE—

BRITISH REVIEWS.

Great Inducements to Subscribe!

PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1.
THE LONDON QUARTERLY (CONSERVATIVE)
2.
THE EDINBURGH REVIEW (WHIG).
3.
THE NORTH BRITISH REVIEW (Free Church.
4.
THE WESTMINSTER REVIEW (LIBERAL).
5.
BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS. (Regular Prices.)

Money current in the State where issued will be received at par.

POSTAGE.

The postage to any part of the United States will be but **Twenty-four Cents** a year for "Blackwood," and but **Fourteen Cents** a year for each of the Reviews.

At the above prices the Periodicals will be furnished for 1862, and as a

PREMIUM TO NEW SUBSCRIBERS,

the Nos. of the same Periodicals for 1860 will be furnished complete, *without additional charge.*

Unlike the more ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the Nos for 1860, may be regarded nearly as valuable as for 1862.

Subscribers wishing also the Nos. for 1861, will be supplied at the following EXTREMELY LOW RATES.

Splendid Offers for 1860, '61, and '62.

THE NEW YORK TRIBUNE

Large Premiums!

TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the approaching season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly edition. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of.... $1 00

For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 1 00

For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 3 00

For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 8 00

For $50, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00

For $80, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....18 00

For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..23 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For $11 25, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of.....$2 00

For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 4 00

For $40, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00

For $60, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....17 00

For $100, Fifty Copies Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of....30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post Office and State should in all cases be plainly written. Payment always in advance.

Address THE TRIBUNE,

Instruction.

English and Classical School.

The subscriber respectfully announces to the citizens of Portsmouth, that if sufficiently encouraged, he will open, in this city, an English and Classical School, for both sexes.

The classes will be graded according to degrees of proficiency, and will be so sub-divided as to admit of the faithful education of each individual.

The studies pursued will include Latin, Greek, German, the ordinary English branches, the Mathematics, the Natural Sciences, History, English Literature, &c.

The following well known citizens have permitted their names to be used as references:—Rev. A. J. Patterson, Rev. E. B. Eddy, Rev. R. W. Humphrey, Albert R. Hatch, Esq., Dr. Robt. O. Treadwell, Phinehas Nichols, Esq., J. B. Upham, Esq.

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tubs of any thickness, and can be easily detached and set aside.

No House should be without one.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston; Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

NOTICE TO SUBSCRIBERS.—The bulk of our readers desire their papers early; and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or spoiled by storms, unless they have a drop-box cut for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place without,—and always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and for information of any instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physician's Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New-Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JANUARY 18, 1862.

NEW HAMPSHIRE ITEMS.

—— The 7th New Hampshire Volunteers, numbering 1,020 men, rank and file, arrived at Jersey City on Wednesday morning, and preparations were making for their departure, via the New Jersey Railroad and Transportation line, when a telegraphic communication was received from Washington directing the regiment to go into barracks in New York until further orders.

—— One Andrew J. Holmes has been arrested at Manchester, for being concerned in uttering and passing counterfeit "tens" on the Royalton Bank, Vt. It appears that some days since a letter directed to John P. Hall or Huel, Manchester, and post-marked at Fall River, Mass., was received at Manchester by a Mr. Hall, who found it to contain fifteen of the counterfeit "tens." He returned it to the postmaster, and subsequently the letter was returned to Fall River. Information of these facts were given to the Boston Police, and detective officer Heath was dispatched to Fall River to "work up" the matter. While patiently waiting in the Post Office there, Holmes came in, and calling for the letter was at once arrested. He makes the statement that he belongs in Andover, N. H., and that a stranger desired him to write to Manchester to have the letter returned to Fall River, and that he did so write, suspecting nothing wrong in the matter.

—— We learn from Robert E. Shillaber, of the 4th Company of Cavalry—the only member of that corps from this city, that the four New Hampshire Companies, now at Concord, will leave that city on Wednesday next, marching to Nashua, then taking the cars to Providence, R. I., where the remainder of the New England Cavalry Regiment are in camp, where they will remain for instruction and drill at present. They will next proceed to York, Penn. We doubt not they will sustain the reputation of the Granite State.

—— The Amoskeag Corporation have secured a contract with the War Department for making 10,000 rifled muskets of the Springfield pattern, at their machine shop in Manchester.

A Mechanic writes us a very long story to show that we misapprehend the recent trouble in the Brooklyn Navy Yard. We have room only for short stories, and therefore say that we are in favor of the workmen in the Navy Yard being paid just as much and working just as many hours as in other reputable and well-conducted ship yards—no less, no more. If that will satisfy "A Mechanic," we are with him; but the curse of our time is the general eagerness to get into public employment, on the understanding that more pay is to be had for less work than elsewhere. We desire to see this changed, and are willing to incur some misapprehension and obloquy if we can thereby bring about the end we seek—an equalization between the wages of those employed by the public and those who work for private individuals.—*New York Tribune.*

A Teacher's Testimony.—That veteran teacher, Benjamin Greenleaf, of Bradford, Mass., whose arithmetics have been so famous, was lately asked how many pupils he had instructed in the fifty years of his labors as a teacher. He replied:

"I have instructed six thousand pupils.—About fifty of these have become ministers of the gospel; as many more have become lawyers; a greater number have become doctors and teachers; a much larger number still have become farmers, and mechanics; four have been sent to the State Prison: two have been hanged,—and—*and a good many more ought to be!*"

☞ The work of building the "Temple of the Lord" at Great Salt Lake City, suspended by the crisis of '58, has been resumed. The Deseret News goes into raptures over it, avers that the "continual noise made by the many stone-cutters by their hammers and chisels is pleasing to the ear," and looks forward to the day when this saintly edifice "on the top of the mountains" will be completed and "heralded to the ends of the earth."

☞ In the U. S. Senate, Jan. 16, the contested election case of Frederick P. Stanton against Gen. Lane was settled.—Gen. Lane's right to his seat was confirmed by a vote of 24 against 16. It is understood that he, together with his staff, will shortly leave Washington for the purpose of assuming command of his division, in Kansas. There is perfect harmony of views between him and Gen. Hunter, who is in command of the Department of Kansas. He is a soldier, and will make his mark.

☞ It is said that every man of the third company of Sharpshooters raised in Vermont, has signed the allotment roll, and the amount assigned for the benefit of their families averages ten dollars a month for each man. Such men are an honor to the service, and no stronger evidence of good citizenship could be given by them.

☞ The cities of Washington and Georgetown are alarmed by the prevalence of the small pox.

THE REBELLION.

4000 Union Indians in Cherokee county were attacked on the 6th by a superior force of Texan rebels, and were compelled to retreat. They are now in Kansas.

A continual guerilla warfare is carried on in Johnson and Bates counties, Mo., by roving bands of rebels.

Gen. Sigel is strongly pressed for a Major Generalship by Senators and Representatives from the Northwest. Chicago particularly urges his appointment.

Steamship Constitution, from Boston, arrived at Fortress Monroe, Thursday morning. The last of the Burnside fleet has sailed. Part of his fleet was seen off Hatteras.

The gunboat Rhode Island, at New York from the Gulf, reports that three Federal gunboats left Ship Island on the 31st for Biloxi. The result was not learned, but as the Rhode Island was leaving, one of them was seen returning with three schooners in tow.

The rebel batteries at Pensacola having repeatedly fired at our small vessels, Fort Pickens opened on the rebel stamer Times, which was landing stores at the Navy Yard Jan. 1. The rebel batteries responded, and the firing was continued till evening, Fort Pickens firing the last shot. The rebel guns were well aimed, and most of their shells burst inside of the fort; only one man was wounded, however. One of our shots made a large breech in Fort Barrancas. In the evening our firing set Warrington on fire. The place was still burning on the evening of the 2d, when the Rhode Island left.

Port Royal advices state that an expedition towards Savannah is supposed to be in progress. Reconnoitering parties have proceeded beyond Tybee Island with apparatus for removing obstructions from the rivers and creeks south of Savannah river.—It is understood that the land force will consist of 10,000 men, and that Warsaw Inlet will be the first destination of the expedition. The railway is progressing across Hilton Head Island.

Sketches of Character.—The Boston Post says that ex-Senator, now rebel, Benjamin, is a noted gambler, and has wasted in this way the vast income which at one period he derived from his professional practice. On one occasion, after obtaining $70-000 in a great case against the celebrated John Randolph Grimes, he sat down for three days to a gambling table, and Slidell in that time won every dollar of that sum from him. Slidell is celebrated for his skill at this business, and has accumulated much of his fortune, it is said, in this way.

A Washington letter states that Jeff. Davis was well known in Washington to be engaged in gambling, debauchery, and drink; that it was an ordinary matter for Secretary Floyd to go to his office trembling from an overnight revel; and that Sec. Thompson's visits to a haunt of vice there were open and intolerable.

A sad picture, this, of rebels. It would not have been safe to draw it, while these men ruled the nation.

And we may well ask, are not the same or similar haunts still open in Washington? and still visited by titled officers?

It is no harm to ask, and there is no danger in asking, now, says Uncle Toby, because the slave power is not quite omnipotent there now,—though there does appear to be a desire to reinstal it, like setting "Dagon in his place again."

Another Forger.—Daniel E. James alias James Elliott Duryea, has been arrested at Newburgh, N. Y., on a charge of being an accomplice of George A. Tirrell, who was arrested in Boston on Saturday for forgery. The officer found in the possession of Duryea two N. H. bonds for $1000 each, supposed to be the ones obtained by means of a forged draft on the Metropolitan Bank, New York. The numbers, however, had been altered. He also had in his possession $2700 in gold. Duryea is an American, almost thirty years old. He has lived at different times in California, Mobile, and at various places at the West, and he has changed his business about as frequently as his place of residence. It has been ascertained that the $5000 drafts on Metropolitan Bank, New York, were altered from drafts which were obtained from the Mechanics' Bank, Worcester, by Geo. A. Tirrell. It is not known who altered the drafts, but Tirrell says it was done without his knowledge.

☞ A Washington dispatch, 17th, says the House Committee on Naval Affairs, having before them the subject of the employment, pay, &c., of the workmen in the Navy Yards, will soon report whether any further legislation is necessary.

☞ A murder of unusual atrocity was committed on Sunday morning, in Lockport, N. Y. Charles T. Thody, an old and respectable citizen of that village, was murdered in cold blood, by a man named Claudius Lloyd, who had slept with him the night previous.

☞ Sharpe's rifles have been ordered for the Sharpshooters at Col. Berdan's request.

Recollections of Old Acquaintance.

BY UNCLE TOBY.

Shepherd Ham.—This is in part a nickname: for the man's Christian name was William. Yet not one in ten of his cotemporaries called him by any other name than Shepherd; and not one in a hundred of his juniors and successors ever knew he had any other. His title was well-earned; and various jokes and by-words embodying his name were founded on his eccentricities. He was a bachelor; he died fifty years ago and upward;—and Uncle Toby is one of the nearest surviving relatives. If he does not write his biography and sketch his character now, there is some reason to fear no one will ever do it.

The writer's childhood, and the Shepherd's second childhood were passed in the same period of time. And lately, since the "Bloomer Costume" has made its advent among us, and since engravings of the same have appeared, Uncle Toby has seen visions of Shepherd Ham's petticoat-trowsers. If the reader will imagine a pair of corduroys, of no particular color, or if they must be colored, say a faded snuff color,—each leg of which was big enough to cover a man's body, but so short as only to reach just below the knee,—he will get some idea of one pair of petticoat trowsers—and if he will think of white dimity, well worn, and not very well washed, he may have a clear idea of another pair. But to get an image of the wearer, we must add a pair of long, loose boots, of coarse leather, dusty or muddy, according to the weather—varied occasionally by shoes of similar neatness—with or without stockings, just as it happened.—Add also a kind of frock coat with broad skirts, so long as to reach the knees, vest carelessly buttoned or open, bandanna neckerchief, long beard and shocking bad hat,—and we have a full length portrait. The whole style of dress was the shabby genteel—less genteel than shabby.

The wearer had been in his younger days a king's officer. While New Hampshire was a royal province, it was the custom for a surveyor to pass through the forests and put a certain mark, called a broad arrow, on such trees as would make masts for the royal navy. These trees must not be cut for any other purpose. William Ham was a Mast Maker by trade,—and was the King's Surveyor of Masts in New Hampshire;—as the revolution drew near, of course he became, as a tory, somewhat odious; and having, on one occasion, marked some trees already cut down, the people resented it, and he fled to Portsmouth for safety. The Revolution shortly after destroyed his office;—but he retained his silver-laced badges, and his tory feeling of dignity, to the day of his death.

After this loss of office, he ran coaches, and let horses and carriages for several years, and had, for those days, quite a fair business:—but his peculiarities, (one of which was closeness) ripened and increased, so that he neither shod his horses nor repaired his carriages. As a matter of course they could not let very well. His house, except a room or two where he lived, was filled with old saddles, bridles and harnesses; old sleighs that had the rickets; dilapidated coach bodies; and chaise, whose broadcloth linings made food for moths, while the crabbers afforded excellent lodgings for a large colony of mice. Old wheels, rusty axles, and parts of carriages filled the sheds and adorned the yard; while the stables sometimes contained a few old horses. Most of the horses, however, were commonly gone to grass, or at least gone up the road to look after it. Their owner, in his oddity, or as some said insanity, would often refuse to let any of them,—and as to selling them, that was utterly out of the question. Of course, horses, carriages and owner all grew old together; and his buildings likewise. The horses, by exposure became long haired and woolly; their tails and manes full and shaggy, and were tangled and matted with cuckold-buttons. In a storm, especially a snow-storm, the old man would be out to drive home his shabby, ill-conditioned beasts; and the more violent the storm, the greater became his solicitude to get them together.—The neighbors, as they looked from their windows, when the roads were deserted of travellers because the weather was bad, would exclaim, "There goes Shepherd Ham with his flock of horses." And in good truth he spent half his time in looking them up and getting them together, only to have them stray again. His old rickety stable doors could not detain them long, after they chose to go; and he had too much regard for horses' rights to tie them fast in a barn that was bare of hay or provender. His house, black and ragged with age and weather, stood among the most elegant mansions in the town where he lived, forming as whimsical a contrast to other buildings as he did to other men. And among his other notions, he was greatly concerned lest some person might break in while he was absent, and steal something. Odd as he was, he found a few companions who used to visit him, especially on Sundays. And as he never attended church for many years, the little knot that gathered around him was styled his meeting. Hence when any Sunday loafer was questioned as to his place of worship, he would reply that he had been to "Shepherd Ham's meeting," meaning merely that he had idled away the day.

As his strength failed, and his house afforded but a poor shelter, a brother persuaded him, after much ado, to leave his premises and go to the brother's house. He went, only on the condition that he should carry his *valuables* with him. He did so, and filled a room with old rubbish, in the midst of which stood his bed. There, as he lay or sat in his feebleness, he could see strings of old sleigh bells, assortments of old rusty harness buckles, some old bridles and stirrups, with old horse-shoes enough to keep off all the witches in Salem. And seeing this trumpery, he seemed comparatively happy, except when troubled with the fear that something might be stolen while he slept.

He was in this exactly like other misers, except that guineas or dollars take the place of bells and buckles. And like others, too, though he held his treasures so strongly, yet at last death loosened his grasp, and he passed away from his toys, leaving them "to heirs he knew not who."

His horses—*colts*, he called them, though ever so old—were sold for a trifle; the old carriages burnt: the rickety buildings removed. Years afterward "Shepherd Ham's Hill," where his house stood, was sold to a Baptist Church, and a substantial meeting house now stands thereon.

To the present generation he is only a name. In the next he will be nothing.—And yet in his way he was a proud man, with a strong will, and doubtless thought he was of great importance.

Yet the world has gone on without him, and never felt his loss. And so it will also go on, when thousands of greater and prouder ones than he, who now make a great figure among us, shall also die and be forgotten, or embalmed and remembered only in the story of their oddities and foibles, their weakness and frailty.

☞ The Tribune's dispatch says that Sec. Stanton was confirmed, 38 against 2. One of the dissentients was a Republican, voting against him simply because he did not personally know him, and could not, therefore, conscientiously record himself in his favor.

☞ The number of *cartes de visite* of Prince Albert which have been sold since his death, is surprising. One firm alone in London sold three thousand on the morning of his funeral.

Building in Boston.—During the year 1861 there were 490 buildings erected, at a cost of $3,706,550.

Special Notices.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was it so well made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the process. The Great DOCTOR for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc. etc., is in boxes, tin boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a household, and every family should have one,—a case of medicine we mean, sold by J. H. THACHER, Agent, 13 Market Sq, and agents in State of Maine at Portsmouth; M. S. Burr & Co., wholesale, Boston, Mass.; W. O. Phillips, wholesale, Portland, Me.; or sent anywhere by mail.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Low nese of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 Pills, by return mail. my28dsw3m

J. F. SHORES, JR., No. 1 Congress Block,

Is getting up a club to take this valuable paper at the low price of 80 cents per annum.

Any person desirous of subscribing can do so at any time during this month; old subscribers can renew their subscription at the same rate.

Local.

☞ Mr. James De Normandie, who preached so acceptably at the Unitarian Church on Sunday last, has been invited to preach there to morrow.

Prof. Taylor, of Andover, Mass., will preach at the North Church, to-morrow.

☞ Messrs. Newell & Foss will open a writing school, in the school-room under the Court House, on Tuesday evening next, and the many who need instruction in this branch will have a fine opportunity to obtain it from well-known and able teachers.

☞ The Hartford Times says Col. Colt's funeral was attended by a large concourse of people. The Putnam Phalanx and the Colt's Guards paraded in solemn array, their colors drooped in mourning, and 1500 workmen marched in parallel column. The body was dressed in a black coat and pants and white vest, and laid in a heavy Metalic coffin. On the breast of the deceased were beautiful Carmelias, and splendid wreaths of flowers were upon the coffin. The tomb, designed by Col. Colt himself, is upon the borders of the beautiful lake or reservoir, where rest the remains of his two departed children. The grave was built of solid masonry, in cement, and was precisely large enough to admit of the coffin and its case. Upon the bottom was a beautiful carpet.—When the remains were deposited, a marble slab was placed over them, on which is this inscription:—

SAMUEL COLT.
Born July 19, 1814;
Died January 10, 1862.
Kindest Husband, Father, Friend—Adieu.

The same plan of individual graves on this beautiful mound, or family tomb, was observed by Col. Colt in the burial of his children.

☞ The weightiest man in the Maine House of Representatives is Capt. D. Randall, of Island Falls; his age is 42, height 6 feet and 4 inches, and his weight 295 lbs. He is as nimble as a boy and his great weight is so evenly disposed that he does not appear heavier than ordinary men.—The tallest man is Thomas J. Demerritt, of Peru, age 54, height 6 feet 5 1-2 inches, weight 236 pounds. There are ten members whose average weight 212 is pounds.

☞ Robert Wilson, President of the Missouri State Convention, has been appointed by Governor Gamble, to fill one of the vacancies in the Senate of the United States occasioned by the expulsion of Messrs. Johnson and Polk.

☞ The Republican State Convention of Connecticut met at Hartford Thursday, and adopted the ticket nominated by the Union Convention of last week. The whole ticket was nominated by acclamation. The attendance at the Convention was not large. The resolutions endorse the action of the President and his policy, and call for a vigorous prosecution of the war.

☞ The Cleveland Plaindealer says of the new Secretary of war: "We know Edwin M. Stanton, the new appointee, well. He has more of the Bonaparte in his composition than any other man in America. The army will move on now, even if it goes the devil."

STRIKE.—The workmen in the Philadelphia Navy Yard struck, Monday, and call upon their brethren of Brooklyn, Boston and Portsmouth to co-operate with them in urging Congress to repeal the 8th section of the act.

☞ The Prince Imperial of France, tho' only five years and a half old, already speaks three foreign languages—English, German and Italian. The Springfield Republican suggests that before he is ten he may have to walk Spanish.

☞ A chemical invention to take the place of steam has been submitted to the Emperor by a French savant, who claims that it is without odor, requires no fuel, and twenty barrels of it will carry a vessel to India.

☞ About 1000 prisoners on each side have been exchanged, nearly 500 of whom were connected with the army of the Potomac. The system of exchanges inaugurated by our Government is fully reciprocated by the rebel authorities.

☞ Mason and Slidell arrived at St. George, Bermuda, on the 9th inst., and sailed for St. Thomas on the 10th, whence they would take passage for England.

☞ A superb cheese, both to look at and to taste, and weighing 134 pounds, has been made by Wm. Otis of Derby, Vt., for presentation to President Lincoln.

☞ Hon. E. M. Stanton, the new Secretary of War, is younger than most of those who have preceded him in that important office, being from forty to forty-five years of age.

☞ A man named John Enwright, living in West Flamboro, Canada, got drunk on Thursday morning, Jan. 9th, went home, turned his family out of doors, set the house on fire, and was burned up in it.

☞ Messrs. R. L. & H. Stuart, the great sugar refiners, donated to the poor and to various charitable societies in New York, the princely sum of $40,000 on the last Thanksgiving day.

IMMORTELLES.

THE SABBATH.

O, day most calm, most bright,
The fruit of this, the next world's bud,
The endorsement of supreme delight,
Writ by a friend and with his blood;
The couch of time, care's balm and bay!
The week were dark but for thy light,
Thy torch doth show the way.

Sundays the pillars are
On which heaven's palace arched lies:
The other days fill up the space
And hollow roomyith vanities;
They are the fruitful beds and borders
Of God's rich garden: that is bare
Which parts their ranks and borders.

The Sundays of man's life,
Threaded together on time's string,
Make bracelets to adorn the wife
Of the eternal, glorious King.
On Sunday heaven's gate stands ope;
Blessings are plentiful and rife,
More plentiful than hope. —*Herbert.*

THE SNOW.

The silvery Snow! the silvery Snow!
Like a glory it falls on the fields below!
And the trees with their diamond branches appear
Like the starry grove of some magical sphere;
While soft as music, and wild as white,
It glitters and floats in the pale moonlight,
And yearlings and river and foam as they flow;
Oh! who does not love the bright, beautiful snow!
Charles Swain.

☞ The Aroostook Herald has heard of a lady who left home to attend a ball on New Year's eve. On account of the drifted state of the roads, she was unable to return as soon as she anticipated, but by dint of perseverance got within two miles of home, at the close of four days, and *sent for the baby.*

☞ At the late funeral of the wife of Rev. Josiah Brower, in Stockbridge, the coffin was borne upon a bier by eight women, all of whom were relatives of the deceased.

☞ The office of "Marker" in the New York Custom House has been abolished, thereby effecting a saving of about $50,000 a year.

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably supersede *Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economising Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or on the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are as reasonable charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending.* Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

BLACKWOOD'S MAGAZINE

— AND THE —

BRITISH REVIEWS,

Great Inducements to Subscribe!

PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1.
THE LONDON QUARTERLY (CONSERVATIVE)

2.
THE EDINBURGH REVIEW (WHIG).

3.
THE NORTH BRITISH REVIEW (Free Church.

4.
THE WESTMINSTER REVIEW (LIBERAL).

5.
BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the ensuing year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS. (Regular Prices.)

Money current in the State where issued will be received at par.

POSTAGE.

The postage to any part of the United States will be but **Twenty-four Cents** a year for "Blackwood," and but **Fourteen Cents** a year for each of the Reviews.

At the above prices the Periodicals will be furnished for 1862, and as a

PREMIUM TO NEW SUBSCRIBERS,

the Nos. of the same Periodicals for 1860 will be furnished complete, *without additional charge.*

Unlike the more ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the Nos. for 1860, may be regarded nearly as valuable as for 1862.

Subscribers wishing also the Nos. for 1861, will be supplied at the following EXTREMELY LOW RATES.

Splendid Offers for 1860, '61, and '62.

THE NEW YORK TRIBUNE

Large Premiums!

TO OUR FRIENDS,

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the next three months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For **$12**, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of.... **$1 00**

For **$10**, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **1 00**

For **$20**, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **3 00**

For **$40**, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **8 00**

For **$50**, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **10 00**

For **$80**, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **18 00**

For **$100**, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.. **25 00**

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For **$11 25**, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of..... **$2 00**

For **$20**, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **4 00**

For **$40**, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **10 00**

For **$60**, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... **17 00**

For **$100**, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.... **30 00**

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted, subscribers to Reviews, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

Instruction.

English and Classical School.

The subscriber respectfully announces to the citizens of Portsmouth, that if sufficiently encouraged, he will open, in this city, an English and Classical School, for both sexes.

The classes will be graded according to degrees of proficiency, and will be so sub-divided as to admit of the faithful education of each individual.

The studies pursued will include Latin, Greek, German, the ordinary English branches, the Mathematics, the Natural Sciences, History, English Literature, &c.

The following well known citizens have permitted their names to be used as references:

Rev. A. J. Patterson, Rev. E. B. Eddy, Rev. R. W. Humphrey, Albert E. Hatch, Esq., Dr. Robt. O. Tredwell, Phineas Nichols, Esq., J. B. Upham, Esq.

And examine the PATENT

UNIVERSAL CLOTHES-WRINGER,

THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!

Will more than pay for itself in the Wear of Clothing.

FOUR REASONS

Why no one should be without one of them:

1st.—It will wring four times as fast as can be done by hand; much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.

2d.—Is simple, strong, and durable, and will not get out of repair.

3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.

4th.—It is readily and firmly secured, to tube of any thickness, and can be easily detached and set aside.

No House should be without one.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years, given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in bar or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

NOTICE TO SUBSCRIBERS.—The bulk of our readers desire their papers early; and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or spoiled by storms, unless they have a drop-box cut for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place without,—and always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and for information of any instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

SPEER'S SAMBUCI WINE
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and delicious qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the glands and Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

FRESH FIGS.
SPLENDID FIGS in *small* round and oval Boxes, Cartons, Drums and Bags, at
dec22 L. LAIGHTON'S

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JANUARY 20, 1862.

THE PRESENT CONDITION.—It is admitted by the Richmond journals that the inertion and *ennui* which have fallen upon the rebel troops,are working out terrible results. The Richmond Examiner says while the rebel army is accomplishing nothing, the Northern Government has been making movements and assaults, and carrying on plans of attack to suit themselves, without any delays or alarms, ever since they were compelled to make hasty preparations for the defence of Washington several months ago.

The Boston Post of Saturday remarks that "the whole tone of Southern papers would seem to indicate a fear that the rebellion is in immediate danger of breaking up."

In another article the same Post speaks of "a time when the Government was absolutely begging for money to carry on a war against a rebellion which threatened, as it is even now threatening its very *existence*."

It is devoutly to be hoped the rebellion may speedily break up, rather than the U. S. Government lose its existence. The citizens of the rebellious regions seem as impatient as the loyal people of the United States, of what appears to them a strange delay in the army. But the two opposing armies are both formidable.

We, of the United States, have undoubtedly more than double the resources of the rebels,—but while they use *all means* of success, without scruple,—we hesitate to strike their weakest spot,—for fear we should hurt somebody or damage some abstraction.

☞ The Times Washington despatch says that the committee on the conduct of the war have resolved to advise the immediate passage of a bill to punish with death any person who commits fraud upon the Government, whereby a soldier is bodily injured, as for instance in the sale of unsound provisions; also to punish with imprisonment and confiscation of all their property and government dues,all contractors who in any way defraud the government in the quality of goods sold, or services pretended to be rendered to the government.

☞ The Washington correspondent of the Philadelphia North American, says that matters are progressing favorably for the establishment of more extended commercial and friendly relations with Hayti. The latest intelligence (authentic) from Port au Prince was to the effect that the appointment of a consul by the United States Government would be promptly followed by the appointment of a prominent Bostonian, doing business in Hayti, as consul from that country to the Government at Washington.

☞ The clock on St. Paul's, London, is a big thing. The pendulum is fourteen feet long, and the weight at the end of it is one hundred pounds: the dial on the outside is regulated by a smaller one within; the length of the minute hand on the exterior dials is eight feet, and the weight of seventy-five pounds; the length of the hour figures is two feet and two and a half inches.

COTTON GOODS.—Heavy sheetings at the manufactories are now firm at 16 cents per yard; a year ago they were but 7 3-4 cents. Denims are 15 1-2 cents, which, a year ago, were 9 1-2. Allen's, Daniels', American and Sprague prints are now sold at 14 cents, which, a year since, were sold at 7 1-2 to 8 cents. Cochecoes and Merrimacs are firm at 14 1-2 to 15 cents.

☞ The want of branch post-offices in the leading cities being severely felt, the Committee on Postal Affairs in the House have agreed upon reporting a bill, authorizing their establishment by any Postmaster wherever the public service seems to demand the same. The additional charge upon letters will be one cent per half ounce.

☞ An old man named Marcus T. C. Ashley, who has been partially insane for some time past, has been amusing himself lately by placing obstructions on the Old Colony Railroad track, near New Bedford, Mass. On Thursday afternoon a train was nearly thrown from the track by two iron rails be had placed in the way.

☞ At the last meeting of the Illinois State Agricultural Society, at Springfield, Mr. J. H. Smith, of Quincy, exhibited one ton of sugar made by himself from Northern cane. He states that about seven-tenths of the syrup runs to sugar, and that he can make the sugar at five cents per pound and the molasses at twenty-five cents per gallon, and realize more profit from an acre of cane than he can from an acre of corn.

☞ John C. Breckinridge was at Bowling Green last week, which does away with the story that he and Hunter had gone to Europe.

THE REBELLION.

The Federal troops stationed at Romney, Western Virginia, made a hasty retreat from that place, on the night of the 10th inst. Some of the companies were compelled to destroy a portion of their tents for the want of transportation, and a considerable quantity of provisions, such as bacon, &c., was destroyed for the same reason. They left the place about 6 o'cl'k on Friday evening, and reached Patterson's creek, a place on the Potomac, about 15 miles north of Romney, on Saturday morning about 5 o'clock. At the last accounts they were entrenching themselves at Patterson's creek. Gen. Jackson still remained at Bath with a large force of rebel troops. The Ohio and Indiana regiments express a strong desire for Gen. Rosecrans to be put in command, and say with 30,000 men he would whip Jackson, take Winchester, and turn the right flank of Manassas within a fortnight.

The brigade which has left Rollo, Mo., for the West within the past three days is composed of four regiments and Backoff's and Hoffman's batteries, under command of Gen. Otterhans. Another brigade under Gen. Sigel will probably leave in a day or two, and Gen. Sigel will undoubtedly assume command of the entire division at the proper time.

An expedition from Cairo, Ill., has returned, bringing 23 prisoners, among them Capt. Day, of Jeff. Thompson's army.

In the Southern papers is an exaggerated account of the affair between Humphrey Marshall and Col. Garfield, in which it is stated that the former was retreating when he was attacked. The fighting is said to have been very hot, and the rebesl, of course, gained the victory with a small loss.

A dispatch from Minister Adams, received by the Arabia at Halifax, says that the Sumter has arrived at Cadiz, having burned three vessels.

It was confidently asserted at Fortress Monroe on Friday that Gen. Wool had notified Gen. Huger, at Norfolk, to remove the women and children from that city.—Active naval preparations were in progress at the Fortress, and there was every evidence of immediate operations.

150 released prisoners arrived at Fortress Monroe on Friday, among them, J. S. Heaton and Henry Tibbetts, 2d N. H. Regt.—It was reported that the rebels had abandoned Roanoke Island, in Pamlico Sound. It was also said that they were preparing to evacuate Yorktown, but this was not generally credited.

It is reported that Gen. Lane will leave on Monday for Kansas, to take the head of his brigade. He had an interview with President Lincoln, the Secretary of War, and Gen. McClellan. They gave him full liberty to conduct the campaign in Kansas on his own principles.

Senator Wilson's bill in relation to volunteers was introduced Friday. It provides that no greater number shall be mustered into the service than authorized by the act of July 22, 1861, (500,000) and that all in excess of that number shall be discharged.

Port Royal letters state the rebel steamer Isabel was much damaged by the shells of the Mobican while running the blockade. One shell knocked off her entire stern, and she barely got in afloat. The Mohican chased her under the batteries of Morris Island. The Isabel returned her fire, but without avail.

A dispatch from Hancock, Md., Saturday, says Jackson had disappeared with the whole of his rebel force, and is believed to have retired to Winchester.

Mr. Stanton enters upon his duties as Secretary of war to-day, Monday.

The rebel batteries opened on Gen. Hooker's command on the Maryland shore, Friday, but did no damage.

☞ The N. Y. World pays a just tribute to ex-Governor Hicks of Maryland, in saying that probably no single man has done so much to foil the schemes of the rebel conspirators, and to save the national capital, as he. When the secret history of last Winter's plots comes to be written, it will be shown, if we mistake not, that it was his Roman firmness that was the chief obstacle to a contemplated hostile demonstration upon Washington before Buchanan left office; and it was his steadfastness afterwards that held the State to its moorings,through all the stormy spring, in spite of a secession majority in the Legislature and the traitorous frenzy of the Baltimore mob. He alone of all the Governors of the Slave States, responded favorably to the Proclamation of the President calling for volunteers; and on no occasion did his loyal spirit fail him.

☞ There is a glut of army woolens in the market, so that the price has fallen ten per cent., and there are half a million yards in New York unsold. Cotton goods are quiet and the high prices have checked the demand. There are now in the hands of jobbers, retailers and speculators a large part of all that will be wanted for spring trade.

DASELL FEMALE SEMINARY. The next term of this excellent Institution begins Feb. 20. See advertisement.

NEW HAMPSHIRE ITEMS.

—— The editor of the Nashua Telegraph has been attracted by a hammer, which, judging from his discription, must be "the greatest contrivance in the way of a carpet hammer ever before invented"—or since. He says "the face of the hammer is a magnet, so that in nailing down a carpet all one has to do, is just to scatter his tacks so that they shall not be too near each other—to prevent getting more than one at a time—and while he holds the carpet in place with one hand, he touches the head of the tack with a hammer, when it instantly becomes attached to it, then with a single blow it is driven where it is wanted without touching the tack." It (the tack or the hammer—we can't tell which) must be a very convenient article.

—— Rev. B. F. Eaton has accepted a call from the Universalist Society of Dover.

—— Samuel M. Wheeler, Esq., for some years a Director of the Dover Bank, has resigned, and has been elected President of the Langdon Bank, vice W. H. Esty, resigned.

—— The branch railroad lately built between Suncook and Hookselt crosses the Merrimac just above Hookselt Falls, and at this point convenient islands enabled the architects of the bridge—or series of short bridges, for there are in reality five—to find firm holding ground for piers. The Statesman, however, says people got the impression that there had been too much economy in the use of timber, and that before long some part of the bridge would prove weak, and drop a train into the river. It was, therefore, determined to have an adequate test. So, on Monday last, four freight cars were loaded with stone, to the amount of 165 tons, being *one and one tenth tons* to each foot of the cars in length. This train was first run upon the massive old bridge just below Hookselt station. The deflection of one span was found to be three fourths of an inch; of the other one half inch. This was very satisfactory. Then the cars moved up on the new bridge. The engineer sighted carefully, and gave the deflection, at its greatest point, at half an inch. It was the same with the other spans, and the ghost which has haunted the bridge is happily laid. The greatest deflection at the passage of a locomotive and tender weighing forty-seven tons, was but one quarter of an inch. The new bridge is called by its designer a *triple lattice* bridge. It has three sections of timber in the sides, instead of two, and a latent thickness of one foot. Arranged thus, timber makes less lateral show, but is quite as effective.

CHARGE OF CHILD MURDER.—Ellen Cheney, wife of George A. Cheney, and Laura Weeks, wife of John Weeks, were before the Boston Police Court, Friday, on a complaint charging them with abandoning a male infant child of the age of two months, named George A. Cheney, Jr., in the open and cold air, the child thereby becoming so chilled that it died. The case was continued till Tuesday next,and the defendants were fully committed till that time —the crime with which they are charged being unbailable.

THE NEXT NAVAL EXPEDITION.—The next naval expedition, which is now preparing at New York and other points, is to be commanded by Com. Farragut, and reports are abroad, some stating that it is destined for Savannah, and others assigning it for the western part of the Gulf. It will be by far the most powerful naval force yet fitted out, and will consist of the Richmond, Pensacola and other large steam frigates, a great number of gunboats, and twenty or thirty vessels carrying mortars and thirty-two pounders.

☞ At a recent meeting of the Standing Committee of the General Theological Library, in Boston, at which the Rev. Dr. Burroughs, of this city, presided, it was stated that 160 subscribers had been gained toward the 200 needed before the society can be organized. Rev. Dr. Farnham was appointed Secretary pro tem., and Rev. Dr. Burroughs, Rev. Dr. Lothrop, and J. Sullivan Warren were made a committee to act with the Secretary to receive donations of books and obtain subscribers.

☞ General Burnside has three of the ablest Brigadiers now in the military service of the United States at the head of the three several brigades of infantry under his command—General Parke, (of Topographical Engineers, U. S. A.,) Reno, (of the U. S. Ordnance Corps,) and Foster, (of the U. S. Military Engineers.) There are no other three young officers of the regular army who stand higher, professionally, with the rest of the service.

☞ Washington dispatches state that the Post Office Committee of the Senate will report an amendment to the bill abolishing the franking privilege, so as to retain the right of franking for the various Departments of the Government.

☞ Philadelphia has the largest Fire Department in the world. It consists of 190 companies, 27 steam engines, 46 hand engines,106 hose carriages with four wheels, 10 with two wheels. The estimated value of the property is over one million dollars.

CONGRESS, Jan. 17. — In the U. S. Senate Senator Howard of Michigan, elected in the place of Mr. Bingham, appeared and took his seat. The bill extending the privilege of sending letters without prepaying, to sailors and marines, was passed. The Senate confirmed Mr. Cameron's nomination as Minister to Russia, 24 to 14. The nomination of Charles H. Foster as Marshal of North Carolina was rejected by the Senate. Mr. Fessenden, from the Committee on Finance, reported back the House joint resolution declaratory of the purpose of Congress to impose a tax, which passed—yeas 39, nays 1.

In the House, the Pennsylvania contested election case was decided in favor of Lehman. The Committee on the District of Columbia reported that there were no abuses in Marshal Lamon's jail regulations calling for interposition on the part of the House. The West Point appropriation bill was reported. The fortification bill was passed as originally reported. It appropriates an aggregate of $5,960,000.—Among the appropriations are $100,000 for Fort Knox, on the Penobscot river, Maine; $100,000 for the fort on Hog Island, Portland harbor; $75,000 for Fort Warren, and $50,000 for Fort Winthrop,Boston harbor; $100,000 for the fort in New Bedford harbor. The appropriation also includes the following for the year 1862; $50,000 for Fort Knox; $50,000 for Hog Island Fort, Portland; $50,000 for Fort Winthrop and exterior batteries; $50,000 for the fort at New Bedford; $50,000 for Fort Adams, at Newport. [We see no appropriation for forts at the mouth of Portsmouth harbor—from which circumstance we infer that our defences are supposed to be ample! To fortify Boston and Portland and leave Portsmouth accessible to a hostile fleet, would be like strengthening the wings of an an army, and letting the center be taken if the enemy chose to do it, as he doubtless would.]

☞ Governor Dawson left Salt Lake City, Dec. 31st, on account of a personal difficulty. He was pursued, whipped and robbed 12 miles east of there. Seven desperadoes who committed the assault have been arrested. Three of them in endeavoring to escape from the officers were killed.

☞ There are artesian wells in China more than a thousand feet deep. Watertight compartments in vessels are not a modern invention—the Chinese built them hundreds of years ago.

Special Notices.

TRUTH IS MIGHTY and always prevails, the it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahnemann, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORD'S system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much to their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—A case of his medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq., and corner State and Pleasant sts., Portsmouth; M. S. BURR & CO., wholesale, Boston, Mass.; W. O. PHILLIPS, wholesale, Portland, Me.; or sent anywhere by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar complaints. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 60 Pills, by return mail. my28dawśm

Local.

☞ The body of Enoch L. Flood was found in a timber shed at Noble's Island on Saturday afternoon last by two men who, having crossed the river in a boat, stopped at that point. We understand that he had been missing since Friday, Jan. 10th, and information of the fact having been given on Friday last, to the Police, they were endeavoring to ascertain his whereabouts, when they learned of the discovery of a dead body as above, and officer Bailey identified it as that of Flood. Flood was a shoemaker by trade, and is represented to have once been in good circumstances, residing in a house which he owned near the powder house on Islington road; but having acquired a taste for intoxicating drinks, to have fallen rapidly during the past few years. He was apparently between forty-five and fifty years of age.

The body was removed to the Almshouse, and on Sunday morning an inquest was held by John Bennett, Esq., Coroner. An examination of the body was made by Dr. A. B. Bennett, in the presence of Mayor Simes, and of a coroner's jury, consisting of William H. Rollins, Marcellus Bufford and John E. Rider, Esqs., when the inquest was adjourned until this morning at nine o'clock.

In the unfortunate man's pockets were found two bottles,—empty but retaining a strong odor of rum, three short tobacco pipes, a memorandum book, a pocket book containing a few cents, and one or two other articles.

His friends subsequently took charge of the body, and a funeral took place from the Alms-house on Sunday afternoon.

☞ Although there was comparatively a slight fall of snow in the storm on Saturday, yet the trains over the Eastern railroad were much detained by the ice which formed upon the track. The trains due here at five o'clock P. M. did not arrive until nearly half past seven, and, consequently, the train for Boston was detained here until the arrival of the down train due at half past seven, but which did not reach the depot till quarter past ten. The delay was occasioned almost entirely by the condition of the track between Greenland and this city.

☞ It will be seen by our advertising columns that the Concord & Portsmouth Railroad have declared a dividend of $1.50 per share, which is payable at the office of Maj. Wm. H. Hackett, in this city on Tuesday next, Jan. 21. This dividend, we are informed, is made from the rent of the road up to the close of the year 1861, the new lease having commenced on the first day of the present year. We are glad to know that the travel over this road since the opening of the Manchester branch has largely increased.

☞ The funeral services of Mr. Barnabee were performed on Saturday afternoon at the Stone Church by Rev. Dr. Peabody, the late pastor, and attended by the Odd Fellows, a large family circle of mourners, and other citizens.

☞ Messrs. Newell & Foss will open a writing school, in the school-room under the Court House, on Tuesday evening next, and the many who need instruction in this branch will have a fine opportunity to obtain it from well-known and able teachers.

☞ The third of Rev. Mr. Lord's course of lectures, it will be seen, is announced for this, Monday, evening.

A gentleman has recently changed his residence from Newbury to Newburport, who in doing so did not move out of the house or change a thing in it. There is another house similarly situated, in which the dividing line of the towns runs through a bedroom occupied by a man and his wife; and the bed is situated so that the man sleeps in the town where he votes, and his wife sleeps in this city.—*Newburyport Her.*

GEN. BUTLER'S YACHT.—There is now lying near the end of Long wharf, in Boston, a propeller of 482 tons, named the SAXON, taking in stores for Butler's expedition. She was built at Bangor to run as a packet between that port and Boston, but has since been fitted as a gunboat.

Colfax's bill, prohibiting the carriage of printed matter outside of the mails, is likely to meet with a tremendous opposition from publishers, periodical dealers, newspaper readers and paper makers. A Washington letter writer thinks if Mr. Colfax were able to resist such a combination of forces, he would deserve an important command in our army.—*Boston Post.*

☞ A clergyman from New Orleans, who holds a chaplain's commission in the rebel army, alleges to the police that he was enticed into a concert saloon in New York a few nights since and robbed of a gold watch, his gold cross and $2000 in money. A well dressed stranger, hotel, glass of peppermint water, fell asleep, &c., &c.

We learn from a Memphis paper that by the explosion of a gun, one of Gen. Polk's ears was made to run. We hope the explosion of other guns on the Mississippi will cause the whole rebel army to follow this ear example.

☞ Rev. Henry D. Moore, of Portland and formerly of this city, has been elected Chaplain of the Maine 13th Regiment.

TOO MUCH OF A GOOD THING.—About thirty couple who went to Monticello from Houlton, Maine, to attend a ball, were obliged to stay three days in that place, on account of severe storms.

☞ A new rebel flag, a white cross upon a red ground, with stars above and below the arms, is said to have made its appearance at Manassas. Some think that this is to supersede the Stars and Bars altogether.

☞ From private advices received at Washington, serious apprehensions are entertained that the heroic Parson Brownlow will be assassinated before he can reach the Tennessee border, even with a pass from the rebel War Department.

☞ The Court of Russia has just gone into mourning for twelve days, and the ball to be given on the occasion of the *fete* day of the Hereditary Grand Duke has been countermanded, in consequence of the death of the Prince Consort of England.

☞ The city government of Bangor, Maine, has decided to furnish no further supplies to the families of such soldiers as shall refuse to allot at least ten dollars per month of their pay toward the support of their families.

☞ Godey's Lady's Book for February, has "Winter" for a frontispiece. "The Doubtful Note" is a humorous and satirical wood cut. There are 60 engravings, and a great variety of matter.

☞ A number of recruiting officers in New York have been mustered out of service because they connived at the charging of rent for offices, when these are only barrooms.

☞ During the late eruption of Vesuvius, the people for miles around had to use umbrellas to ward off the showers of dust which fell, reaching far beyond Capri and Salerno.

In the British House of Commons, when the Speaker has occasion to quiet any disturbance, he rises in his place and says, "Honorable members will observe order, or I shall name names."

All animals, from man down to the lowest, prey upon each other. The idea is somewhat cannibalistic, but it is mainly true, as who hasn't seen those who looked good enough to eat?

☞ Two ships arrived at New York on Thursday, bringing cotton from Liverpool; one had 700 bales, the other 675.

THE NEW-HAMPSHIRE GAZETTE and Rockingham Weekly Chronicle, containing a summary of the news of the week, published Thursday, and for sale at the Chronicle Counting Room. Price 3 cents. Only $1 per year, in advance.

NOTICE TO ADVERTISERS.—The notices of yearly advertisers in the Daily Chronicle, are also inserted in the Weekly *once*, without extra charge; but subsequent Weekly insertions must be paid for, if ordered.

☞ Having made arrangements for furnishing good custom-made BOOTS and SHOES for the people; also for all kinds of repairing in the same line, an invitation is extended to all who are in need of something good to wear to call at No. 6 MARKET SQUARE. D. R. AMBROSE.

N. B.—Newspapers and Periodicals as heretofore. dec30

☞ See a woman, in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals and by the first class families in Paris, London, and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them anywhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure patent, and the usual great delay thereon, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economizing Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other means of applying them. As some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottle; it is handsomer and better than the common hair-brush; it regulates the quantity of fluid used; to a drop; it is perfectly *tight*, and can be used over on the trunk or on the cars; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

BLACKWOOD'S MAGAZINE

— AND THE —

BRITISH REVIEWS,

Great Inducements to Subscribe!

PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1.
THE LONDON QUARTERLY (CONSERVATIVE)
2.
THE EDINBURGH REVIEW (WHIG).
3.
THE NORTH BRITISH REVIEW (Free Church.
4.
THE WESTMINSTER REVIEW (LIBERAL).
5.
BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

THE NEW YORK TRIBUNE

Large Premiums!

TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement—not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether originals or renewals) to our Weekly and Semi-Weekly editions. We do not know that we would offer anything of similar value more generally acceptable and useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the two months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *address each subscriber*, and Pens or Pens and cases to value of....$1 00

For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....1 00

For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....3 00

For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....8 00

For $50, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00

For $80, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....18 00

For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..$25 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For $11 25, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of.....$2 00

For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....4 00

For $40, Twenty Cop. Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00

For $60, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....17 00

For $100, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to va ue of....$30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—See "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than THIRTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines for medicinal and other purposes,* we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no traveling or other agents whatever. Persons who require *Pure Liquors or Wines* in bar or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

NOTICE TO SUBSCRIBERS.—The bulk of our readers desire their papers early: and those whose premises are not open till late, run much risk of having their papers stolen, blown away, or spoiled by storms, unless they have a drop-box cut for them in some door or shutter.

Our Carriers are expected to open every unfastened door at subscribers' residences, and place the paper inside; if door not unfastened, then to deposit paper in the safest place without,—and always to ring the bell, or knock. At stores, when open, to place the paper on the counter; when shut, in the best place outside. Any loss of papers, on account of failure to comply with these rules, we will make good; but when we are convinced that the paper has once been thus delivered, we cannot furnish second copies.

Carriers are not allowed to employ other boys to deliver any of their papers—and we informs them of many instances of such breach of trust, and violation of orders, we shall be much obliged to our subscribers.

SPEER'S SAMBUCI WINE

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.

For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS.

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints.

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific. Its fame is universal by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glandular Kidneys, and Urinary Organs, very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich, peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

TUESDAY, JANUARY 21, 1862.

HAYTI—*Its Nationality — Culture of Cotton, et cetera.*—All have heard something of the Republic of Hayti. Comparatively few are well informed of the importance and value of a commercial intercourse between that island, the second of the great Antilles, and the United States. Before the African race expelled the French from the island, sixty years ago, the possessions of the latter there were considered "as the Garden of the West Indies," and for beautiful scenery, richness of soil, lofty mountains, extensive valleys and plains, salubrity and variety of climate, the island was deemed to be "the paradise of the new world."

It is generally known, (and shuddered at,) that the cities there were burnt, and it is commonly supposed that the slaves made the havoc, to get their freedom: but it was not so. By the French Republic all men in Hayti were declared free. Bonaparte undertook to make them slaves again—but the Haytiens fought for their freedom with fire and sword,—and were successful. But the French army was destroyed.

Since the Republic has been established and freedom enjoyed, there has been a continual improvement, but much remains to be effected in agricultural and mental culture. Already we have a very considerable commerce with Hayti, but as we have not yet acknowledged the national independence of the Haytiens, as many other nations have done long since, it remains as an act of justice as well as interest to do it at once. The objections, only *skin-deep*, made by our Southern rulers, to do it, had no weight with foreign governments.

Without a particular enumeration, it may be said that all the various productions of the inter-tropical climates may be found there—all the varieties of trees, many of the most beautiful for mechanical and ornamental purposes—all the vegetable, cereal, and fruit varieties that are found elsewhere; gold and other minerals—cotton of an excellent quality grows with extraordinary facility—the sugar cane also—rice, tobacco, *et cetera*. According to authenticated statements there is scarcely any thing that grows on the earth's surface but what may there be raised, and of many kinds there are two crops in a year.

The mountains render the climate healthy and temperate rather than excessively warm, except some days in the dry season. There are large tracts of land to be brought into a state of cultivation, sufficient perhaps for two millions, which the Government now offers free in lots to the people of African descent in our Union who will emigrate to Hayti.

By acknowledging her independence and establishing amicable relations by a commercial treaty, Hayti may become to the United States what Cuba is to Spain, without, as Spain now does, supporting a standing army, and the colored race will soon become as intelligent with free institutions as the emancipated million of the same race in the British West India Islands.

Two highly important plans are now presented. One for our Government to transport to Hayti all the free colored and fugitive slaves, not needed in our service, who may escape and implore our protection.—The distance is short and the expense would be small. Every slave escaping would weaken directly or indirectly, the resources of the rebel states.

The other plan is what the President in his last message to Congress has suggested, and what we several years ago publicly advocated:—to set off a considerable territory of the United States for persons of African descent who may by escape or otherwise seek an asylum of freedom in it — and let our Congress pass an irrevocable decree or State ordinance, forever prohibiting involuntary servitude in it, except for crime,—the Territory to remain under the general jurisdiction of the Federal Government.—No matter whether the territory be in a very warm or Northern climate.

The two plans combined would tend rapidly to overthrow slavery, and, perhaps, prevent a servile insurrection, a result predicted by Mr. Jefferson, unless suitable measures should be adopted for emancipation.—But as slavery was the cause of the Southern rulers waging war against our Northern freemen in order to subvert our free institutions, it is as certain as any future event can be, that there can be no durable or permanent peace until the cause of the war shall first be removed. In vain may we attempt to shut our eyes against this inevitable result. But it is a logical conclusion, that the abolition of slavery would be a greater blessing to the South, especially to the white masses, than it would be to our free states.

NORTE.

☞ The man who betrayed the Union Organization in Arkansas, Edmundson, was called to the door of his house about 10 o'clock at night, when he was instantly shot down by guns in the hands of six men (disguised) who were in the yard.

THE REBELLION.

A private dispatch to the President confirms the report that the rebels had abandoned Roancke Island in Albemarle Sound, and evacuated Yorktown. It is evident that the concentric movement upon the enemy has commenced in earnest, and they are beginning to see it.

An order has been issued from the army headquarters, directing that no more furloughs shall be granted, except for some urgent business, or in case of sickness, the exigencies of the service requiring that every officer and soldier able to do duty should be at his post.

An official report from Maj. Gen. Halleck says Maj. Hubbard's cavalry attacked a rebel force of 900 men at Silver Creek, in Howard Co., Mo., Col. Poindexter, on the 18th inst., and routed them. The loss of the enemy was 40 killed and 60 wounded. Our force captured 160 horses, 60 wagons, 105 tents, 80 kegs of powder, 500 guns and 28 prisoners.

It is said that a telegraphic dispatch has been received in New York city, announcing that the privateer Sumter had been sunk by a U. S. gunboat near Cadiz, where the Sumter was last reported to be. Those best informed seem inclined to the belief that the Sumter has not been at Cadiz; and that if she had been, there was no U. S. gunboat there to sink her.

Gen. Buel is concentrating a powerful force at Green river, and it is said he is now ready for a forward movement. The rebels at and about Bowling Green, Ky., are destroying the railroad, and doing every thing to retard the progress of our army.

There was a battle at Somerset, Ky., on Saturday, between Schoepff's and Zollicoffer's forces, lasting from early morning until dark. Zollicoffer was killed, and his forces entirely defeated. Loss heavy on both sides.

[The five o'clock Traveller Extra contained no further particulars. The storm seriously interfered with the working of the telegraph wires.]

☞ The Boston Journal, after stating that another of the Committee, appointed by the hands in the Charlestown Navy Yard, had returned from Washington, and that his opinion is that the strike of the workmen in the Portsmouth and Philadelphia Yards will materially injure the prospect of a repeal of the obnoxious section in the act, add:—

"We understand from other sources that when it was ascertained at Washington that 900 men at the Portsmouth Navy Yard had refused to work, a dispatch was at once sent to the Commandant to notify the men immediately that unless they resumed labor their places would be filled by other men. In consequence of this all but three or four have gone to work."

If the impression which has prevailed in this city since the men went to work, be correct, the Journal's informant was mistaken in regard to this matter: as it has been understood here, the men went to work of their own free will, and because they felt assured, when they had examined their position calmly and dispassionately, that this was the proper course for them to pursue, as men and loyal citizens. The statement that they were influenced by threats, or that they did by compulsion what they would not have done cheerfully and willingly, would be unjust to them.

—— The sons of New Hampshire in New York on Saturday evening gave a public dinner at the Metropolitan Hotel to the officers of the 7th N. H. Regiment, now temporarily in that city. About one hundred and thirty persons sat down to the banquet. Charles A. Soule, Esq., presided, and speeches were made by him, Lieut. Col. Abbott of the 7th, H. B. Perkins, Horace Greeley, Gen. Wm. Hall, Judge Charles A. Peabody, Judge Romney and others. Col. Putnam, the commander of the regiment, was unavoidably absent. The occasion was one of much enjoyment.

AMERICAN HOUSE, BOSTON.—We take pleasure in calling attention to the advertisement of this house in to-day's paper.—It has won a reputation as a hotel, under the direction of its landlord, Mr. Rice, which has secured it popularity with the travelling public not surpassed by any similar house in the United States. It is spacious, conveniently arranged, well superintended in all its departments, and presents as many comforts for the enjoyment of its lodgers as can be found between the four walls of any dwelling for the wayfarer.

☞ A Washington dispatch says the steamer Rhode Island at Philadelphia has been ordered to Boston for repairs, in consequence of the strike at the Philadelphia Navy Yard. If the strike there continues all the Government vessels will be ordered elsewhere.

☞ Mr Ely, M. C., has been presented with a horse. The Albany Argus thinks the gift would have been more useful if presented previous to Bull Run.

☞ The Florida Legislature recently passed an act prohibiting the exportation of provisions from that State.

"NEWS FROM THE WAR."

Two women sit at a farm-house door,
Busily reading the news,
While softly around them fair Twilight sheds
Her tender shadows and dews.

Peace smiles in the cloudless heaven above;
Peace rests on the landscape fair;
And Peace, like a holy spirit of love,
Broods in the balmy air.

But not one ray of peace illumines
Those sad and wistful eyes,
Which search that printed record o'er
As mariners search the skies.

Look on their faces—one like a rose
Fresh with the beauty of May;
The other pale as a waning moon
Seen through thin clouds of gray.

Yet, though one is young and the other old,
With the same soft glory they shine;
For they're tinted with tenderest light and [shades
By Love, the artist divine.

Now, fast as a radiant vision, fades
The glow of the western skies;
Yet the readers read on—unmindful of all
Save the paper before their eyes.

Nothing to them the charms of that hour—
The magic of meadow and hill—
For spirits bowed down with a weight of care,
Are blind to the beautiful still.

Deeper the shadows of twilight fall;
More hushed grows the dewy air,
When suddenly breaks on that holy calm
A quick, wild cry of despair.

The younger glances have found it first
That record so sad and so brief;
"Mortally wounded!"—two dread words—
Winged arrows of pain and grief.

"Mortally wounded"—look again;
Alas! it is all too true—
Not the brave alone, but the fond and fair
Are mortally wounded, too.

He, on the battle-field far away;
They, in their quiet home—
The wife and the mother, who never more
Shall see their loved hero come.

The grass will grow where the warrior fell,
And sweet wild flowers may bloom
On the very turf once blackened and burned
By the fearful fires of doom.

But the smiling summers, that come and go,
Can never, never heal
The bleeding bosoms which felt to day
Something sharper than steel.

Mortally wounded!"—oh, dread War!
Many a victim is thine
Save those who hear your terrible voice
Go thundering along the line!

If we give proud names and echoing hymns,
And build up monuments grand
To the gallant spirits who suffer and fall
In defence of their native land;

Let us yield a tenderer tribute still—
Sad tears and a pitying sigh,
To the uncrowned martyrs who silently sink,
And die when their heroes die.

☞ The U. S. steamer De Soto arrived at Ship Island about the last of December, having in tow the French war steamer Milan, disabled—the De Soto having run into her at night, off the Mississippi passes; probably the correct version of the affair. A different account is received by the way of Memphis, viz., that the De Soto fired into the Milan, on account of some suspicious movement, indicating a purpose to run the blockade.

Special Notices.

TRUTH IS MIGHTY and always prevails, tho it may at times meet with such opposition that makes the contest a protracted one. Such an one has the Homeopathic mode of treatment met, but nobly have its champions stood up for the right, and they are now reaping their reward. Never since the discovery was first made by the immortal Hahneman, has it numbered so many friends as it does at this time. Improvements and new discoveries in the method of treatment, as well as the simplifying the preparation of the medicine, which is done by DOCT. GIFFORDS system of CURATIVES, have no doubt done much to popularize the practice. His SPECIFICS for the different diseases, for instance, headaches, coughs or colds, dyspepsia, biliousness, croup, catarrh, piles, etc., etc., put up in neat boxes, and sold at 25 cts. each, are doing much, by their efficiency of action, in arresting disease, to open the eyes of the public to the absurd practice that has long been considered "regular." A case of these Curatives for family use are getting to be about as common as babies in a house, and every family should have one.—a case of medicine we mean, sold by J. H. THACHER, Agent, 12 Market Sq., and corner State and Pleasant sts., Portsmouth; M. S. BURR & Co., wholesale, Boston, Mass.; W. G. PHILLIPS, wholesale, Portland, Me.; or sent anywhere by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 60 Pills, by return mail.

Sold by W. R. PRESTON and all druggists.

Perfect Freedom from Cough, in Ten Minutes after Using, Insured by

Bryan's Pulmonic Wafers!

References can now be given to numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Uvula, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and premature death. This remedy, although only recently introduced in this vicinity, has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

MUSIC, MUSIC.—We are glad to be informed that the Mendelssohn Quintet Club of Boston, will give one of their fine instrumental Concerts in this city, on Monday Evening next, 27th inst., at the Temple. They are too well known to require introduction to our musical readers; and, like "good wine, (California, for instance,) need no bush." Recently they gave a concert in Washington, and that staid old paper, the National Intelligencer, spoke of them in this wise:

The music afforded by this most excellent company of artists has never been excelled in this city, and those of our citizens who were fortunate enough to listen to their performances will have something to remember. The club consists of Messrs. Wm. Schultze, Carl Meisel, Robert Goering, Thomas Ryan and Wull Fries. Each member of the club is master of his instrument and an accomplished musician as well. We have heard nothing like the even, delicate mingling of sounds which these artists produce.

☞ We learn that it is in contemplation to begin a course of popular lectures in this city, immediately, and that the opening lecture will probably be given on Wednesday evening. Jan. 29th, by B. P. Shillaber, Esq.; to be followed by Artemas Ward, the inimitable. Rev. J. C. Fletcher and Prof. Clarence Butler will probably fill out the list, making the best popular entertainment of the kind lately offered to the citizens of Portsmouth.

All the speakers are well known to the community, with the exception of Prof. Butler, and we presume no one of our citizens has heard either of them without wishing to hear them again. Of Prof. Butler, the Lowell Citizen and News says:

"Prof. Butler, late of Texas, spoke last evening, (Jan. 13) in Welles Hall, on the national crisis and our duties and responsibilities. Professor B. is small in statue, of a nerve-billious temperament, with a veryenergetic and rapid delivery and commanding the use of language in a most remarkable degree. His discouse, both oratorically and rhetorically considered, could hardly be surpassed. He is English by birth and has been in this country eight years, as teacher in the Southern States.

After serving three years as Professor of English Literature in the Military Institute at Bastrap, Texas, in April last he was ordered into the Confederate service and on refusing, was tried by Lynch law and condemed to death for being inimical to the South. Just as the sentence was about to be executed the President of the College at great personal risk, interfered and saved his life, though the mob would not release him till he had been tarred and feathered, in addition to robbing him of all he possessed, save his watch which they failed to find. Through the kindness of a friend he reached Galveston where he sold his watch for enough to pay his passage to Cairo and land him penniless. Since that he has paid his way in a measure by lecturing, for which he has gifts few can equal."

☞ The inquest on the body of Enoch L. Flood, found dead in a large timber-shed, open at one end, in Messrs. Tobey & Littlefield's ship yard on Noble's Island, on Saturday afternoon last,—was concluded at the City Rooms on Monday morning. Messrs. Staples and Spinney, of Eliot, Me., (by whom the body was discovered about four o'clock Saturday afternoon) Mayor Simes, Ald. Junkins, Dr. Bennett, and Police officer Bailey, testified as to the finding of the body, and its condition. When the body was first discovered, there were two or three bruises on the face and about the eye, and some blood on the cheek and around the mouth. A lantern was, therefore, obtained and an examination of the shed was made, but there was found no evidence of there having been a struggle there. There was a large timber near where he lay, and it was thought that the bruises might have been received by his falling against that: but there were discovered no marks of blood upon it. The subsequent examination by Dr. Bennett showed that there were no marks of violence on any part of the body sufficient to occasion death. The slight bruises on the face may have been occasioned by his lying upon the rough chips,and the blood may have flowed from his nose, or been occasioned by his biting his lips or tongue in the death struggle. The body was much emaciated; and from the absence of marks of violence, the condition of the body, and the known habits of the man, there seemed no ground for suspicion that there had been foul play.

The police were notified that Flood was missing on Thursday morning, by Mr. Mark Scott, with whom he boarded. He left the house on Friday, Jan. 10th, and it is not known that he was seen alive after that day. From the appearance of the body when found, it was judged that it had lain there at least four or five days;—one of the feet was frozen into the ice somewhat, water having run into the shed, probably on the Wednesday previous, as it rained on that day.

The verdict of the jury was,—death from exposure consequent upon intemperance.

The deceased is represented, by those who knew him, to have been a good and industrious workman up to within a few years of his death; but failing to find domestic peace and happiness at home, he was led, as men are oftentimes too apt to be led, into intemperate habits, and at last perished unfriended and alone.

☞ Steam-tug Wasp was sold at auction at New Castle, on Monday, by Maj. William H. Hackett, for the sum of $1600. Capt. Rufus A. Preble, of New Castle, was the purchaser. Notwithstanding the severe storm a large company was present. We hope Capt. Preble will keep the Wasp for towage in our harbor. She is a substantial boat and in his hands ought to do a good business.

☞ Messrs. Newell & Foss will open a writing school, in the school-room under the Court House, this, Tuesday, evening, commencing at 7 1-4 o'clock, and the many who need instruction in this branch will have a fine opportunity to obtain it from well-known and able teachers.

THE WAY TO DO IT.—The Boston Journal in an article condemning strikes, says the Maine men here have resolved that they "will remain in the yard, and STRIKE with the ax and the adze for the country, once more."

☞ "The storm of Saturday," of which we spoke yesterday, has prolonged itself far into Monday, and at the time at which we write, (Monday night,) promises to be continued, like a story in the sensation papers, indefinitely.

☞ The Republican Senatorial Convention for District No. 1, will be held at the Franklin House in this city, this, Tuesday, morning at eleven o'clock.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

75 State Street, opposite Kilby Street,

BOSTON,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them to enjoy, or have a favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability in his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

THE PATENT

FOUNTAIN HAIR-BRUSH.

In the opinion of all who have seen this invention, it is the most convenient TOILET ARTICLE ever introduced, either in this country or abroad, and must inevitably *supersede all other Hair-Brushes*, whenever an opportunity for comparison is afforded. All scientific men who have examined it pronounce it a complete success. It is simple in principle, perfect in operation, cannot by any possibility get out of order, is compact, elegant, durable, and *will save twice its own price* within three months, by *economizing Preparations for the Hair.*

THE FOUNTAIN HAIR-BRUSH is guaranteed to effect a *Saving of One-half* in the use of all hair-washes, oils, &c., as compared with any and every other article applying with them, some of these articles cost from one to two dollars per bottle, this is a matter of no small moment.

To recapitulate, in brief, the merits of the PATENT FOUNTAIN HAIR-BRUSH:—

It dresses the hair without soiling the fingers; it effects a saving of one-half in the use of hair preparations; it does away with the greasy hair-oil bottles; it is a handsomer article than the common hair-brush; it regulates the quantity of fluid used, to a drop; it is perfectly *tight*, and cannot spill over on the trunk or the toilet; it carries enough of any preparation to last for a voyage or a long journey; its price is moderate, and it saves its own cost in three months; and finally, no sensible person who uses the PATENT FOUNTAIN BRUSH will ever use any other.

BLACKWOOD'S MAGAZINE

—AND THE—

BRITISH REVIEWS,

Great Inducements to Subscribe!

PREMIUMS and REDUCTIONS.

L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals, viz:

1.
THE LONDON QUARTERLY (CONSERVATIVE)

2.
THE EDINBURGH REVIEW (WHIG).

3.
THE NORTH BRITISH REVIEW (Free Church.

4.
THE WESTMINSTER REVIEW (LIBERAL).

5.
BLACKWOOD'S EDINBURGH MAGAZINE (TORY).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.

The receipt of ADVANCE SHEETS from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS. (Regular Prices.)

	Per ann.
For any one of the four Reviews	$3 00
For any two of the four Reviews	5 00
For any three of the four Reviews	7 00

For Blackwood and the four Review	10 00

Money current in the State where issued will be received at par.

POSTAGE.

The postage to any part of the United States will be but **Twenty-four Cents** a year for "Blackwood," and but **Fourteen Cents** a year for each of the Reviews.

At the above prices the Periodicals will be furnished for 1862, and as a

PREMIUM TO NEW SUBSCRIBERS,

the Nos. of the same Periodicals for 1860 will be furnished complete, *without additional charge.*

Unlike the more ephemeral Magazines of the day, these Periodicals lose little by age. Hence, a full year of the Nos. for 1860, may be regarded nearly as valuable as for 1862.

Subscribers wishing also the Nos. for 1861, will be supplied at the following EXTREMELY LOW RATES.

Splendid Offers for 1860, '61, and '62.

For Blackwood's Magazine,	the 3 years,	$5 00

Any of the above works will also be furnished to *New Subscribers* for the year 1858-9, and 9,

At One half the Regular Subscription Prices.

Thus a *New Subscriber* may obtain the Reprints of the Four Reviews and Blackwood

SEVEN CONSECUTIVE YEARS FOR $37!!

Which is but little more than the price of the *original works* for one year.

As we shall never again be likely to offer such inducements as those here presented,

Now is the time to Subscribe!!

☞ Remittances must, in all cases, be made *direct to the Publishers*, for at these prices no commission can be allowed to agents.

THE NEW YORK TRIBUNE

Large Premiums!

TO OUR FRIENDS.

Hitherto, we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE. We have printed the cheapest newspaper, considering the outlay by which it is produced, that was ever issued in any country, selling it for little more than the cost of the white paper; have employed no agents to canvass for subscribers, and have allowed no compensation (beyond a copy of our paper) to any of the thousands of generous friends who have annually taken care that the number of copies of our several issues, circulated in their respective neighborhoods, should be at least maintained, and if possible increased. We have been sparing even of verbal thanks to these friends, but have none the less realized the fullness of our obligation for their earnest, unselfish, painstaking, persistent efforts.

We propose for the present season only—in view of the hardness of the times, and the fact that we are enabled to buy white paper somewhat cheaper than we have hitherto done, or can hope to do after the close of the War—to make some small acknowledgement, not so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to obtain subscriptions (whether original or renewals) to our Weekly and Semi-Weekly editions. We do not know that we could offer anything of similar value more acceptable or profitable to us, useful than a Gold Pen of the best quality and finish. We propose, therefore, to forward to each person who, during the next three months ensuing, shall send us subscriptions and payments for THE TRIBUNE, as follows:

Weekly Tribune.

For $12, Eleven Copies Weekly Tribune, *addressed to each subscriber*, and Pens or Pens and cases to value of....$1 00

For $10, Eleven Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 1 00

For $20, Twenty-one Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 3 00

For $40, Forty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 8 00

For $50, Fifty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10 00

For $80, Eighty Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....18 00

For $100, One Hundred Copies Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..25 00

$1 20 each will be required in all cases where the Paper is to be addressed to each subscriber.

Semi-Weekly Tribune.

For $11 25, Five Copies Semi-Weekly Tribune, and Pens or Pens and Cases to value of.....$2 00

For $20, Eleven Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of..... 4 00

For $40, Twenty Cop. Semi Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....10.00

For $60, Thirty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of.....17 00

For $100, Fifty Copies Semi-Weekly Tribune, *to one address*, and Pens or Pens and Cases to value of...30 00

$2 25 each will be required in all cases where the Paper is to be addressed to each subscriber.

The pens will be of the manufacture of A. Morton, whose make we are using, and we know them to be the best made. They will be furnished at the manufacturer's lowest prices. To choose as to the style and quality of Pens or Pens and Cases wanted for premiums, our friends are referred to the manufacturer's prices in another column.—Also "The Pen is mightier than the Sword," and be particular and specify the number and quality of the Pens or Pens and Cases preferred.

Specimen Copies of the Tribune sent when requested.

When Drafts can be obtained, it is much safer than to remit Bank Bills. The name of the Post-Office and State should in all cases be plainly written. Payment always in advance.

And examine the PATENT
UNIVERSAL CLOTHES-WRINGER,
THE GREATEST LABOR-SAVING MACHINE NOW IN THE MARKET!
Will more than pay for itself in the Wear of Clothing.
FOUR REASONS
Why no one should be without one of them:
1st.—It will wring four times as fast as can be done by hand, much drier, and with one-fourth the labor; and wrings anything from a silk glove to a heavy Blanket.
2d.—Is simple, strong, and durable, and will not get out of repair.
3d.—Any servant will use it with safety to the machine, and with great saving of wear to the Clothes.
4th.—It is readily and firmly secured, to tube of any thickness, and can be easily detached and set aside.
No House should be without one.
